**Report for  
2022-23**

My name is Chandra and I am 13 years old. My school is Auro-Mira Vidya Mandir. I like to study in the school because the teachers teach

us many things and help us to study. My behaviour is good with the teachers. In my school, we celebrate Holi, Diwali, Teacher's Day, Children's Day, etc. I like to play sports like football, volleyball, etc.

## Hindi

In Hindi, I have finished 1<sup>st</sup> and 2<sup>nd</sup> book of NIOS. I have given the test of first and second chapters. I liked to do the test very much because it was easy for me. We are revising for the test from the first book. In Hindi, I can read the books nicely and my handwriting is neat and clean. Krishna didi taught us grammar in Hindi. We did poem writing and paragraph writing. Poonam didi taught us spiritual things and

stories. She also taught us what we didn't understand from the book. I like to read stories the most. I also like to write stories from my imagination.

## English

In English, we have completed the 1<sup>st</sup> book of NIOS and we are giving chapter wise tests. We also started the 2<sup>nd</sup> book of NIOS and we did the first chapter. I like to do the tests because I feel that they are very easy to do. Before giving tests, I revise the chapters and then I can do very well. We did the test of grammar like message writing, notice writing, letter writing and verbs. Initially, I was poor in letter writing but now I can do it very easily. In notice writing and message writing, I know how to write them and have learnt the steps. I love to read

storybooks in English and my writing is neat and clean. We also celebrated Teacher's Day on which we saw a drama on teachers' performed by the little children. We practised quiz, speech and writing about Sri Aurobindo. We performed the play 'Ouch!' on 15<sup>th</sup> of July.

## ***Odia***

In Odia, we are doing the 4<sup>th</sup> class book. We listen to stories and my teacher makes us understand the meaning of the words which we didn't understand. I write Odia neatly, but I make spelling mistakes, which I try to correct by copying the right spellings. We sang Odia songs on 5<sup>th</sup> of July and we

sang them very nicely. We did speech and writing on Sri Aurobindo. We also did a quiz and question-answers of Sri Aurobindo in Odia. We learnt the meaning of the chants from our teacher.

## ***Social Science***

In Social Science, I have finished doing the 10<sup>th</sup> class 1<sup>st</sup> book of NIOS. We have also almost finished the second book of social science - we have completed all the chapters of Geography and half of Civics (only four chapters are left). I liked to do Geography and to give the tests - I did very well in most chapters but in some of the chapters I could not do nicely. Overall, I enjoyed doing the tests in Geography very much.

## ***Mathematics***

In Maths, I am doing the 8<sup>th</sup> class of book of R.S. Aggarwal. I have finished the 7<sup>th</sup> book of NIOS. I gave the chapter-wise tests and I did very well in some chapters, but I didn't do well in others because chapters like exponents and operations on algebraic expressions were a little difficult for me. In the 7<sup>th</sup> book, the chapters, which I felt easy are construction, fractions, profit and loss, linear equations. I did very well in the tests from these chapters, and I could do the word problems also. But in mensuration, I could not do some word problems. Now I have started the 8<sup>th</sup> class book, in which I have finished rational numbers. I have given the test for this chapter but I did not do very well because I didn't understand it and I could not do the word problems.

## *Science*

In Science class, we are doing the 10<sup>th</sup> book of NIOS. We have

finished the first book of Chemistry and now we are doing the second book of Chemistry. We have done only one chapter of Physics - 'light energy' and I could do the question-answers. In Science, I didn't do well in the test because I was unable to understand the concepts. But I love to do Science. If I don't understand anything, I ask Didi or Bhaiya. We did an experiment on electricity – “what is a circuit?”

## **Art**

In Art class, we learnt wall hanging art. We did glue and made flowers with it. We did drawings on Sri Aurobindo. In art, I like to do painting and drawing.

## Music

I love music. I play the *tabla* and I learnt many *taals* to play with songs and bhajans. I can play the *tabla* in different *layas* (speed) and we also sing songs. We write the *kayeda*, practise them and play the *taals*.

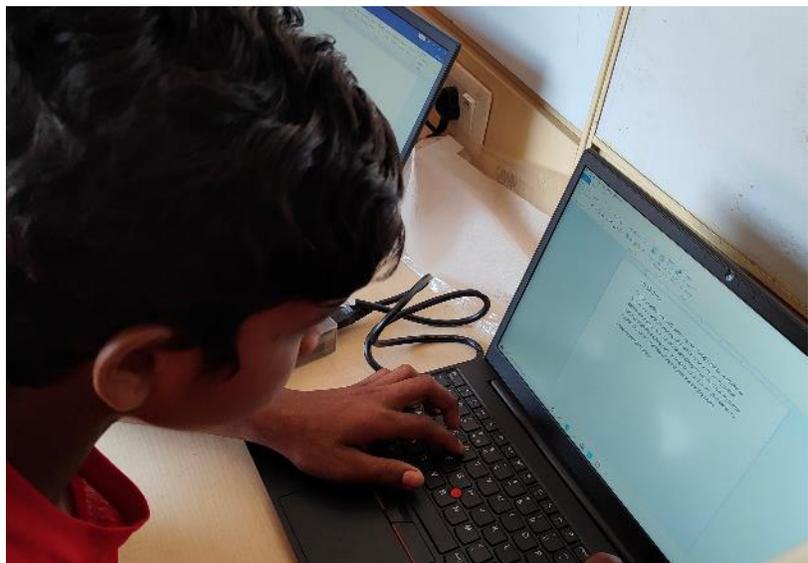

## Shramdaan

In gardening, I love to plough the field and to take out weeds. We also cut grass and plant flowers. In the morning, I do

shramdaan like school cleaning, hostel cleaning, gardening, toilet cleaning, etc. In school cleaning, I clean my group. In hostel cleaning, I clean the verandah of the hostel and also clean the kitchen area. I do shramdaan every day and I enjoy doing it.

### *Computer*

In computer, I love to practise typing master. My typing speed is now good. In computer painting, we make drawings. We also write stories on the computer.

### *Games*

I like to play games like football, volleyball and basketball. I am very interested in playing football because I love to kick the ball in the air and score goals. Sometimes, I also like to play volleyball and basketball. In volleyball I love to hit the ball and in basketball, I like to shoot baskets.

## *Trip to South India*

I loved my trip to South India. While in South India, we stayed in Vishakhapatnam. In the morning, we climbed the stairs of Simhachalam. Then we went to Kanyakumari, where we stayed for two days and there, we saw Vivekananda rock and the statue of Swami Vivekananda, where Swami Vivekananda meditated for three days. Then we went to Rameshwaram, where we saw Lord Ram's rock, along with the rocks of the army of Hanuman. Then we went to Madurai where we saw Meenakshi temple. We went to Pondicherry, where we saw Matri Mandir in Auroville. I liked the maze in the garden. Then we went to Mansi didi's garden and there we saw The Mother's garden -

we did chanting there and then we again came back to Mansi didi's house. Then we went for boating and also went to Auroville beach. In Pondicherry, we had special meditations on Saturday and Tuesday. Overall, we stayed for nine days in Pondicherry. Then we sat in the train and came back to Kechla.
