

# Jagdish Krisani

DOB- 05-May-08

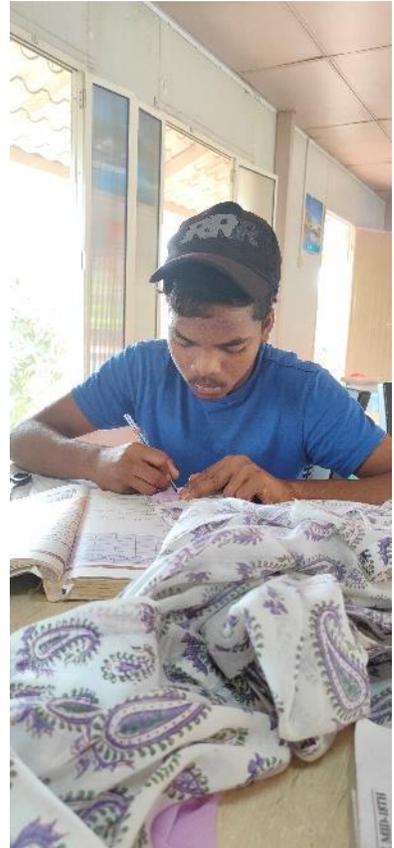

## Report for 2022-23 (1<sup>st</sup> Term)

My name is Jagdish Krisani. I am in Humility group. I am doing class 10<sup>th</sup> book of NIOS in class and nowadays, I don't disturb any didi much. I like to be with my friends. When I stay alone, I don't like to do anything. My favourite sport is football and my favourite subject is Home Science because it is easy for me.

### Shramdaan

I like to do shramdaan. The shramdaan we do are kitchen work, toilet cleaning, gardening, and hostel cleaning. In kitchen nowadays, I cut vegetables like potatoes, onions, **tundry**, etc. In hostel cleaning, we clean the drains and verandah, and we sweep and mop. In gardening, nowadays we don't dig because the digging machine can do it, but we take out weeds. I like to do school cleaning because after finishing quickly, we become free.

## Hindi

Now I am doing 10<sup>th</sup> class book of Hindi. In this book, all the chapters are easy. Now I am revising the chapters. In June, Krishna (Aghi) didi came and she taught us grammar like *aupcharik*, *varn vichched*, etc. After Krishna didi left, Poonam didi came and she taught us how much we can write in 10 minutes. She also taught us how to concentrate and corrected my spellings. On Tuesdays, we all do free reading. I am now revising 10<sup>th</sup> class book with Manisha didi and learning how to write

*prasang vyakhya*. We have given full book test. I am happy to learn Hindi.

## English

In English class, I have finished the 1<sup>st</sup> book and now I am doing the 2<sup>nd</sup> book. We are giving chapter-wise tests of the 1<sup>st</sup> book. My handwriting is good but when I write fast, it becomes dirty. Sometimes, we do English grammar like Direct to Indirect speech, noun, pronoun, etc. and at

other times, we do free reading. In free reading, I read stories like Robin Hood, Moby Dick, Narnia, ABCD Stories etc. On Ganesh pooja, I narrated a story on stage and on 15<sup>th</sup> August, we did a play of Sri Aurobindo. On July 5<sup>th</sup>, we did a play named "Ouch!".

## Social Science

In Social Science, I have completed Civics and Geography of 10<sup>th</sup> class of NIOS. After finishing a chapter, we give a test. Geography is very easy for me, but Civics is more difficult. I have finished studying the second book, so now I am doing the first book, in which many chapters are easy. We are also writing notes. Our Social Science didi, speaks some words very fast.

### Computers

I have finished seven chapters in Computers – of these, the easiest were the first, second and third chapters. We have given tests

of five chapters. My reading speed is fast and nowadays, I write notes. Data entry subject is a little difficult for me.

### Games

I play games nicely. I play football, basketball, and volleyball. I like to play football and volleyball the most. I am not able to play

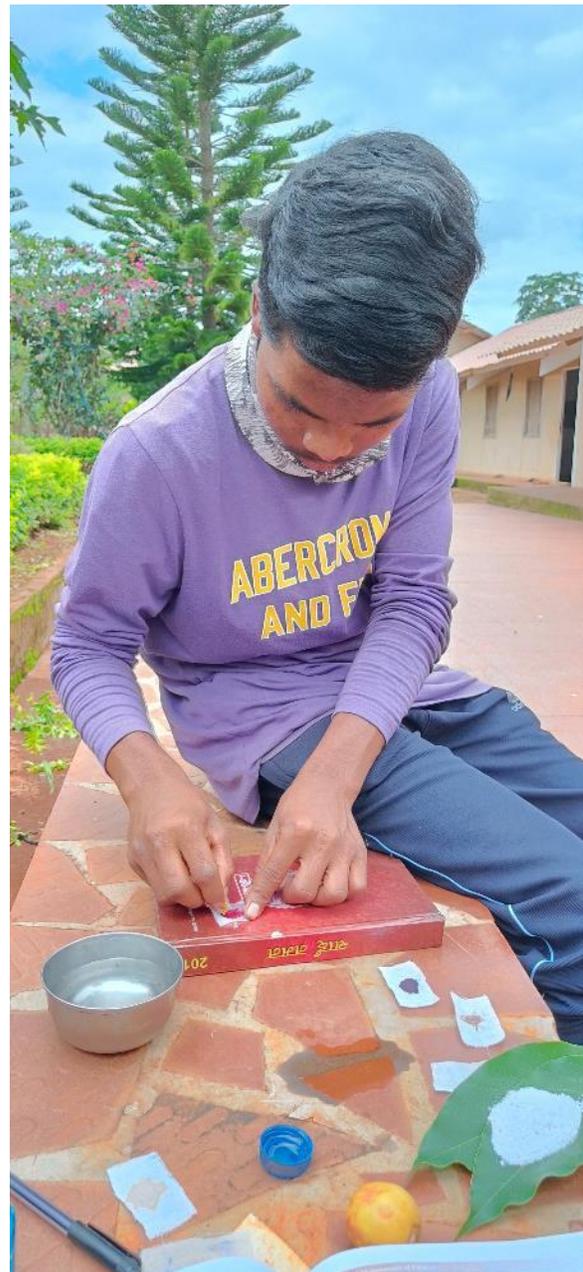

passes. As goalkeeper also I play perfectly but when opposite team scores a goal then I don't like to be the goalkeeper.

### **Home Science**

He is enjoying writing the practical. He likes this subject because it is easy for him to understand. He has finished the syllabus but in some of the chapters he has difficulty in understanding, e.g., care and maintenance of fabric,

basketball properly because I don't get pass and that's why I don't like to play it. In football, I play mostly as defender, but sometimes I play forward and I get many

introduction to resources, etc. He has a good understanding and, also has a neat handwriting. In the test, he obtained 33 out of 45 marks. However, most of the times he doesn't concentrate in the class, and he is distracted by other things. He rarely speaks in the class.
