

Report of Padma Jani

For 2021-22

DOB- 28th February'04

Padma is the second of four sisters. The other three are also in the same school as her.

Padma is a very intelligent girl. She can understand and learn very fast and has to be explained just once. She is an introvert and lacks confidence. All efforts to boost her belief in herself

brings a negative result. Her efforts at academics are sporadic and that results in her losing interest. At times she would disappear from school and go home for weeks.

Padma is a creative girl and is good at arts. However, she does not work hard enough at it, to take it to a professional level.

She can also work hard physically and we see her helping her mother during harvesting time. She does not shirk during shramdaan (work offering) in the school also.

Padma had visited Delhi for nearly a month for an exposure.

Padma appeared for her class 12 exams in Feb-Mar'22.
