

ABHAY GOUDA

DOB -30th JULY 2006

Report for 2022-2023 (Second Term)

Introduction

My name is Abhay Gouda. I am 16 years old. I would be appearing for my 12th exams in April. My subjects are Biology, Physics, English, Chemistry and Physical Education.

Biology

In biology I am revising for my exams. I solve the previous year question papers and do the text questions. In the online classes, we ask questions and clear our doubts. Our teacher discusses the chapters in which we face difficulty. I am trying to prepare for this paper properly.

Chemistry

I have completed my course and am revising for my board exams. I solve the previous year question papers and do the questions from the text. Meeta didi (Bisen) from Lucknow had come for 20 days to teach us. I enjoyed the classes with her. She made us solve previous year question papers and took 2 tests. I would be appearing for this paper in April, so I'm working hard for it.

Physics

Since our teacher left our classes completing only half of the courses of the book, now I am studying on my own. I study Physics very little as I don't understand and I also feel bored when I study on my own and no one is teaching. I feel more preparations is required for the exam but I would appearing for this paper in April.

Physical Education

I love studying this subject as it is related to our body and sports. I sometimes solve previous year question papers and do the question answers from the book for the revision. We were having online classes, but due to some reason it did not continue for long and therefore now I am studying on my own. As it is an easy subject, so I can understand easily and think would be able to do well in the exam.

English

English is a very enjoyable subject. I read the text on my own and solve the questions given at the end of each chapter. Sandeep Sir had come here for some days. He taught us some chapters. I enjoyed doing classes with him. I am confident enough to appear for the exams.

Games

I love to play games. Football is my favourite sports. I really enjoy playing it. I also play other games which are volleyball and basketball.

Trip to South India

We went for a trip to South India and visited most of the places in Tamil Nadu. They were very beautiful places. I enjoyed the trip very much.

We started our trip on 2nd November. Our first stop was Simhanchalam temple, it was a lovely place. After this we went to Kanyakumari which was a very beautiful place. There we saw Vivekananda memorial statue. It was magnificent. After Kanyakumari we went to Madurai where we saw Meenakshi temple, which was fabulous. After this we went to Rameshwaram- one of the four pilgrimages of India.

I felt really happy visiting it. Our next and last visit was to Pondicherry which became one of my favourite places. There we visited The Mother's and Sri Aurobindo's room. The ashram was one of my favourite places.

The Samadhi was one of the most silent place where one could feel the presence of God or the Divine. The food we got there was nutritious and healthy. The sea beach was one of the most time passing place.

The Matri Mandir of Auroville was a magnificent place and the structure of it was amazing. After having a wonderful trip we returned to our place.
