

# Sumitra Sukia

**DOB-03-Dec-2018**

**Attendance-161 days out of 182 days**

**Report for 2024-25 (Second term)**

## Introduction

Sumitra is six years old. She does not attend school every day. She comes to school from home with her younger sister.

## English

Sumitra is good at retelling stories and listens carefully during story sessions. She recognizes letters and knows some letter sounds. She always gives her best in learning and actively participates in class. However, she faces difficulties with pronunciation and needs more practise to improve her speaking. Sumitra loves singing action songs.

## Project

### Insects topic

Sumitra participated in different activities in this topic. She tried her best to draw insects and learnt some insects' names and can recognize common ones such as ladybug, honeybee, bumble bee and caterpillar. She watched videos about insects but was not much interested. She likes singing the insects related songs.

### Shapes

A quiet and well-behaved student, Sumitra needs to be more expressive in class. She learnt the names of shapes such as triangles, squares, and rectangles. She enjoyed learning shape songs and creating different shapes with straws.

## National Symbols

Sumitra learnt songs about national symbols and enjoyed listening to the peacock and crane story. Watching the video helped reinforce her understanding. She created drawings of the national symbols, which were displayed on the board. She needs to speak more in class.

## Singing and Drama

Sumitra likes to listen to stories in the class. She has not learnt the alphabets, but is trying. On 21<sup>st</sup> of February she did the role of a narrator in the drama. She also likes to dance and sing songs.

## Math

Sumitra shows interest when maths is presented through games and hands on activities. She responds well to visual aids. Now she can recognize numbers till 100 but finds difficulty in transitional numbers. She is now learning to write the numbers. Before learning the numbers writing, she used cubes to make respective shapes of the numbers. She could give the required shape when she was assisted by her peers. But some digits she could make independently. Now she can write numbers till 50. She can improve with consistent effort and support.

### Art

Sumitra has a strong interest in drawing and puts her best effort to create beautiful art works. She enjoys showing her drawing. She solves puzzles with focus and without any disturbance, especially working with friends. She finds the paper folding difficult.

### Games

Sumitra has started to play games as earlier she would stand on the field. She can run and do exercises better than before. Now she has improved in games a lot, her running speed is good and she easily makes her friends out.
