

RACHNA GOUDA

DOB- 24-Apr-12

Rachna joined school just when the lockdown had started. She had never been to any school before this. She has been working very hard and trying to cover up.

PROJECT

Rachna is a very active and attentive girl. She is a hardcore optimist. Although she can't remember many of the things, she always keeps trying and never loses hope.

"India" - Topic

She is younger than other peers and always wants to achieve. She has interest in various topics and streams. In this topic she had learnt the names of states of India and their capitals. She had taken up

Jammu & Kashmir as her topic for presentation and to write on. She had written about the occupation, important places, culture etc. She had made a model little boathouse by herself. She decorated it with diyas. She is still not very fluent in her languages but despite her incapability, she tries to read and write by herself. She has a good memory and can quickly grasp the words, but she needs to work on her pronunciation. She participated in the presentation and spoke well though it was slightly rushed. She spoke on Architecture, skits and cultural dances of Kashmir.

"MEASUREMENTS"

She is diligent in her studies and curious to learn new things. Rachna is always eager to give the answers. She has a good concentration. In this topic she participated in many activities like measuring pen, book, tiles, Havan place, length of veranda with foot span, handspan, measuring things with weight and balance etc. She had joined late in the project class, but she caught up very fast. Though her reading is not satisfactory, she can write well. Rachna can remember new words, but her spellings need to be spruced further.

"Air"

She was very keen to learn about Air. She studied its constituents and properties. She performed many experiments in the lab and learnt ways to prevent pollution. She expressed her desire to be a front benchner so as to be able to concentrate well without any distraction. For this topic, she learnt new words but could

not remember phrases. She made some errors in writing. She also participated in the presentation at the end of the topic, and she explained about air pressure (magic egg) but amongst interesting experiments was “lungs capacity” as she learnt how to check her lungs capacity. Rachna is a smart girl.

“Solar system”

During the class she is always attentive. She participated in the group discussions. She could read books and write the main points of the planets, but she had less understanding of the concept.

With help she could understand. She liked seeing the videos of solar system, but she was not able to fully understand. She really enjoyed doing the drawing of planets and colouring them with her friends. She had less understanding of measuring the distance of the planets from the sun. She painted the sun in the havan place. She understood the concepts, like day and night, seasons, moon, asteroid, meteor etc. She

made the chart on “Seasons” with her friends Manish, Pranav, Rashmi. She was very interested in learning about it. She was very happy to learn the solar system song and learnt it fast. During the presentation she took the role of the moon. In the test she got 16 out of 25.

“The Earth- Natural Disasters”

Rachna was focused during the discussions. She understood the three layers of the Earth. She saw small videos on natural disaster like volcano, earthquake, flood, cyclone and landslide. She could understand the videos

and tried writing on her own but needs to improve her spellings and composition. She has shown determination at learning which is a big positive. She also made a chart of Floods with Naira. She understood what she wrote in the chart but needs to be more confident while presenting. She took time to remember the chart which she spoke during the presentation. She was hesitant due to which she did not speak clearly.

“Ideal child”

She was able to understand the chapter during discussions. She was very focused. She enjoyed writing the stories of qualities of an Ideal child on her own but sometimes the stories were very funny. She finished her story by only writing it in two sentences. She liked writing on “Being truthful” the most. She had taken the character of second princess. During the performance she was laughing. In the performance she was given a small sentence and she could speak it very clearly.

"Aeroplane "

Rachna loved this topic. To present to the children, she had difficulty in remembering the lines. She liked making an aeroplane with chart paper. She also coloured it beautifully.

"Materials Around us"

She was quite happy to do this topic as we did many activities and experiments, like collecting materials from the surroundings and sorting them into their groups and according to their characteristics and testing the solubility and insolubility. Although she couldn't remember all the things, she was excited. With her friends she made a chart of materials in which she wrote about - what are metals and nonmetals.

MATHS

"I love maths because I am interested in solving maths problems. I had taken time to understand chapters like geometry and Fraction. I have finished third class maths book and started the fourth book. I can learn certain chapters very easily. I can add, subtract, multiply and divide correctly. I have done some chapters like measurement and time in the group with everyone." As told by Rachana herself.

Rachna is a disciplined child. It has been a little more than a year for her in the school and she has learnt at par with her peers, and with her zeal, in time she will be better than the others. She never gets upset on questions and instead she tries harder each time.

HINDI

She has learned a lot in a very short time. She is good at reading though she has difficulty with some words. Her writing needs a lot of improvement. She has an acute sense at learning and does not hesitate in asking for help repetitively till she becomes perfect at it. She likes to participate in dramas. Now she is doing 3rd class book of Aviral.

ENGLISH

Rachna is pretty good at speaking in English. She is quite good at reading but sometimes takes time to recognise the words and pronounce them correctly. She is now able to make simple sentences. She is doing the 3rd book of grammar.

ODIA

Rachna can communicate in Odia and can pronounce well. She needs more practise in reading and writing. She takes interest in the class. While taking dictation, she sometimes makes spelling mistakes and later does the corrections.

Computer

She enjoys doing computer class on Thursdays. She takes help from Shivam when she doesn't understand what to do. She is learning "typing master". She needs lots of improvement in typing.

DANCE

Rachna takes interest in dance. She has learnt some classical steps, folk and hip-hop dance. She listens well to the instructions given in the class but takes lots of time to learn. On 15th August she performed a folk dance and a classical dance on Janmastami.

She performed a hip-hop dance on 31st December.

MUSIC- On Sundays she has her music class. Rachna has improved in singing.

ART AND CRAFTS

In art class Rachna is able to do things by the instruction given to her. Her drawing is good. She is interested in drawing "Princess" and her colouring is also excellent. She mixes colours to get different shades. In paper folding she has made crab, paper man, Christmas tree and fish. She was able to fold without any difficulty.

SHRAMDAN

In shramdan she is in group A. She likes to do kitchen work like cutting vegetables.

GAMES

She likes to play football. She likes to do exercises and running before games. She can run very fast. In football she likes to run after the ball and get the ball from her opponent and score a goal.
