

Ruhani Muduli

DOB-24-Oct-14

Attendance-183 days out of 183 days

Report for 2024-25 (first term)

Introduction

Ruhani is quite an extrovert and talks to everyone very frankly and in a friendly manner. She enjoys chatting with her friends a lot. She is the second child at home, with one elder brother, a younger brother, and a younger sister. She loves her siblings dearly and takes care of herself and her younger sister, who stays with her in the hostel. Earlier, she would fall sick quite often, but now she is a healthy girl and rarely falls ill. She keeps herself clean, but she needs to learn to keep her things in proper order and tidy. In her free time, she loves to play with her friends.

Mathematics

Ruhani is working on the fourth book in mathematics. She is currently studying the chapter

on time. She has almost finished the chapters on factors and fractions and is clear about the three operations of fractions: addition, subtraction, and multiplication. She needs a little more practise on the division of fractions. She approaches maths with interest and works hard to complete her book. Whenever she has doubts, she asks for clarification.

Science

Ruhani is a sincere girl who loves science, particularly answering questions from the course book. She can be inattentive at times but focuses during theoretical explanations that are also practical. She enjoys when theories are explained concisely. She participates actively in class and asks many questions. During practical sessions, she quickly grasps the concepts taught and earns good marks on tests.

Social Science

Ruhani enjoys social science class and likes answering questions after learning each chapter. So far, she has studied three chapters from the 6th-grade social science book, and she understands all of them. She enjoys the activities like drawing that come with the class. She listens attentively and participates in group discussions, trying to answer questions when asked. Sometimes, she feels sleepy in class. She enjoys learning about the three Stone Ages and is slowly improving her writing skills. When she takes tests, she scores well.

Hindi Ruhani reads with fluency and correct pronunciation; after reading the stories, she understands them well. She has a strong foundation in literacy skills. She has a proactive approach to seeking clarification when encountering challenging words. She enjoys independent reading.

Participation in weekly group reading sessions has significantly contributed to Ruhani's improvement, particularly in dictation exercises where she has diligently worked on her spelling skills. She needs to work on her handwriting.

In recent months, Ruhani has successfully embarked on structured study through book work, completing "Gunjan Book 2" and working on "Gunjan Book 3." She understands the stories from the book and tries to solve the questions given, but she needs to work harder to get the correct answers. Nevertheless, she never gives up and tries her best to find the correct answers. She has also started grammar book 2, where she understands the chapters and solves the questions as homework. However, when she takes a small test of the grammar, she finds some chapters a little difficult.

English

Ruhani shows great enthusiasm in her English class, especially when reading stories, particularly fairy tales. Her pronunciation is commendable, and she demonstrates a solid understanding of the

stories she reads. In her weekly grammar sessions, Ruhani enjoys learning about sentence construction and the four types of sentences: assertive, declarative, interrogative, and exclamatory. Although she initially found these concepts challenging, her understanding has improved significantly with clear examples from her teachers. Her handwriting has also seen noticeable improvement, becoming much neater and more refined compared to earlier.

Odia

Ruhani communicates clearly in Odia and has good letter recognition. However, she often requires assistance in reading and writing.

Arts and Crafts

Ruhani has been actively engaged in her art class, where she has crafted various works, including a Rakhi, quilling, drawing, and a rabbit box. Among these activities, she encountered challenges while making Rakhi, initially struggling to grasp the steps involved.

After some guidance, she selected a particular design to focus on. Her eagerness to learn different forms of art is evident, and she approaches each task with meticulous attention to detail, completing her work quickly and neatly. Ruhani's dedication and passion for art shine through in her creations.

Puzzles

Ruhani enjoys puzzle class as it engages her mind. She loves doing fifty-piece puzzles the most and prefers solving them on her own. She can solve fifty-piece puzzles easily and quite quickly. Although she enjoys fixing puzzles by looking at the picture board, she sometimes feels lazy when it comes to the hundred and five-hundred-piece puzzles. While solving puzzles, her mind can get a bit distracted, and she feels like watching TV. However, if she is interested, she happily fixes puzzles with full concentration.

Dance

I enjoy doing Kathak dance. We have performed dances for our school's birthday, Independence Day, and Ganesh Chaturthi. I performed a dance for the Independence Day competition. I take more time learning the new steps of classical dance than others. I have learnt the names of the fingers in Sanskrit and I also know some mudras of classical dance. For the 15th of August competition, I did a solo dance to the song "Maatiko Maa Kehate Hain." I had confidence in myself, which helped me win second prize with this performance on stage. For the school's birthday celebration, I performed a dance to the song "School Chale Hum." On Rath Yatra, we did a dance to an Odia song. On Independence Day, we performed the "Jai Ho" dance. For Janmashtami, we learnt a dance to the song "Meera Ke Prabhu." For Ganesh Chaturthi, we learnt a Kathak dance from Suparna didi. I have learnt some steps

of Kathak dance and I am now refining them. I know the Bhumi Pranam of Kathak dance and Bharatnatyam.

Yogasana

Ruhani tries to be on time for yogasana and enjoys performing asanas. By practising yogasana, she is working on improving her flexibility. She can easily perform Chakrasana and Swan Pose. She strives to do the other asanas as perfectly as she can. Her favourite posture is Savasana, which is usually done at the end to relax all parts of the body.

Shramdaan (Work offering)

Ruhani is in the Eubacteria group during shramdaan. She participates in various shramdaan activities such as cleaning the boys' hostel, girls' hostel, school, toilets, gardening, and kitchen work. She has learnt to carry out all these activities properly and does them sincerely, collaborating with her group while doing teamwork. She enjoys school cleaning the most.

Games

Ruhani regularly attends games but often reaches the field late. She does her exercises and running before playing games. However, she needs to build strength and flexibility to perform the exercises properly and to develop stamina for running fast. She loves playing games such as basketball, football, base-kickball, and other minor games. Her favourite game is football, and she shows improvement in her skills. She is currently learning basketball and enjoys learning to dribble, catch, and throw.

Satsang

Ruhani enjoys participating in satsang. She tries to sit straight throughout the satsang period and

chant and sing. She likes doing satsang with different teachers throughout the week and is interested in learning new songs from them. Recently, she learnt the song 'Darshan Do Ghanshyam' and was able to learn it very quickly, having great fun in the process. Now she can sing it properly and enjoys singing this song. She also takes a keen interest in listening to stories every Monday.

Competitions

Ruhani participated in dance, art, and poem writing in the competition held in August. She took part in

these competitions not for prizes, but for the learning experience. She learnt something new from each of them—not only from these three competitions, but also from others such as quiz, speech, and singing. She tried to give her best in all of them.

Celebrations

Many programmes and festivals take place in the school, and Ruhani loves celebrating them. She enjoys participating in dramas, dances, and singing performances on stage during these programmes. On the school's birthday, she performed a play named 'Ishwar kanhan hain' along with her friends, narrating the play and doing quite well. She had fun performing it as she understood the story very well. She also enjoyed performing a Kathak dance on the school's

birthday. She had the opportunity to perform the dance again during Rath Yatra and gave her best performance on both occasions. Although she takes less interest in dance, she participated in the dance for the song 'Hatara Badhi' during Bahuda Yatra. She also danced to 'Jai Ho' on Independence Day, to the song 'Mira Ke Prabhu' on Janmashtami, and to the chant 'Vakratunda Mahakaya' on Ganesh Chaturthi.
