Padma Jani

Date of Birth- 28<sup>th</sup> February 2004

April 2018 - March 2019

Padma had dropped out of school in between. It took a lot of patient effort from the older children as well as the teachers to get her into the mainstream again.

Padma is a very intelligent girl, but lacks self-confidence. She has also not worked hard in academics and tries to shy away from other co-curricular activities, especially sports, cycling, swimming and drama. But in activities like arts and craft, she is very good.

There is nothing wrong in being an introvert, but in Padma's case, her not participating in sports, dance, drama and other activities, results in her not having confidence.

After Padma joined school again, she was completely averse to appearing for her Class 10<sup>th</sup> exam. It took quite a while to convince her to enroll for Class 10<sup>th</sup>. She finally agreed to appear for two papers in March-April 2019.

These are Home Science and Hindi. The practical exam for Home Science took place in March. The exams are scheduled for April. She would be appearing for the rest of the papers in September-October.

Padma had also participated in the long trip to Rajasthan, Agra and Delhi.

She opted to go with the younger students and started from Kechla in October. Details about the trip can be seen in the School report for 2018-19.

The following is the report written by Padma.

### □Hindi Report..!

In Hindi I will be appearing for the 10<sup>th</sup> board exam from NIOS (national institute of open schooling) and I have also improved in Hindi. It was easy for me to study Hindi grammar. It was interesting to read Hindi.

In Hindi I have finished all the chapters and also done all the texts and also did question answers from book 1 and book 2. And also gave tests. My writing skills have improved and have speeded up.

I like to read Hindi. In grammar I learnt punctuation, decoration, idiom, proverbs, letter writing, essay writing, oral expressions, prefix and suffix, joining, compound sentence, simple sentence, complex sentence, syntax, correction of incorrect sentence.

# Home Science

In home science I have finished chapters in both the books. In home science I faced difficulty in some chapters, then I asked Kamli di and she taught me the chapter. I have done the previous years question papers in home science.

Before finishing the chapters I went for trip in Rajasthan. We went in many places in Rajasthan. I liked the places but it was too sunny.
