

Urvashi Gouda

DOB-24-Apr-2009

Attendance-175 days out of 182 days

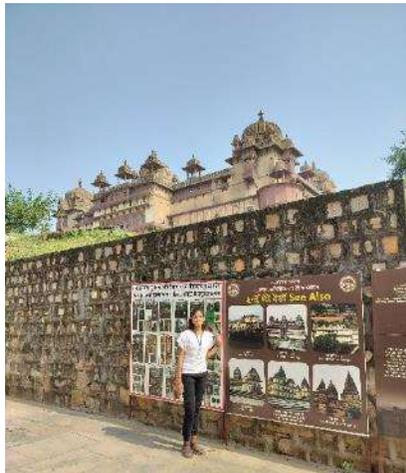

Report for 2024-25 (Second term)

Introduction

My name is Urvashi Gouda. I am 15 years old, and I study in the 12th class at Auro-Mira Vidya Mandir. My favourite hobby is reading novels in my free time, and my favourite games are football and basketball. I have started studying my 12th courses, which include English, Physical Education, History, Political Science, and Psychology. I have finished the 12th books for English and Physical Education. I have completed many chapters of History, but I have not yet started Political Science and Psychology.

English

English is my favourite subject. I enjoy reading English novels. I have started the 12th book of English, which is easy for me to understand. I have completed many chapters such as *My First Step*, *Leisure*, *Father Dear Father*, *A Case of Suspicion*, *Night of the Scorpion*, etc. I enjoyed reading all the stories and poems and doing the comprehension work, as they were really interesting.

Physical Education

I like studying Physical Education as it teaches us about different postures, asanas, and remedies for curing pains and diseases. I have completed many chapters from the 12th course book, such as *Ethics and Values*, *Social Aspects*, *Spiritual Aspects*, *Introduction to Health*, *Diet and Nutrition*, and *Psychological Aspects*. Some chapters were easy for me, like *Diet and Nutrition*, *Introduction to Health*, *Asanas*, and *Hatha Yog*. There were also some difficult chapters, such as *Ethics and Values*, *Psychological Aspects*,

and *Test and Measurement*, but after revising them and understanding them from my teacher, I was able to grasp them.

History

I like studying History, as it tells us about events that happened in the past. I enjoy reading about kings and queens and other aspects of ancient times. I have completed some chapters from the 12th History book, such as *Understanding Indian History*, *The Harappan Civilization*, *The Vedic Age*, *India Between AD 750-1200*, and *Establishing and Expanding the Delhi Sultanate*. Some chapters that were easy for me include *The Vedic Age*, *The Harappan Civilization*, and *Post-Mauryan Developments*. However, some were difficult, such as *Establishing and Expanding the Delhi Sultanate* and *India Between AD 750-1200*, but I have now understood them with my teacher's help.

with my teacher's help.

Games

I love playing games as they keep me healthy and fit. My favourite games are football and basketball. I also play many other games like volleyball, base kickball, football, basketball, frisbee, etc. I do exercises and warm-ups before playing so that I do not get hurt.

Celebrations

I love celebrating special days, as I get to learn about them. I also enjoy watching programmes by other children, such as songs, dances, dramas, and jokes. For Christmas, I performed a dance, *Nacho Khushi Se Aaj*. For New Year, I did a tribal dance with my team, and on Sports Day, I participated in a sari drill and performed a welcome dance, *Swagatam Shubha Swagatam*. I enjoyed all these performances.

Volunteering

I like volunteering with younger children, as they listen to their teachers. I have volunteered in three groups.

1. **Bliss Group:** I assisted in English classes, teaching them opposite words, alphabets and their sounds, telling them stories, and showing them English movies. I enjoyed teaching and storytelling.

2. **Victory Group:** I helped them with singing songs, learning poems, and performing plays. I helped them memorise their dialogues, songs, and poems. I was very interested in teaching them.
3. **Courage Group:** I volunteered in their Maths class, helping with multiplication, division, addition, subtraction, time, and calendars. I enjoyed teaching them, and it also helped me revise these topics.
- 4.

Trip

We started our trip to Ayodhya on 1st November in the evening at 6:30 pm. We took our bags and luggage to the launch, and then we took an auto-rickshaw to the train station at Koraput. The next morning, we reached Bhubaneswar, where we stayed at Sri Aurobindo School. After refreshing ourselves, we visited Lingaraj Temple. Then we left for Balasore and went to Bhitarkanika. I enjoyed walking in the forest, where we saw many crocodiles, Amazon trees, and mangroves. I also enjoyed the boat ride while watching the crocodiles in the river.

After that, we visited Simlipal, where we saw animals like deer, anteaters, and monkeys. We also saw three waterfalls: Uski Waterfall, Barehi Waterfall, and Jashinda Waterfall. Then we went to Jashipur and visited Purbi Beach (Chandbali), where I had fun jumping, running, and collecting shells. We also visited temples like Khirachora Gopinath Temple and ISKCON Temple. At Venuvan Park, I had a great time playing and exercising. Then we went to Panchlingeshwar Temple, where we saw Shivalings, and later visited Jagannath Temple.

After that, we travelled to Rajgir, where we bathed in Sapt Dhara and Brahma Kund, which I really enjoyed. In the evening, we took a train to Bodh Gaya. There, we visited the Buddha Temple and Sarnath Temple and saw the Bodhi Tree where Lord Buddha

meditated. Then we went to Ayodhya, where Lord Ram was born. After refreshing ourselves, we visited his birthplace and then took a train to Lucknow.

In Lucknow, we visited Bhool Bhulaiya, the Clock Tower, and the Painting Gallery. I enjoyed Bhool Bhulaiya a lot as it was a maze, but we managed to find the right path. The next day, we visited Hanuman Garhi, Brahma Kund (in Naimisharanya), Janeshwar Park, and

in the evening, we went to the Gomti River's mouth. The following day, we visited Eco Park, where I had a great time, then took the metro to the nearest station and from there a train to Jhansi.

After refreshing ourselves the next day, we visited Raja Ram Mandir and Orchha Fort (Jahangir Fort). In Orchha Fort, we explored passages and went to the terrace, where the

view was breathtaking. The next day, we visited the Jhansi Museum, where I saw many items belonging to Rani Lakshmibai, such as swords, spears, guns, cannons, bows and arrows, costumes, and pictures. Then we went to a planetarium, where we learned about planets, which was very interesting. Finally, we visited *Amar Ujala* (a newspaper industry) and saw the process of newspaper printing. I enjoyed learning about that.
