

DARSHANA GAUDA

Date of Birth: 26th Jun 2002

NEW CREATION

Report

Darshana has progressed a lot in the last year. She did not have self-confidence and would depend on others. Now she has become independent.

Darshana would not work hard or give extra time to academics. This year she has started working harder than before.

Darshana is very sensitive and helpful. She is responsible and tries to do whatever work has been given to her.

Hindi

for my 12th I study Hindi with Vidyottma didi. She teaches me very nicely. When didi explains, then I am able to understand very nicely and what I would find difficult, then I ask Didi to explain it again, and she would. I enjoyed studying with didi there were 5 books in Hindi. I found them very interesting. I liked the stories and poems. While I was studying the book, I didn't find it difficult to understand or to read the book with didi and the book had not many difficult words. Most of the lines or the paragraphs I could understand by myself. And I have improved myself and I can read the books and understand.

I was the only one to study with class 12th Hindi with didi. But she taught me nicely and some days I felt bored while studying. But I had to finish it and I worked hard. When I got time, then I would read the stories and revise and read the question and did question and answers. I finished the course and gave the exam. After I had finished the course, then one month had for revision. Then in April I gave the exam. When I saw the paper, it was easy. I attempted all the questions.

Hindi

To complete the course I studied with Pranjali bhaiya. When bhaiya taught me, I felt that the course was very easy, but when I studied it myself, then it was very difficult. But after bhaiya explained it to me, then it was very easy and interesting. I liked the story-Bholi very much. It was a little sad but it was nice. My course had 2 books.

I studied grammar with Sangita didi and I did letter writing also with her. It was easy to do grammar, essay and letter writing. And when I read the book by myself then I found it difficult. Then when I went to give the exam, the paper was easy. I liked doing the A session. This part I found easy and the grammar was also easy. While attempting the paper, I was finding it very interesting. And I think that I have done the exam well.
