

PRERNA JANI

2021-22

DOB- 5th March'11

My name is Prerna Jani. I am 11 years old. I study in Auro-Mira Vidya Mandir. The subjects I study are Science, Maths, Hindi, English, Social Science and Odia. I also participate in Dance, art and sports. My school is surrounded by nature and is very beautiful. I will try to study hard. I am going to finish my Math book soon as there are only 7 chapters left. My favourite subjects are Math and Science. My favourite games are football, basketball and fun games.

Mathematics-

I am studying with Basant bhaiya. I like to do Mathematics. The chapter I am currently doing is Quadrilaterals. In math, I find the chapters on linear equations in one variable, ratio proportion, unitary method, and triangles difficult. I am doing the class 6 book in Math. The chapters I find easy are number system, factors and multiples, whole numbers, integer, fraction, simplifications, decimals, algebraic expressions, line segments, rays and lines, parallel lines, polygons and quadrilaterals. I like to study with Basant bhaiya, because he has taught me in my previous class too.

Social Science –

I am doing the 7th class book in Social Science. I am not interested in doing social science. The chapter I am doing now is Democracy. Bhaiya teaches us Social Science very nicely but I am unable to control myself and see here and there. That's why I cannot bring good marks in the test. Whenever didi asks me a question I stand up. Sometimes when we read the chapters, I feel very sleepy. This time I worked hard and got good marks in the tests.

Science-

I am doing the 4th book in Science since I have finished my 3rd book. I like science because when Didi or Bhaiya

teaches us then I can understand nicely. We also do very nice and interesting experiments. Didi also shows us videos of those topic.

The topics I liked are animals, plants, birds, flower, water, soil, human body etc. I liked them because they were very interesting. We also did some

experiments of water cycle and soil. I try to pay attention but sometimes I don't because I am not interested in some chapters and I look outside. The topic I found difficult was rocks and minerals because there were many kinds of rocks and minerals. I learnt there are 5 kinds of minerals in the soil.

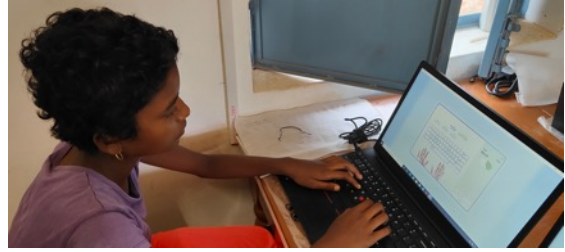

English-

I like English class because it is too interesting. I like grammar, group reading and free reading. Sometimes I don't like to do group reading because some children read very slowly and some of them read very fast. In grammar, I like to do question answers. I also learnt many poems like 'Krishna, Who, Surrender and Tree.' We also do dramas. I am interested in doing these things. From these things I learn many things. When Tulsa Didi taught us English, she played the spelling game so that we learn spelling nicely and also write well.

Computer-

In computer class we do typing. Sometimes I play with my shirt and laugh. When Lalu bhaiya would come then I would be very scared and start typing. He has told us to pay attention in the computer class but we don't listen to bhaiya. I am happy to do typing master. I have yet to learn many things in computers. I like to do computer class with Lalu bhaiya because he teaches us nicely and seriously.

Odia-

I like to hear stories in Odia and also like to take dictation in odia class. But sometimes I feel like sleeping. When Anni (Anandamayee Sahu) didi was there then she taught us dramas in Odia. Anuradha didi taught us how to write a, b, c, d, etc. in Odia. She also taught us how to read and sing Odia songs.

Dance-

I like to dance because I am interested in it. Now we are learning steps for the Mahabharat and 'What do you mean'. I am interested in doing these dances. Sometimes I get bored when dancing and am not able to dance because I do not concentrate. I like to do speedy dances with Suparna didi.

Art –

I like to do art class because we draw, paint, colour and make hanging arts. The teachers are Brishti didi and Suparna didi. Brishti didi taught us how to shade the drawing. Both of them taught us how to shade in oil pastel colours. Surekha didi taught us how to make flowers in a pot. I like to do art class.

Games –

I like to play games. My favourite games are football and basketball. I know how to kick the ball. I am interested in games. There are many games that we learn on the field.

Shramdan –

In Shramdan I do kitchen work, toilet cleaning, gardening etc. I like to do shramdan. I have different teachers like Jagat bhaiya, Chandrama didi. In winter season I don't like to do toilet cleaning and gardening because after shramdan we have to touch cold water. In the summer season I like to do kitchen work, hostel cleaning and school cleani

Celebrations-

On 15th August we did a play on freedom

fighters. I was a Britisher. I liked that play very much. Sangita didi taught us this play. Neela didi also helped.

Janmashtami– We did a dance on Krishna's music. This dance Superna Didi taught us. I learnt very nicely.

Ganesh Chaturthi- I did a play on Ganesh. I was Parvati. This play we learnt from Neela didi.

29th November- We did a play on Upobaso Broto. My character was a monkey.

This play Anni Didi taught us.

Christmas- We sang a song. The song was 'Phool khil

paye'. This song Manisha Didi taught us.

31st December –We danced and sang a song in Odia .

The Mother's Birthday – We did a drama, 'The perfect gift'. it was very easy for me to remember the dialogues.

Holi –We played games. I played carom. My opponent was Parul. I enjoyed it very much.

Yoga-

In yoga class we learn many asanas like – garuda, tree, bird, triangle etc. We also do surya namaskar. In yoga, I like to do stretching but I can't do it properly. The asanas I can't do are pashtimutasana and butterfly pose. I like yoga class very much.

Sports Day-

We did 100 m race. I won the race. I liked sports day, I enjoyed it very much. Every year, we play games, but this time we did not play games. We also did high jump on sports day.
