

JOY GROUP REPORT

Report for 2023-24 (Second term)

The children of the Joy Group commenced their schooling journey on December 14th. Initially, their transition to the new school was challenging as they were nervous and missed their mothers dearly. However, within a few days, they adapted well and became comfortable with their surroundings. Currently, all of them are happy and attend school regularly. They are making efforts to converse in Hindi.

During circle time, they engage in chanting and singing sessions. They have learned various chants such as "asatoma satgamaya," "shri vakratunda mahakaya," "om anandamayee," "om bhur bhuvaswaha," and "gurur Brahma." Additionally, they have learned songs like "chhoti si munni," "row row row your

boat," "dhobi aaya," "nache re mor," "hathi aaya jhumke," "machhli jal ki Rani," and "tan ho sundar."

In mathematics, they are learning counting up to ten, with some children progressing to counting up to twenty. English lessons focus on introducing new, simple words like sun, tree, flower, elephant, and star. The children enjoy listening to stories and looking at pictures.

During activities, they engage in colouring, scribbling on paper, and finger painting. They also collect leaves and stones, using them for designing or counting exercises.

During a program on the Mother's Birthday, the children performed a song

titled "O Sweet Mother." Although nervous on stage, they all participated with enthusiasm. Overall, the children have developed a fondness for attending school and are eager to learn and participate in various activities.
