

PRATEEK GOUDA

2021-22

DOB- 6th January'11

Prateek was in the Progress group when he had joined the school. He remained absent for prolonged periods. This made him lag behind, so he opted to join the Grace group when he started coming to school again after the lockdown. Due to his irregularity to school and not being in practise with academics, he had forgotten most of the things which he had learnt before. He relearnt everything again in the Grace group and is progressing now. He decided not to stay in the hostel and instead stay at home. He comes to school in the morning and goes home at 3:30 in the afternoon. This disadvantage of not staying in the hostel and his continuing irregularity to school, is making his progress slow. But he is an intelligent boy and is making an effort to cover up. He tries to give his best in all the classes.

MATHEMATICS

Prateek is doing the 2nd class book of Maths. He has got a good memory and he learns the concepts fast. He has learnt the 3-digit numbers' place value, face value, expanded form, number names, addition by carrying over, and subtraction by borrowing method. He has also learnt the multiplication table till 7 and the names of plane and solid shapes. He is able to understand and solve word problems of addition and subtraction when didi reads out the questions to him, as he is learning to read now. He can tell the time by looking at the clock and can also show by drawing.

HINDI

Prateek is an intelligent child. He learns and memorises fast. He has learnt the 'varnamala' (Hindi alphabets) properly. He can read fluently. He likes to read books and to listen to stories. He rarely makes mistake in the 'matras' while writing. He speaks Hindi quite well and talks fluently. His grammar is good. He knows the names of animals and birds in Hindi.

ENGLISH

Prateek knows as much English as the others do, although he misses classes on some days. He can read some five-letter words and also write them. His handwriting is neat and tidy. He gives his whole attention during the story periods and answers the questions quickly. Sometimes he gets preoccupied with some other activities and is inattentive in the class. He likes to play word games and is very quick in it. When movies are put for them, he watches them with great interest.

Prateek had learnt both the small and capital letters in English and also their sounds, in the Progress group. So, it was easier for him to relearn sounds. He could read three letter words with the sounds properly. After he got familiar with these words, he read small books, which had simple sentences. After this he read the ladybug books of level one and level two. He needs improvement in recognising the words and increase his speed of reading. Till now he is breaking the words and reading it with the sounds. He also did handwriting practise of both- small and capital letters. His writing was really good and beautiful.

He has learnt some songs in the class viz. 'I salute my flag', 'This old man', and a carol 'Living water' which they had performed on Christmas. He was very fast in catching the tune and in learning the lyrics of the carol.

ODIA

Nowadays he is doing the 'Sishu' book and has learn till the 'ou matra'. Within one week he will be starting the 2nd class book. He can communicate in Odia. He also tries to remember the Odia songs taught in the class. He is making an effort to bring improvement in him.
