

# SUSHILA KAMAR

**Date of birth – 07<sup>th</sup> Aug- 04**

**Annual report for 2023-24 (second term)**

**Annual Attendance 361 days out of 366 days**

## Introduction

At nineteen years old, I find fulfilment in volunteering with the youngest group at our school, who have just embarked on their educational journey.

Working with small children brings me joy, although I occasionally find it monotonous.

My role involves

teaching songs, chanting, maths, storytelling, and engaging them in colourful activities like colouring and scribbling.

## Academics

Currently enrolled in IGNOU for B.A (Hons.) in English, I recently completed my first-year exams in December'23, successfully clearing all four remaining papers. Presently, I am focusing on my

second year, which comprises ten papers. While not inherently academically inclined, I diligently push myself to maintain consistent effort and progress.

## **Sports**

Basketball is my forte, with a particularly strong shooting skill, rarely missing baskets. I relish 3-pointers the most. While I also enjoy volleyball, my proficiency is limited. Football is an occasional pastime for me.

## **Volunteering**

My affinity lies with the youngest members of our school, the Joy Group. I derive immense satisfaction from fostering their enjoyment of school, while also instilling hygiene practices. Under my guidance, the children's communication skills improve as they engage in various activities such as singing, dancing, puzzles, and art.

## **Shramdan**

I recently began participating in kitchen-related shramdan activities and find fulfilment in contributing in various capacities.

## Programs

Attending school programs is a highlight for me, especially witnessing the talent showcased in dramas and dances by our students. During our school's sports day, I participated in a dance performance to the song "Muskuraye," an experience I thoroughly enjoyed.

### **Trip to Northeast**

This year, we embarked on a trip to Northeast. Our journey commenced on the 24th of February in the early morning. At 8 am, our train departed from Koraput station and reached Howrah station the following morning at 7. In Kolkata, we visited the Botanical Garden and the Victoria Memorial. Later that day, we boarded a train from Howrah to Guwahati. On the 26th, we visited the Kamakhya Temple, Gandhi Mandap, and the War Memorial in Guwahati. We stayed overnight at Hotel Blue Moon.

The next day, we headed to Meghalaya, where we visited Cherrapunjee, Mawsmai Cave, the jungle, and a waterfall. Following that, we explored the India-Bangladesh Border, the root bridge, and the cleanest village. On the 29th, we visited Ka Phan Non Glait Park, Animal Land, Police Bazaar, and a church. We then travelled to

Kaziranga, where we stayed for a night. During our journey, we encountered various animals and visited a tea garden. We also enjoyed an elephant ride in Nagori.

Subsequently, we travelled to Dirang and stayed at the Sarada Mission Hostel, where we made friends with the girls. The next day, we proceeded to Tawang, stopping to admire Sela, Jung Fall, and Jaswantgarh War Memorial along the way. In Tawang, we visited Bumla, the second-largest monastery in the world, and witnessed a light and sound show at the War Memorial.

Continuing our journey, we travelled to Rupa, stopping at Jaswant War Memorial to play in the snow and have breakfast. In Rupa, we visited the Gompa before returning to Guwahati, where we explored the zoo, Srimanta Sankaradeva Kalakshetra, the Science Museum, and Baladeswar Temple.

Next, we travelled to Sikkim by train, reaching Jalpaigudi station and then proceeding to Gangtok by car. We visited the Palace Monastery and MG Market. The following day, we explored Nathula, New Baba Mandir, and Lt Gen Sagat Singh War Memorial. We enjoyed yak riding near the river.

On our last day in Sikkim, we visited Temi Garden and Char Dham before celebrating at the hotel. We then travelled back to New Jalpaigudi and eventually returned to Siliguri. We visited the Dakshineswar Kali Temple, Belur Math Ramakrishna Mission, Science City, and Nicco Park in Kolkata.

The trip was remarkable, and I cherished every moment of it.
