

Group report of Faith and Aspiration Groups for the year 2021-22

All students doing their graduation from IGNOU (Indira Gandhi National Open University) are a part of Faith Group and all those enrolled in Class 12 from NIOS (National Institute of Open

Schooling) are a part of Aspiration Group. Both these groups are very loosely knit as students have taken various streams and are also at different stages of their course. The students are

studying at their own pace and independently decide when they want to appear for which exam. All of them are quite responsible.

At times it seems that each student is a group on his/her own as often there are no common subjects. But in reality, they have close bonding and encourage each other in their pursuit.

Some classes are conducted physically, some on-line and the students at times decide to study independently and

only get their doubts cleared. The on-line classes have been going on for many years and have not started due to Covid.

However, Covid has been terrible for these students. Exams being delayed repeatedly has resulted

in the students losing interest. The students have then appeared for

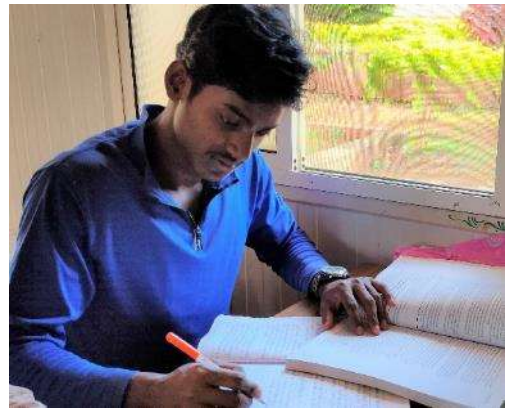

exams that have taken place at a short notice. At times the students

have been promoted for some exams without appearing for them. This too is not very good. These students come from an education system having no exams. To be promoted without appearing for exams does not boost their confidence.

The following are the students of Faith group: -

1. Basant Gouda- B. Com. (Hons.)- 2nd year.
2. Bhavna Gouda- B. A. (Hons.) in English – 2nd year

3. Bikanti Mali- B. A. (Hons.) in Psychology- Final Year
