

# Shivam Pukia

DOB- 30<sup>th</sup> May'12

Attendance- 183 out of 183

Report for 2023-24 (First Term)

## ENGLISH

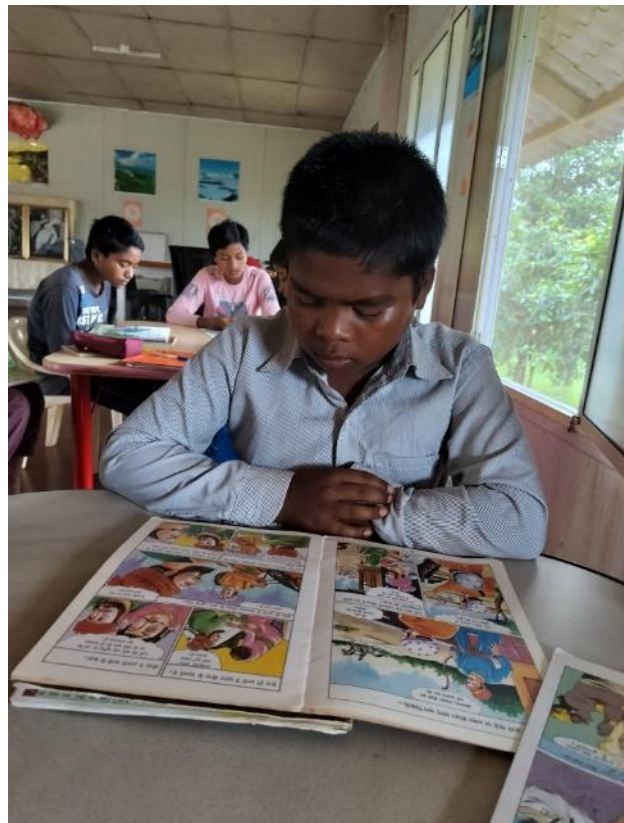

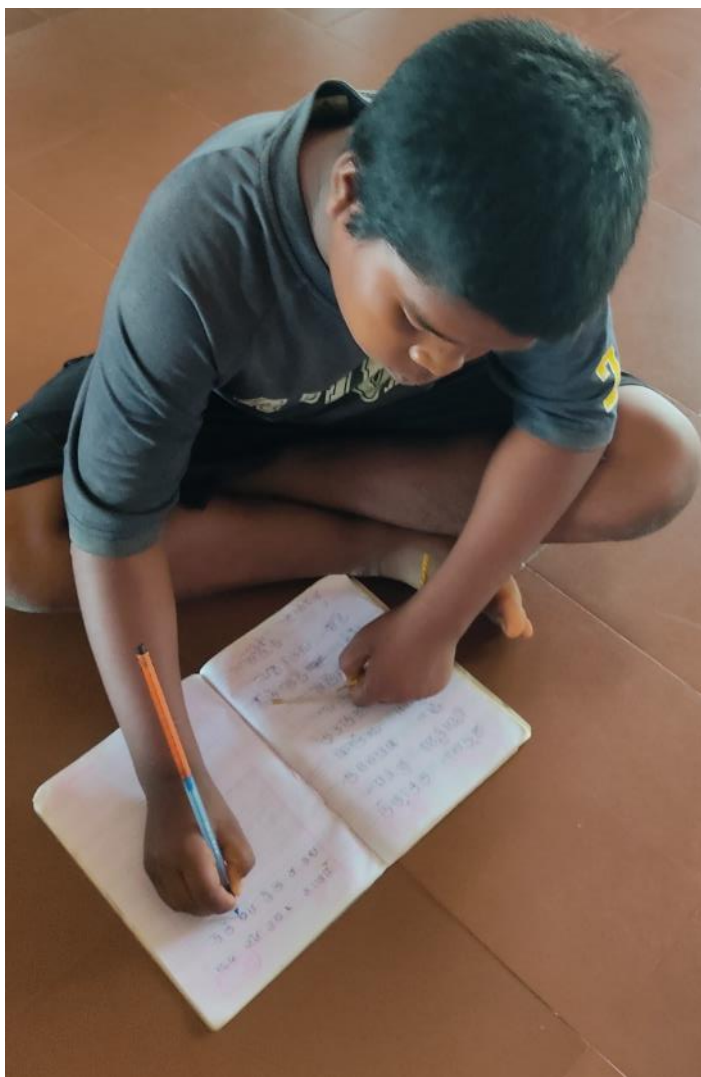

In my English class, I'm studying for the fourth grade. I receive both long and short questions, which are quite easy to answer. I also participate in group reading sessions, and I particularly enjoy reading "Fantastic Mr. Fox." I have completed reading "Charlie and the Chocolate Factory" and have now taken up "George and His Marvellous Medicine." I always read these

books with the other students in the group.

I also engage in free reading, where I read my issued books. I read them aloud so that my teacher can hear me. I especially enjoy reading books by Geronimo Stilton. In the free reading sessions, I often go to the library to read books, and I've read around 20 books from there. I prefer reading books from levels 6, 7, 8, and 9.

Some of the books I've read include "Mother Teresa," "Ramayana," and "Dasavatara." In our English class, we've learned

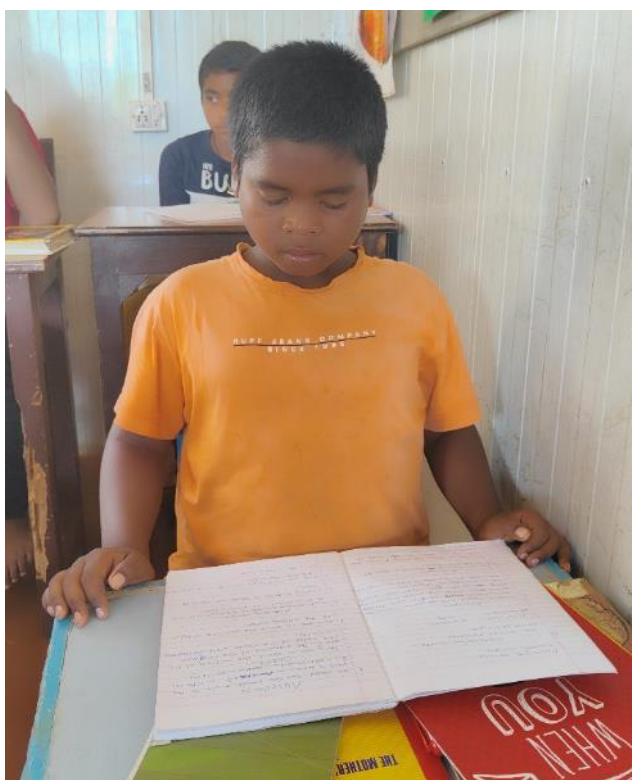

poems by Sri Aurobindo, including poems like "Who," "Invitation," and others. We also watch movies during English class, and I write a summary of the entire movie after watching it. I've watched movies like "Pocahontas," "Peter Pan," "Mary Poppins," "Brave," "Free Willy," and many more.

After group reading sessions, we have dictation, and my spellings are good. I have a strong liking for reading English books, and I thoroughly enjoy it.

## HINDI

Shivam is currently studying the 6<sup>th</sup>-grade book of Gunjan and the corresponding grammar book. He finds this

book relatively easy to handle. While his handwriting might not always be the neatest, he tries his best to improve. However, he sometimes repeats the same mistakes even after they have been corrected. In his Hindi class, he participates in group reading sessions and self-reading from the library. On July 5<sup>th</sup>, he actively took part in a drama titled "Andher Nagri," where he played the main role of Gobardhandaas. He thoroughly enjoyed his role and was deeply involved in the performance. He also participated in a dance called "Sandese Aate Hain" on

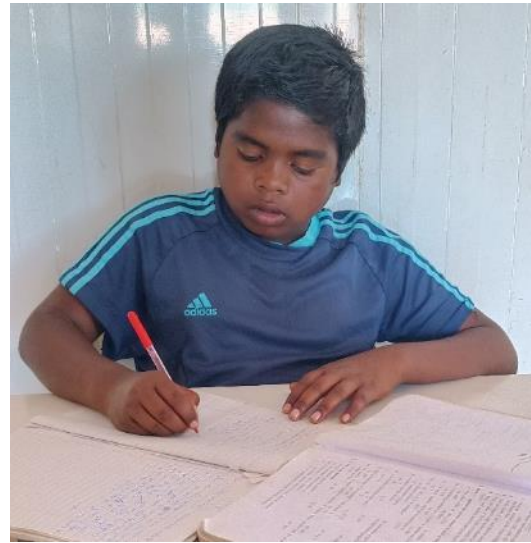

Independence Day. For Raksha Bandhan, he sang "Dhaagon Ka Ye Rishta." While he has a good reading speed, he sometimes gets confused about matras during dictation. In his free reading sessions, he likes to explore books from the library. Shivam loves his Hindi class.

## MATHS

Shivam recently embarked on his journey in 6<sup>th</sup>-grade mathematics, working with the RS Agarwal book. After

successfully completing his 5<sup>th</sup>-grade mathematics book, he took a test on the entire book, initially scoring about 40%. With determination and hard work, he retaken the test, improving his score to 80%. While he found "Whole Numbers" relatively easy, he faced some challenges with the "Factors and Multiples" chapter. Shivam tends to make frequent silly mistakes in basic operations like division, multiplication, addition, and subtraction. He also has a propensity to get distracted by friends, which affects his focus and concentration. On a positive note, he enjoys playing math

games such as Monopoly and Chess.

## SCIENCE

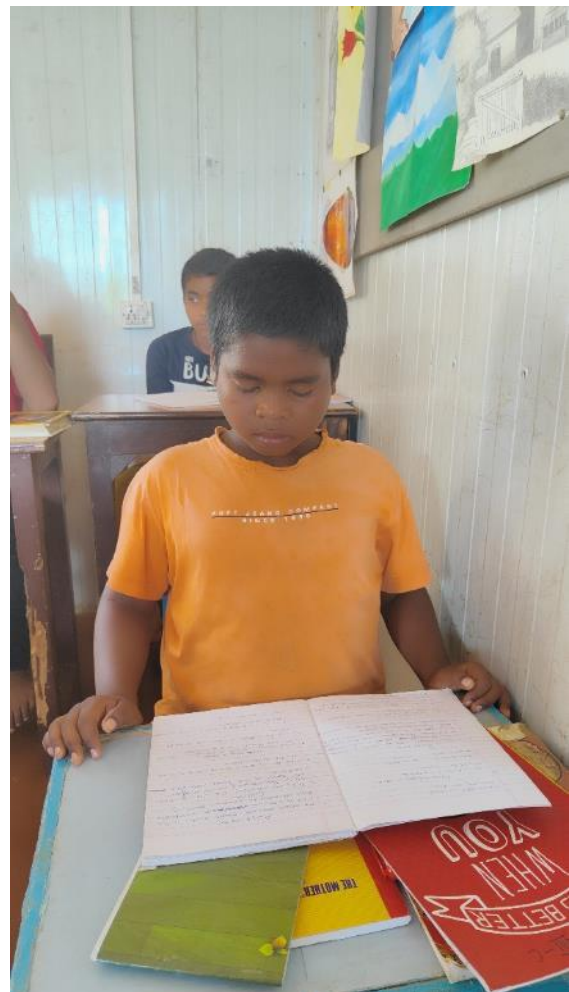

Shivam is a very intelligent and active child. He answers all the questions asked to him and asks lots of questions related to the topic. He is a bright student and scores good marks when given a test. He enjoys science class very much, and this is his favourite subject in school. He is sometimes distracted in class when attention is not given to him or when he is not allowed to answer the question. He likes every topic of science because he finds it interesting and is curious to know about different

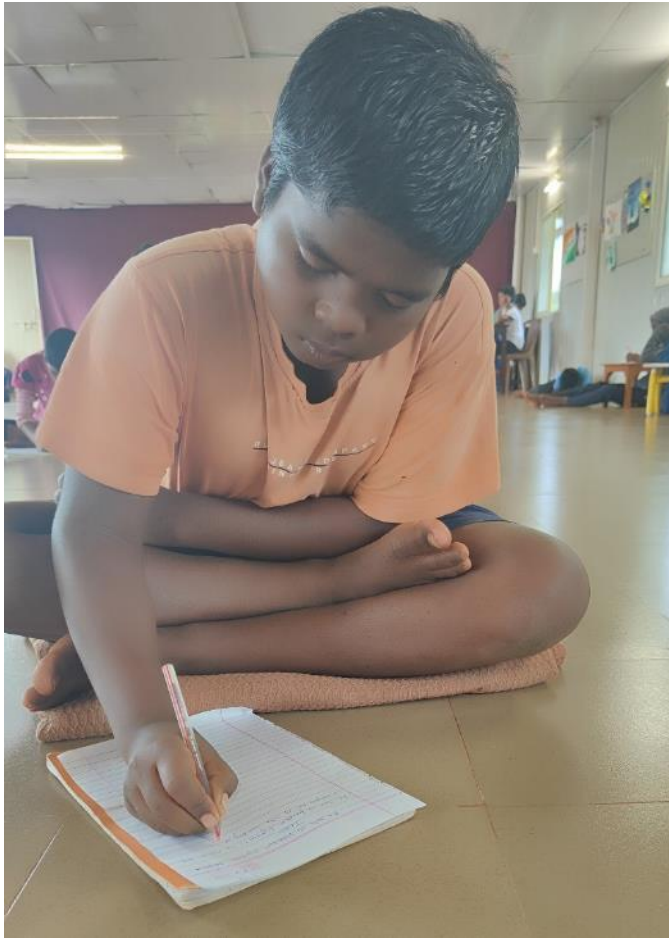

things. He has a good command over his speaking and listening but has difficulties in understanding the question from the book. However, he corrects all the mistakes after his notebook has been checked. When videos related to the topic are shown, he watches them with concentration and discusses them with his friends, relating to real-life examples. If there is anything required for an experiment or activity, he always takes responsibility to make sure that they are there.

## SOCIAL SCIENCE

Shivam is a dedicated student who excels when he is interested in a subject. He diligently completes assignments without getting distracted. He is currently studying the sixth book of history and has recently

completed the civics book, including taking the test and making notes. Occasionally, he may get distracted and distract his friends, but he's now focused on achieving better marks. He's making gradual improvements in his handwriting and eagerly looks forward to taking tests upon completing chapters.

## **ODIA**

Shivam can sit properly and concentrate in class for a short time. He understands the language well and is making an effort to speak and improve. Although he finds it challenging to read some words correctly as he occasionally forgets the

letters, he is working diligently to overcome this. Shivam requires assistance in reading, as he mispronounces many words. He enjoys taking dictation and watching animated films based on moral stories. Shivam is an inquisitive student who asks questions when in doubt, and he takes a lot of interest in listening to stories. He also sings songs well and enjoys singing.

## **COMPUTER**

## **ARTS**

Shivam displays a keen interest in art class, particularly enjoying colouring activities. His drawings are

neat, clean, and often well-coloured. He favours crayons and oil pastels but struggles with shading and paper folding, often requiring teacher assistance. Shivam has actively participated in art class, engaging in activities such as collage, drawing, shading, and painting. He is known for his enthusiasm and talkative nature while working and readily shares his colours with others.

## DANCE

I enjoy my dance class because I find dancing to be fascinating. In dance class, I get to explore various dance styles, including Bharatnatyam, classical

dances, and other forms of dance. However, there are moments when I'm not in the mood for dance, and during those times, I don't enjoy it as much.

One aspect that contributes to my enjoyment of dance class is that I often find the steps relatively easy to learn, which makes the experience more enjoyable for me. I attend dance class with my teachers, Suparna and Gauri didi, who guide us through our dance practice.

In our dance class, we occasionally start with warm-

up exercises to prepare our bodies for dancing. I make sure to practice the steps taught during the class, as practice is essential for improvement and mastery of the dance moves.

## MUSIC

Shivam is an impressive flute player who has rapidly developed his fingering skills. He has a strong grasp of notes and consistently plays in tune. Shivam excels at recognizing the pitch of all notes and playing them with rhythmic precision. He actively contributes ideas and suggestions during musical activities.

## GAMES

Shivam can endure more rounds of the football field without getting tired, showcasing great patience and determination. Whenever he is late, he compensates by running ten rounds of the football ground and performing exercises by himself. He enjoys playing the goalkeeper position and saving goals like a superhero. He takes pride in himself when he prevents a ball from entering the goal posts.

## SHRAMDAAN

Shivam finds satisfaction in cutting vegetables in the kitchen, appreciating the delicious meals that result. He enjoys the aroma of the food being cooked and is learning different vegetable cutting

techniques under the guidance of the kitchen duty teacher. Occasionally, he assists with fetching water from the hand pump to fill the filter.

## CELEBRATION

### 20<sup>th</sup> June Rath Yatra

I liked eating the Prasad being distributed among all the people

who had come to see our celebration. I also danced a lot with my friends as well as with the other children who were dancing, and took many photos and videos of the children who were dancing.

### 5<sup>th</sup> July School's birthday

In the play of Andher Nagari, I had taken the important role of Goverdhan Das, who is one of the main characters in the play. I was enjoying myself as I was coming in front of the audience several times. I am good at acting and in making the audience laugh. I was

also wanting to laugh by seeing the funny scenes of the king, but was controlling myself. I had got many dialogues to remember, I did not find it tough to remember the dialogues as I find it to remember the dialogues. I also participated in the Odia play that was taught to us by Papaji.

### 15<sup>th</sup> August Independence Day

I had taken the role of Bal Gangadhar Tilak, and I acted out my role with a

lot of patience inside me, as I had to calmly take actions and say my dialogues.

### 30<sup>th</sup> August Raksha Bandhan

I tied Rakhi to Santosh and fed him a sweet which was in front of us, and he too did the same, and we hugged each other.

### 7<sup>th</sup> September Janmashtami

For this special occasion, we learnt a song "Tum Prem Ho, Tum Preet Ho" and sang it on the stage as an offering to the Lord. I was singing loudly and confidently as I had memorized it before going onto the stage.

### 19<sup>th</sup> September Ganesh Chaturthi

My friend and I cracked jokes on this special day as we wanted to make the audience laugh out loud. I enjoyed watching the other children's performances as well.
