

Saloni Krisani

DOB-06-Mar-17

Report for 2022-23

(First Term)

Circle time

She is a quiet and silent child, and she sits very quietly during chanting. Whenever she is asked questions by didi, she answers them, but sometimes hesitates in answering them. She knows the chants by heart. She is very keen in acting while singing the songs. She is independent and whenever she is asked to sing solo, she sings the songs without feeling nervous or shy and she is very comfortable. She is attentive while didi is telling them about something.

Maths

She is clear in differentiating the colours. Without any hesitation she counts till ten but while counting it backwards she gets confused. She enjoys doing mathematical activities done in the group like arranging the leaves in descending order. She likes to make designs with colourful rangometry. She is quiet and pays attention when the others are counting. When didi asks her questions, she knows the answer but gets nervous in answering them.

Language

She likes listening to stories and seeing the pictures while didi is reading out the stories to them. She tries her best in pronouncing words of English and also Hindi. She has learnt some basic words of English such as tree, sun, rain, and many other such types of words. She is able to recognise the words when didi acts out to her.

Co-curricular activities

While doing the activities she pays attention to the instructions given by didi. She dances very well and while making drawings she likes making flowers and then colouring them. While making origami she watches the movements made by didi very attentively and tries to make it similar to what didi has made.

Health and hygiene

She always washes her hands and plate before eating. She is very cautious about not spilling a piece of rice on the floor and eats very neatly. She rinses her mouth and washes her plate properly after eating. She places the plate very carefully and gently from wherever she had taken it. She is a responsible child.
