

# Ajay Krisani

DOB-15-Dec-2010

Attendance-177 days out of 182 days

Report for 2024-25 (Second term)

## Introduction

My name is Ajay Krisani. I study at Auro Mira Vidya Mandir, and I am 14 years old. I am a 10<sup>th</sup>-grade student, and I will be appearing for my exams in October. The subjects I have to give exams for are Painting, English, Hindi, Home Science, and Social Science. I come to school regularly as I stay in the hostel, and I enjoy studying here.

## Yoga

My yoga class starts from 6:00 AM to 7:00 AM. I like doing asanas and exercises with Hari Bhaiya. Some of the asanas I practise include the Peacock Pose, Shoulder Stand, and others. I attend the class regularly and also enjoy doing stretching exercises. I focus well and concentrate during the class.

## Shramdaan

I start my shramdaan early in the morning. I do various activities like:

- Toilet cleaning – I clean the washbasins and toilets.

- Hostel cleaning – In the girls' hostel, I help pull weeds in the garden, and in the boys' hostel, I do sweeping and mopping in the dining hall and clean the tables.
- School cleaning – I sweep the entire school and clean different areas.
- Kitchen work – I love working in the kitchen, especially cutting potatoes.

- Gardening – I enjoy digging and taking care of plants.

I do my shramdaan regularly and complete all my tasks properly and neatly. I enjoy doing shramdaan every day.

## Painting

I study painting with Didi. I have completed most of the NIOS 10<sup>th</sup> book chapters and have also given tests. I did well in some tests, but in a few, I need to work harder. Currently, I am working on the Impressionism chapter's question-and-answer section. I really enjoy my painting class, and I have completed most of my practical drawings with her help. However, I am still striving to learn how to draw human lips and eyes.

I have painting classes twice a week—one at 8:30 AM and another at 2:30 PM. We have worked on hanging objects, a tree collage, and warm and cool colour drawings. I have improved my drawing skills, and I concentrate well during class. My drawings are now neat and clean.

### English

I have finished the both books. While studying, I understood chapters like "The Village Pharmacy," "The Return of the Tiger," and "The Truth." To revise, I am currently working on the question-and-answer section of the second book.

I have also learned different types of letter writing, such as formal and informal letters. It was interesting and easy to learn. Additionally, I have practiced notice writing, message writing, active and

passive voice, and direct and indirect speech. However, I am still not completely confident in active and passive voice.

For the Mother's birthday, I learnt the song "Adhyashakti Maa Mira". I also love reading novels, but I have stopped for now because I get a lot of homework. When I try to read novels, I sometimes rush through my work untidily, and at times, I don't get enough time to read. Despite this, I enjoy my English class very much.

## Hindi

In Hindi, I have completed the first NIOS 10<sup>th</sup> book but haven't started the second book yet. Currently, I am revising for my board exam by giving chapter-wise tests. In class, we also work on grammar, especially different types of tenses. Sometimes, we focus on our course-book, where I have understood the chapters that were previously difficult for me. I have also taken tests to assess my understanding. Once a week, on Tuesdays, I do free reading,

where I read Amar Chitra Katha books and Hindi novels. This helps me improve my spelling and speaking skills in Hindi. I try my best to attend class cheerfully and stay focused, even when reading lengthy texts. However, I need to work harder on my spelling, as it is still weak.

Despite these challenges, I love my Hindi class and always try my best to improve.

## Home Science

I study Home Science . Since I have completed my syllabus, I have been practising previous years' question papers. Some of them were difficult, but I took help from Didi and solved the papers by referring to my books. My board exams are approaching in October, so I have started working on my practical file. I find writing interesting, but I am struggling with drawing diagrams, making tables for observations, and drawing straight lines. Despite these challenges, I enjoy my classes and always participate in any activity that Didi asks me to do. To improve my understanding, I made a note-

book where I wrote down the difficult topics and clarified them with my teacher. The chapters that I found challenging include:

1. Health
2. Communicable and Lifestyle Diseases
3. Managing Income

## Social Science

In SST class, I learn Political Science, History, and Geography. I love History and Geography, but I find Political Science a bit difficult.

Currently, I am studying State Government, but I am confused about the functions and powers of the Governor and the Chief Minister. I need to revise my notes regularly because I don't put in extra time and effort, which affects my performance. To improve, I am focusing on short questions that help me remember key points better.

I attend class regularly and on time. Many times, I perform well in tests, but when I don't, I do correction work and prepare for a retest. I am confident in some chapters but not in others. I pay attention while teachers explain the coursebook, and my chapter-wise test results have been good.

Despite some difficulties, I love my SST class and am working hard to improve.

### Dance

I used to attend dance class once a week on Fridays. I was able to learn the steps quickly, but some difficult steps were confusing for me. My teachers would show me and my friends some videos, which helped me gain confidence on stage.

Nowadays, I no longer attend dance class because my exams are near, and I focus on self-study instead.

### Computer

In computer class, I practice Typing Master. My typing speed is slow, but I am trying my best to improve. Sometimes, I also do painting, which I enjoy a lot. I attend computer class once a week, on Mondays, and I always have fun in the class.

## Sports

I play different games like football, basketball, and volleyball. My favourite game is football, and I am good at defence. Before playing, I always do exercises and running. I enjoy daily exercises, but I need to improve my running to increase my stamina. I also like playing basketball, especially shooting from the three-point line, which has improved my shooting skills. However, I still need to work on blocking my opponents. I love to play games every day. I am regular in my sports sessions, and after playing, I always take a bath.

## Self-Study

**After taking a bath and feeling refreshed, I do self-study in the computer lab. Earlier, I used to attend Satsang, but since my exams are near, I have stopped going and now focus on homework, practicals, and question-answer practice.**

## Celebration

On New Year, I performed a small dance. The theme of the dance was "My Friends of College Life." On Republic Day, my school friends hoisted the flag in the morning. For Sports Day, I participated in a martial drill with my friends. While performing the drill, I felt very nervous, but I still did well. During practice, we

trained from 8:30 AM to 10:30 AM, and sometimes even until 12:30 PM. On the Mother's Birthday, I sang a song in English class—"Aadhyashakti Maa Mira." I was very nervous while singing and made a mistake in one stanza, but my friends helped me by continuing the song correctly. In the end, the performance went well.

## Trip

I went on a trip on 29<sup>th</sup> October, traveling by train from Koraput to Bhubaneswar. I reached Bhubaneswar between 8 to 9 AM.

After taking a bath and having breakfast, I visited Kedar Gauri and Lingaraj Temple, where I saw many beautiful statues of gods and goddesses. Then, I returned to school for lunch and later visited a science museum, where a teacher showed us some interesting science experiments. I spent the night in Bhubaneswar.

The next morning, I went to Nandan Kanan Zoo, where I saw many animals and had a great time. In the evening, I visited the Udayagiri and Khandagiri Caves. On 1<sup>st</sup> November, I went to Dhaulagiri, where I saw many Buddha statues. Then, I visited Konark,

where I saw sculptures of gods and goddesses, including the famous statue. After that, I spent some time at the beach and later visited the Jagannath Temple.

The next morning, I visited the Alarnath Temple and Chilika Lake. Later, I travelled to Bhitarkanika, where I saw crocodiles while riding a boat. Some crocodiles were swimming, while others were basking in the sun.

On 4<sup>th</sup> November, I visited Simlipal, where I travelled in a van and saw many beautiful waterfalls. A guide told us the story of a friendly tiger named Khairi, after whom the Khairi River was named. On 5<sup>th</sup> November, I had fun at Purbi Beach, then visited the Panchalingeswar Temple and a Krishna Temple, where I had dinner.

In Bihar, I stayed at Suman Surasundari Bhaiya's house and visited many holy places like Jal Mandir, Khantaghar, and Nalanda University. Every morning, we went to Rajgir to take a dip in the warm water of Brahmakund before having breakfast. After three days, I took a train to Lucknow. On Children's Day, I visited a park and had lots of fun. I also explored Bhulbhulaiya (the maze) and some castles. Additionally, I visited the Ayodhya Temple, where I saw a beautiful statue of Lord Ram. The place was very crowded, but I was lucky to get a chance to visit the temple. After three days, I took a train to Jhansi and arrived at 12:00 PM. Neha Didi received us at the station, and we went to her house to drop off our luggage. After having dinner, I went to sleep. The next morning, I had breakfast and visited Raja Ji's castle, which was very beautiful. Later, I had lunch and took some rest before visiting Jhansi Fort in the evening to watch a light and sound show.

The next day, I went to Ganga Aarti, but the crowd was so big that I could barely see the aarti. I also visited a science museum, where I watched documentaries about planets, which were very interesting.

In the evening, I visited Amar Ujala (a newspaper company).

It was thrilling to see newspapers being printed by machines right in front of my eyes! Later, I returned to my room, packed my bags, had dinner, and then took the school bus to the station. I said goodbye to Neha Didi, boarded the train, and returned to Kechla.
