

Pitambar

April - 2018 to March- 2019

Date of Birth- 8th December 2003

I appeared for my 10th board exam in September-October 2018.
The results were declared in Mid-December.

□ The following were my marks: -

English - 73

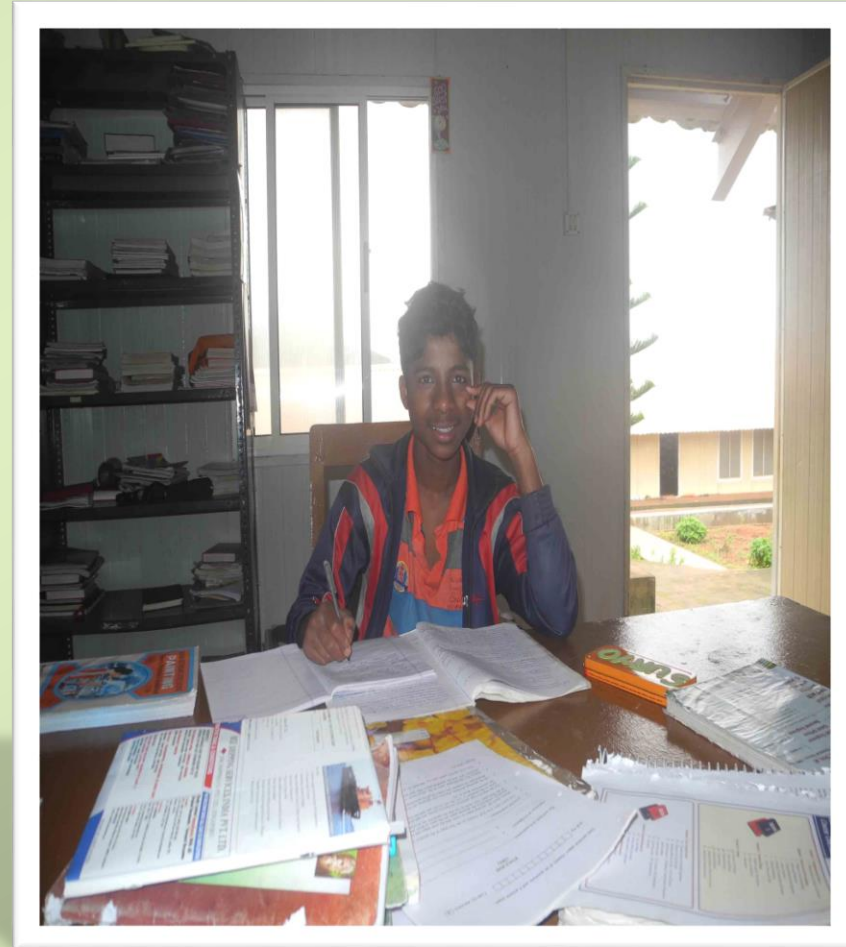

Hindi - 88

Maths - 57

Science - 68

Soc. Science - 63

Total - 69.8%

Now I am preparing for going to another school for my further studies. I was not happy with my marks in Maths and Science. After the results were declared, we had MIS (Delhi) and Hyderabad students for camps in Kechla.

I and my friends were the in-charge of these camps and conducted all the work related to the camps like bringing groceries for the kitchen, bringing grain for the cows taking students for trekking, rock-climbing, boating, swimming, etc. We took them trekking to view point, waterfall and for night trek, etc.

The camp was interesting because I came to explore and visit the forests with the students of MIS and Hyderabad.

We used to serve lunch and take full responsibility of the camps. The campers taught dance, music, art, etc. and we participated in it.

Even though my exam had finished and I had no work, I used to feel lazy and often ignored the work given.

Sometimes I did the work happily. After my tenth I studied class 11th for 2 months and after that I stopped doing maths and science. Now I again started both science and maths.

□ Trip Report

In the month of November we had a school trip to Rajasthan which was for a fortnight. I visited Jodhpur, Jaisalmer, Ajmer, Gulabpura, Jaipur, Falna, Ranakpur, Pushkar, Udaipur and Chittorgarh.

The trip was very exciting and great fun. I liked all the places. My favourite was Chittorgarh as I saw the Hyundai workshop and Gulabpura for the Mayur factory.

The factory was very well organized and the rooms to stay were extremely comfortable and each room had a TV.

Sometimes I liked walking long distances and sometimes I felt uncomfortable to walk because the weather was very hot and sunny.

□ Special Projects

I saw many beautiful temples and architecture which was done by hand. Also liked riding camels in Jaisalmer.

I was not afraid while sitting on the camel. It was great fun. The night was very entertaining in the desert after the camel ride. We saw rajasthani dances and magic show.

I didn't like Kachori in Rajasthan, but luckily we were getting rice and roti everywhere. We would reach very late at night at many places like Jodhpur, Chittorgarh, etc.

We would bath at 1 am or so at night and get up early. We were fresh by bathing in cold water. I like traveling by train and bus. I came to see the surroundings.

□ Games:-

We have one hour of games in which I enjoy playing with the team. I have stopped playing basketball and I always play football and I also don't know why I stopped playing basketball.

I like to play football with the younger children because I get to score many goals and I enjoy laughing and playing. We have many kinds of games like football, basketball, volleyball, etc.

I like playing volleyball in the village because the ball stays in the air for a longer duration of time and doesn't fall down.

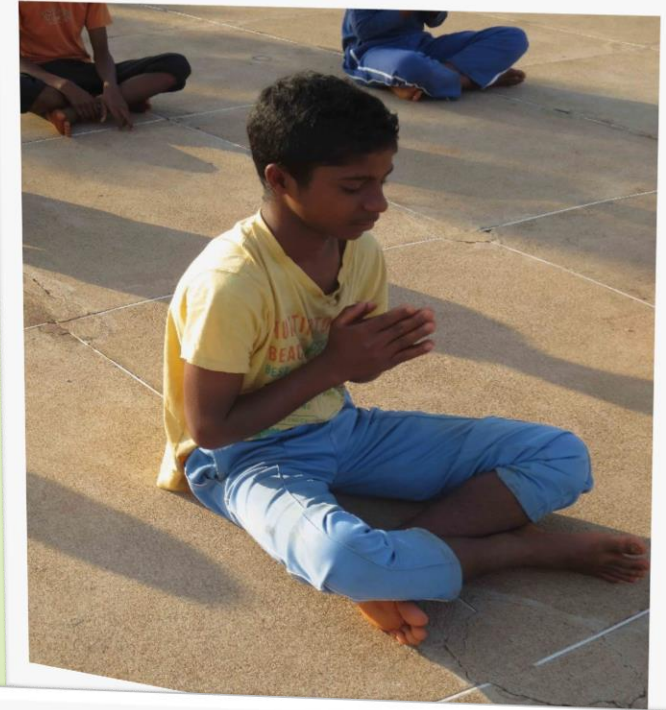

My stamina is not good so I have to build it by doing exercises and going for a run. Our sports timings are from 4:30 to 5:30.

we start our game around 5:00 pm. We had sports day in January in which we gave a demonstration.

This time I participated in cycling, and Suryodhan and I were in charge of the cycling group.

I liked the sports day because I showed them my tricks and I liked the jokes which were shown by Pranjali bhaiya and our motu jockey- Bhuvan.
