

BIKANTI 12.5 YEARS FAITH GROUP

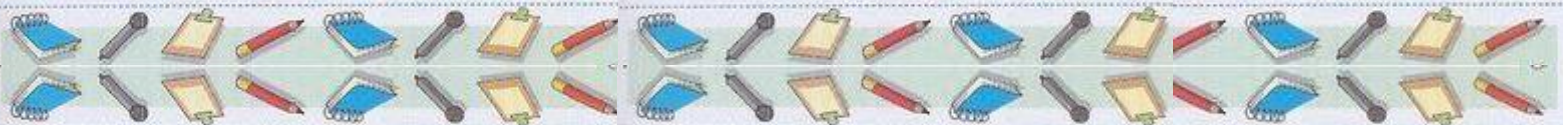

ENGLISH - Bikanti is very good in the language, be it at a grammatical level or practical application of her knowledge into stories.

She is 'cool as a cucumber' but is very animated at times, which is very infectious especially when she is telling some story.

Her pronunciation has improved, especially on the more stubborn alphabets and she can read at an unbroken pace.

Her writing has been steadily improving and her translation ability is very good and she is quick to answer questions raised by others during this writing activity.

Bikanti can now learn by herself with little support from the teacher.

ART APPRECIATION - Calm, reserved and extremely intelligent, **Bikanti** is amongst the brightest in the school.

She demonstrates a remarkable ability in recalling words and concepts.

Enjoys reading and learning new words.

Shows great perseverance continuing her efforts to excel in a task poorly executed without giving up.

MATH - Bikanti is currently doing the level 8 book. She loves doing Math. She is quite independent in doing math.

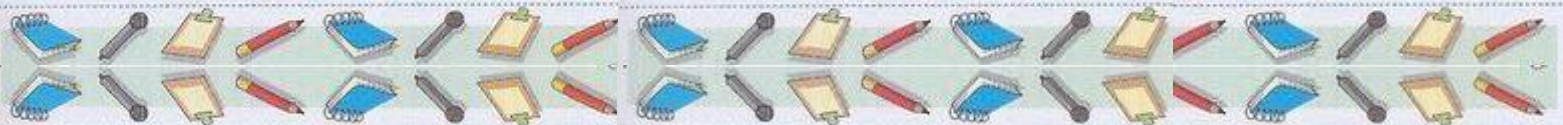

She can understand and analyse the problem on her own.

Her calculation speed is good and she is able to calculate correctly. Sometimes she used to make mistakes in algebraic expressions with the negative sign operations.

She writes very neatly with proper steps and explanations.

HOME SCIENCE - She is a good student. She has a good grasp of learning. While doing the food topic she made the classification chart well. She really likes doing cooking practical's a lot.

GAMES AND SPORTS - Bikanti is very eager to play, more **basketball** than football. She can dribble the basketball, although she still does it a little awkwardly. She can also clear the lines and pass the ball correctly. She needs to get herself in more shooting positions so as to improve on that front. In **football**, she is always running towards the goal to get a pass and when she gets it, she can put in a decent pass. In **volleyball** she is a little off balance and has trouble judging the ball. Practice will improve her skills in the less developed areas.

On the **Sport's Day** Faith Group was part of the Aero Wonders - Aerobatics Corner, Skills on Wheels - Skating Corner, Joyful Gestures - Circus Corner and Rim Jhim - Lazium Dance. Bikanti was quite skillful in **Skating**, as she maintained a high speed with an easy grace. What was inspiring was the fact that she learnt skating just prior to the event.
