

Laxmi Krisani

DOB- 8th December'12

Attendance- 183 out of 183

Report for 2023-24 (First Term)

ENGLISH

I am currently studying the 4th-grade English book, and I'm in the 4th chapter. When I can't understand the stories from the book, I go to didi for help. After understanding the story, I proceed to answer the questions.

I must admit that I read slowly, and my spelling and sentence structure need improvement. Whenever I struggle with something, I always ask didi for guidance. In group reading, I have read books like "Charlie and the Chocolate Factory,"

"Fantastic Mr. Fox," "Black Beauty," and "The BFG." Among these, I enjoyed reading "The BFG" the most.

During our English class, didi provides dictation exercises, and sometimes I make mistakes. We have one hour of English class, and in this time, we engage in various activities such as book work, free reading, grammar, group reading, and watching movies.

So far, I have read 25 books. Bikanti didi, Kamli didi, Bina didi, and Sangita didi are my English teachers. They read stories to us and assign homework. I have also learned poems during my English class.

decent, but she sometimes overlooks matras when writing hastily. In addition to her regular coursework, she's studying the 4th chapter of the grammar book. On July 5th, she actively participated in a play titled "Andher Nagri," where she took on the role of Ghasiram. She also took part in a dance performance on Independence

HINDI

In her Hindi class, Laxmi prefers working on her course book. She's currently covering the 7th chapter of her Hindi course. Her reading skills have significantly improved, but she believes that she can do even better with more effort. Her handwriting is fairly

Day, though she admits to feeling somewhat fearful about performing on stage. Laxmi also engages in writing poems and often represents her class in assemblies and during Hindi class celebrations. Occasionally, she forgets to check her notebook, which has resulted in scolding from her teachers. She's not hesitant to ask her teachers to clarify difficult chapters.

MATHS

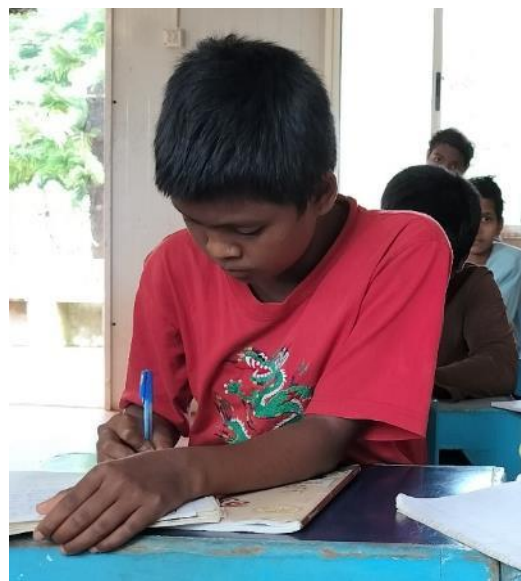

Lakshmi has recently completed the class 4th book and is now working on the class 5th mathematics book. She demonstrates proficiency in both the Indian and international number systems, accurately placing commas based on the periods and reading numbers without mistakes. Her mathematical calculations are generally sound, although she occasionally makes minor errors in addition, subtraction, multiplication, and division. Lakshmi seeks assistance from her

teachers for even straightforward questions, and she tends to struggle with word problems. To improve, she should invest more effort in attempting to comprehend questions independently before seeking help.

SCIENCE

Science, being one of the challenging and fundamental subjects in life, has greatly aided Lakshmi's understanding of

the subject and the world around her. She has made significant progress in her scientific studies. Lakshmi has a commendable habit of keeping herself informed about various scientific developments. She puts in her best effort in tests but sometimes faces difficulties when it comes to expressing her thoughts in answers. She is now more proactive in answering questions and diligently completes most of her homework. To improve her writing skills, it is advised that she first comprehends the

meaning of difficult words and then practices writing them repeatedly until she remembers the spelling and usage. This method has contributed to her better understanding of theory. With continued effort and hard work, she is sure to excel.

SOCIAL SCIENCE

Laxmi is working through the sixth book of history in social science, having just completed the sixth book of civics. In the civics whole book test, she scored eight out of fifty-five. She makes a dedicated effort to answer questions accurately and improve her handwriting. While she is mostly a quiet listener during group discussions, she's making strides in her handwriting and

speaking abilities. She's now focused on achieving good marks in tests and has already finished nine history chapters with question answers and tests.

ODIA

Laxmi is a good student who sits properly in class. While it takes her some time to learn, she puts in her best effort. She is well-acquainted with the alphabets but needs more clarity in the matras. Laxmi understands the language and is working on

speaking properly. She has made good progress in reading but needs further improvement in writing. While her dictation scores are initially low, she always corrects herself after her notebook is checked. Laxmi enjoys listening to stories and watching animated films based on short stories.

COMPUTER

ARTS

Laxmi finds art class fascinating due to the diverse array of shapes she can create and the unique paper-folding techniques she can explore. Her preferred activity is crafting hanging art through paper folding. Additionally, she has completed drawings of houses, nature, and birds. Drawing and

shape drawing are her favoured activities in art class. She also appreciates practicing shading and often focuses on drawing aspects of nature.

DANCE

I have a genuine fondness for dance, especially folk dance. In my dance journey, I have been guided by the talented Suparna didi and Gauri didi, who have taught me various dance forms, including Bhangra, Bharatnatyam, and more.

During our dance activities, I participate in exercises to keep myself active. While I have learned many mudras, I have a particular interest in them. I can recognize and remember the names of some mudras.

I must admit that there are times when I may not feel like dancing, but I engage in activities such as drawing and other creative pursuits. These activities add an extra dimension to my overall experience in dance class.

MUSIC

Laxmi remains focused during activities and treats her flute with

Laxmi always tries to be punctual during this period and enjoys doing exercises with her teammates. She likes playing basketball, with dribbling and shooting being her favourites. She strives to pass the ball accurately to her friends and is friendly during games, disliking conflicts. She also enjoys playing other games with her friends.

care and respect. She has successfully learned to play all seven notes but encounters challenges when playing them in a non-linear pattern. Despite occasional lapses, she maintains a positive attitude and strives to improve her fingering skills through practice.

GAMES

SHRAMDAAN

Laxmi believes that the areas where students study should be clean and tidy, and thus, she enjoys cleaning the school area the most. In addition to school cleaning, she engages in

hostel cleaning, gardening, and toilet cleaning alongside her fellow volunteers.

CELEBRATIONS

20th June Rath Yatra

On this day, I wore a saree along with some of my friends, and I was really very excited as our village band had been brought, and we were supposed to dance in front of the Rath. I danced with my friends and enjoyed myself very much.

15th August Independence Day

I had taken the role of a farmer like some of my friends. I had no difficulty in remembering the dialogue as I had just a few lines to say. I said my dialogues without any hesitation.

30th August Raksha Bandhan

I tied Rakhi to Sonali, and she was very happy when I tied the Rakhi to her and happier to eat the sweet. She looked very cute, and her expression was also very cute when I was tying Rakhi to her.

7th September Janmashtami

I, along with my friends, sang the song "Tum Prem Ho Tum Preet Ho" as an offering to Lord Krishna. I was confident while practicing and also while performing it on stage.

19th September Ganesh Chaturthi

I learnt the steps of this dance quite easily and also taught these steps to my other friends who were not able to grasp the steps quickly. While performing, I was quite confident but could feel some nervousness inside me. I just focused on dancing and soon forgot my nervousness.
