

Report of Kamli Krisani

2021-22

DOB- 9th December'01

Shramdaan (work offering)

I go for Shramdaan at 6:30 a.m and oversee the shramdaan of younger children and also work myself. Our duties include kitchen, toilet cleaning, hostel cleaning, gardening and school cleaning. I like to do kitchen work the most because I have to supervise less and work more.

Volunteering

I took care of the office and all its paperwork for about an hour every morning. I then took computer class of 10th students. At 10:30 I went to Joy group for project work for two hours.

Academics

I am doing B.A (Hons.) in History from IGNOU and am in my final year. I haven't really worked hard. My exams were postponed numerous times due to Covid, so I got really lax in my studies. My subjects to study include History, English and teaching of English. I studied some of the chapters of History with Nirmala Didi. I liked her teaching style. She would make me read and then explained in her own words, which I understood. I did most of the exercises also. I studied some of the plays of Shakespeare with bhaiya, which I enjoyed and

also enjoyed doing the exercises. Some of the History subjects were difficult for me to understand and I was not able to understand many of the concepts.

Celebrations

On 15th August, Sangita di made our group do a play based on Sri Aurobindo's epic Savitri. I enacted the role of Savitri. I liked my role. I told didi to give less dialogues to me. I had difficulty in delivering my lines with expression and

slowly. I could memorise the dialogues easily. During the performance, I was confident and clear while speaking. I really enjoyed doing the drama.

Games

I enjoy playing basketball, but this year I was not going very often due to a knee injury. Instead, I was going for a run and would do exercises.
