**Attendance-182 days out of 183 days**

**Report for 2024-25(first term)**

#### **INTRODUCTION**

My name is Laxmi Krisani, and I study in the Perseverance group, which consists of 21 children. I enjoy studying with them and making good memories.

#### **ENGLISH**

In English class, I like to do free reading, where we read by ourselves. We also do group reading, which means we read together. I enjoy reading children's stories and have read five books, including "Tenali Rama," "Lokmanya Tilak," and I am currently reading "Gopal and Paraman." I have also written poems.

In group reading, I read "Matilda," which has many funny moments. The characters, like Mr. and Mrs. Wormwood, Bruce Bogtrotter, and Miss Trunchbull, are very entertaining. We are also reading "Harry Potter," which is a nice story. I've enjoyed watching

movies like "Matilda," "Babe," and "Harry Potter."

#### **ODIA**

I like attending Odia class. Currently, we are working on the fourth book. I try my best to read the books she gives us, and if I have trouble, I ask for help. During dictation, I strive to get my spellings correct; if I make a mistake, I write the word five times to remember it. I enjoy the stories that didi tells us, especially the funny ones. I love learning Odia as it is our mother tongue.

#### **SCIENCE**

We are currently studying the 7<sup>th</sup>-grade science course. When we took the test on the 6<sup>th</sup>-grade material, I felt nervous, but I tried my best. Although I wasn't satisfied

with my marks, I aim to do better in the next test. We have conducted many exciting experiments, which everyone enjoyed.

On August 14<sup>th</sup>, we held an exhibition where I explained Newton's Law to the younger students. I felt happy to help them understand. I try to complete my homework on time. When I find a concept difficult, I ask for clarification.

## SOCIAL SCIENCE

I enjoy social science class. We have covered six chapters over the past six months, despite several interruptions. We learnt about landforms in the world and India, which we supplemented with videos.

After completing each chapter, we answer questions from the textbook and receive additional questions to improve our writing. I've learnt about the Himalayas, various mountain ranges, hills, coastal plains, the Ghats, islands, and rivers. I aim to work harder in the next six months to improve my spelling, handwriting, and reading skills.

## MATHS

I enjoy maths because there are different topics to explore. Recently, I learnt about geometry, triangles, and circles. I am currently revising for tests and working with both the 5<sup>th</sup> and 6<sup>th</sup>-grade books. Right now, I am studying decimals, where I tend to make many mistakes. When I struggle, I ask my didi for help. My maths class is from 9:30 to 10:30 AM.

## HINDI

I focus on book work. I took the test for Gunjan 3<sup>rd</sup> two times because I didn't score well. After studying hard, I scored for Gunjan 4<sup>th</sup>. I am currently working on the grammar book for the 3<sup>rd</sup> grade. On Mondays, we do group reading and free reading. I enjoy reading with friends during group reading, while free reading allows me to explore books by myself. We have class from 8:30 to 9:30 AM.

## COMPUTER

I practice typing using Typing Master. I learn various computer skills. If I don't understand something, I often ask for help. I enjoy painting on the computer as well.

## DANCE

I have learnt different dances for festivals, including Bhangra, Jeho, and Bharatanatyam. I find it easier to learn during Satsang time. We have dance class on Wednesdays from 2:30 to 3:30 PM.

## ART

I enjoy creating various projects. I have made items like a rabbit box, rockets, and butterflies. Currently, I am working on a lotus design. Art class takes place on Thursdays from 2:30 to 3:30 PM.

## MUSIC

In music class, I learnt the seven notes. When the lessons are challenging, I practise in my free time. If I make mistakes, Mani didi helps me correct them.

## YOGA

I practice different asanas daily. Sometimes I find new poses challenging, but I strive to improve. I practise hard to master them.

## GAMES

I enjoy playing basketball. I play better with younger children than with older ones. I don't particularly like volleyball because it hurts my hands.

## SHRAMDAAN

During Shramdaan, I prefer cleaning the girls' hostel because I feel accomplished doing it. I find gardening tedious due to the physical labour involved, and in the kitchen, I dislike cutting vegetables.

## SATSANG

In Satsang, I learn various types of songs. I attend on Saturdays, Fridays, and Sundays, and on

Thursdays, we practise Gita chanting.

## CELEBRATION

**5<sup>th</sup> July:** For the school birthday, I performed a Bhangra dance. Some steps were difficult, but I focused during practise. I practised many times in the evenings. I felt nervous during the performance.

**7<sup>th</sup> July:** I repeated the same dance for Rath Yatra in front of Sri Jagannath. I forgot some steps and had to look at others.

**10<sup>th</sup> July:** I participated in a drama about Sri Jagannath. It took me only two days to memorise my lines. I played two roles: the guard and the tortoise.

**15<sup>th</sup> August:** On Independence Day, I danced to "India Wale." It took several days to learn, but I found the steps easy and taught them to my friends.

**19<sup>th</sup> Raksha Bandhan:** I tied Rakhi to Sumitra and my brothers. My friends recited poems on stage, which I enjoyed. We also tied Rakhi to cows.

**JANMASHTAMI:** I sang a song with Shantunu da. I was nervous performing in front of an audience, but I learnt the song in 3-4 days.

**GANESH CHATURTHI:** I learnt a dance for Ganesh Chaturthi in three days and performed it on stage. While some steps were easy, others were more challenging. I enjoyed the performance and felt confident in front of everyone.
