REPORT FOR 2024-25 (SECOND TERM)

Introduction

I'm Pinki Gouda. Now I have finished my first-year exams and am studying graduation second

year at Auro-Mira Vidya Mandir in Kechla. Alongside my studies, I'm actively involved in teaching younger children. I take four classes. I have a maths class in the Peace group at 10:30 and in the afternoon I have social science class with the Courage group at 1:30

PM and then at 2:30

PM I have art class with the Peace group children. In the evening, I have a maths class with Courage group group children at 7:00 PM. I also have weekly games turn with the Unity group children. I conduct these sessions from 4:15 PM to 5:00 PM. I have a deep passion for basketball and volleyball and enjoy playing them.

Shramdan

Shramdan is something I take pride in. I contribute to the girls' hostel by performing various tasks, including toilet cleaning, filter cleaning, open drain cleaning, floor cleaning, and staircase cleaning. On Sundays, I also inspect the rooms of younger children to ensure cleanliness and also clean my own room. My regular Shramdan routine is in the morning from 6:30 AM to 7:30 AM, although it can sometimes extend if I start late. I'm very diligent in my tasks and often lend a hand to other children if I finish my work early. When it comes to specific tasks:

Sweeping and Cleaning the Floor: I take care of both the south and north buildings. I start by sweeping the floor and then proceed to wipe it with a mop.

Toilet Cleaning: On toilet cleaning days, I gather all the necessary supplies. This includes washing washbasins, toilets, and bathrooms. Sometimes, I scrub the walls of the toilets and bathrooms. Even in cold weather when I don't feel like dealing with water, I persevere because the work must be done.

Staircase Cleaning: During staircase cleaning days, my partner and I work together to sweep the entire staircase, from top to bottom. We then wipe it clean.

Filter Cleaning: I take charge of cleaning both filters in our hostel. This involves scrubbing and refilling them with water.

Open Drain Cleaning: My partner and I tackle drain cleaning by using brooms to remove leaves and ensuring the drain is clean.

Sunday Cleaning: Every Sunday, I go to check the room of the children and after that I go to clean my clothes, room, cupboards, and dusting with my roommate Brishti.

Games

I have a passion for playing games, and basketball is my absolute favourite and after that I love volleyball. I participate in the second round of basketball with the elder didis and bhaiyas, and I absolutely love it. I play from 5:00 PM to 6:15 PM. Lately, I've noticed an improvement in my shooting skills, which makes me even more passionate about the game. I also volunteer on Wednesdays, with my games turn with Unity Group children. On that day they have fun games so they play many types of games like hide and seek, football, chain game, ice and water, etc.

Sports day

We celebrated our Sports Day on 16th January and I had participated in doing marching. I had also volunteered with Kokila didi, Tulika and Bhakti and we made the Bliss and Peace group children do a butterfly dance. On Sports Day I did marching and, in the afternoon, we dressed

the Peace group children for the programme and I watched the programme with everyone.
