

# Baisali Beniya

DOB- 8<sup>th</sup> March '16

Report for 2023-24 (First Term)

Attendance- 181 out of 183 days

## Introduction

Vaishali is seven years old, is another regular school attendee who always comes to school looking neat and tidy. She commutes from home daily and is considerate, never dropping food on the floor. Vaishali's favourite meal is seviya (vermicelli), and she is amicable with the other children in her group, treating her friends and teachers with politeness.

## Projects

1. **Vegetables:** Vaishali displayed creativity by making clay models of various vegetables. She actively participated in project activities and shared riddles and information about vegetables confidently. Her quick memory and interest in learning were notable.

2. **Health and Hygiene:**

Vaishali actively participated in activities related to health and hygiene, showing enthusiasm for creating drawings and understanding the importance of staying clean. She knows how to use the toilet and maintains hand hygiene.

3. **My Family:** Vaishali successfully created drawings of her family members and organized them on a family tree. She demonstrated an understanding of her family members and was able to identify how many family members she has. She also enjoyed pasting the pictures on the family tree and learned some familial relationships. Additionally, she learned songs related to family.

4. **Me and Body Parts:** Vaishali showed knowledge of various body parts, particularly in English. She created drawings of different body parts and took a keen interest in learning songs about body parts. She expanded her understanding by learning about the five senses and even tasted different items like herbs, onions, and bitter gourd.

5. **Shapes:** Vaishali was a fast learner and actively engaged in activities related to shapes. She exhibited a strong understanding of shape names and properties, recognizing both 2D and 3D shapes.

## English

Vaishali played the role of the cloud alongside Susant in the drama. She has an impressive ability to quickly remember dialogues and possesses a strong memory. She even helped teach Susant the lines. She is adept at picking up new words and songs and can pronounce them correctly. Vaishali displays keen interest in stories and is responsive to the teacher's questions.

## Hindi

Vaishali is a very sweet and attentive girl who concentrates

well in class. She is also frank in her interactions. Vaishali enjoys listening to stories and can create her own creative stories. She is actively working on improving her speaking skills. She has successfully memorized the names of shapes in Hindi and has also remembered the Hindi alphabets taught to her. She has learned Hindi songs, including "Jo Bhi Kam Karo Tum Bacho" and "Bade Savere Bulbul Aati."

## Maths

Vaishali is adept at breaking numbers down to ten and has a good understanding of forward and backward counting. Like Sangita, she might struggle with understanding the relationships between numbers that come 'before' and 'after.' She is quite

swift when it comes to one-digit addition, and she can handle one-digit addition with two-digit numbers both mentally and using objects. Vaishali is also progressing in the concept of 'more' and 'less,' attempting to distinguish between quantities. She displays an ability to comprehend and solve word problems.

She needs to concentrate more in class. She has successfully performed addition of one digit by one digit, two digits by one digit, and two digits by two digits. Initially, she tackled addition using objects such as bundles and sticks, progressing to performing the operations without objects. While she has a grasp on addition, she finds the two-digit by two-digit addition challenging without the aid of objects. Her understanding of numbers, both before and after, as well as the relationships between them, is clear. She also demonstrates a good understanding of "more than" and "less than," but she needs to build confidence in her abilities.

She has been introduced to subtraction, and she successfully tackled small numbers ranging from one to ten with confidence and without fear. She excels at skipping numbers by twos, both with and without objects. To reinforce her understanding, she benefits from repetition, and she particularly grasps concepts better when presented through stories.

## Arts

Vaishali's drawings predominantly feature animals and forest scenes, which she adorns with gentle, well-executed colouring. Her proficiency in paper folding is evident as she can complete these tasks

independently. Her choice of green as her favourite colour aligns with her nature-inspired artwork.

## **Puzzles**

Vaishali is another quiet and focused puzzle solver, demonstrating her ability to handle puzzles with piece counts between 100 and 150. She often chooses to work alone and finds genuine interest and satisfaction in her puzzle-solving endeavours.

## **Dance**

Vaishali prefers dancing with her friends and is shy when dancing alone. She learned "Vrindavan Mein Gopi Aaye" and

performed it during Janmashtami. She is able to dance properly and learns dance steps quickly. She enjoys dancing to Garba and Pahadi songs.

## Games

Vaishali strives to arrive on time for games but sometimes gets delayed. She may engage in conflicts with her friends and tends to complain about them.
