

# Shiva Kuldeep

**DOB – 28-Mar-16**

## **Report for 2022-23 (first term)**

### *English*

Shiva likes to listen to stories but sometimes he is quite restless. Therefore, he needs more focus in the class although he understands the stories well. He takes interest in singing. To learn the poem 'God', he was interested. And he also learnt it quickly. He is also interested in dancing. He likes to do plays. In the play which they performed on Ganesh Chaturthi, he himself chose to play the role of Kartik. It was difficult for him to memorise the lines and the sequence of the dialogues. During the performance also he forgot the sequence. For 5<sup>th</sup> July he was the narrator which he performed very nicely.

## *Mathematics*

Shiva is a very talented boy. He is very quick at grasping

new things which are taught to him. He is very impatient to say the answers when asked in the group, even when they are told to raise hands and tell only when their turn comes. Initially when he learnt counting, he started counting the numbers

with the objects such as pebbles, beads, empty pens etc. First, he learnt counting only till twenty and once he was clear and confident till twenty, he started counting further till hundred. When he was clear in forward counting till hundred, he then started counting the numbers backwards from hundred, and he was very good in doing it. He had a bit of difficulty in saying the numbers just before twenty, thirty, forty, fifty, sixty, seventy, eighty and ninety. After he got clarity in forward and backward counting, he then started skipping the numbers with two and later he did till six. He is very fluent in skipping the twos, but a bit confused in skipping threes but gradually he did it and now he can skip the numbers till six very fluently. After doing all these he then started recognizing the numbers till ten and he was very good at it. He recognized the numbers by using objects such as numbers with pictures on it. He also learnt some songs related to the numbers and some short creative stories. He was very good at recognizing the numbers. After recognizing after numbers,

he then started writing them till twenty. His writing was very good. He was able to write all the numbers till twenty. He is very quick in learning all these things. Before doing all these things he has played with the jodo cubes, aakar parivar and rongometry kit. In aakar parivar he recognized all the shapes and learnt the colours name. He also arranged them in ascending and descending order using these shapes. With jodo cubes he made some 2D and 3D toys and also counted the number of cubes that he had used. In rongometry he segregated the objects according to their colours, shapes and sizes. He was an expert in segregating these objects. When he played with aakar parivar he could put the missing pieces of shapes in its correct place. He also did the repetition of patterns and he was good at recognizing the patterns and continuing them. He is really very fast. He can grasp things very easily when it's taught to him.

## *Projects*

### *Colours topic*

He learnt the colours song very quickly and learnt it very nicely. He can easily tell the name of colours when asked. He was taken to the garden to see different colours and to recognize the colours. He was able to give nearly all the answers when asked. He had beautifully decorated the chart with drawings; he had decorated his board very beautifully. He was able to finish his drawings very quickly. During the project time he also did a drama 'the two hens'. He had taken the role of a

cook. He told his dialogues very fluently. On 15<sup>th</sup> August he had sang a song on Sri Aurobindo. On 19<sup>th</sup> August he did a play where he was a friend of Krishna. On 30<sup>th</sup> August he did a dance which he enjoyed doing a lot.

### *Family topic*

The second topic he took was my family. He made a drawing of his family members and answered the questions he was asked. He shared a few things with his friends about his family. He pays attention in the class. He could answer most of the questions.

### *Arts*

He is a good and very sweet boy. He talks sweetly to everyone in the class; his thoughts are very nice for his friends. He learns things quite fast when taught. He does every skill work with concentration. His drawing, cutting, colouring and shading are good. He is always eager to learn new things and does it happily. When he was making a ladybird and a snail, he enjoyed a lot. He also made double boat, house, nuts and leaves by cutting and pasting paper. Among all these activities he liked to make ladybird. He is very friendly with his friends and helps them in finishing the work as he finishes his work very fast. He participates in all the activities.

## *Games*

Shiva is an energetic

boy  
and  
is

interested in playing games. He loves to be the den of whatever game they play. His running speed is very good, but he talks a lot while doing running and gets tired very quickly. Most of the time, he feels like playing the games without doing the exercises. He likes to do running the most while playing.

## *Celebration*
