

Rukmani Mali

REPORT for 2023-24 (First term)

DOB- 6th May'10

Attendance- 181 out of 183 days

Introduction:

My name is Rukmani Mali. I am 13 years old, and I come from a small village. My parents are farmers. I have one

brother and one sister, and they love me very much. I have a strong affection for maths and computer. My favourite colour is green, and I deeply appreciate nature. I also enjoy playing games and love playing in the rain. Singing songs is another one of my passions, and I like to read books. Sometimes, when I have free time, I visit the library and read about computers.

Hindi:

I have completed the first and second books. We have taken tests for both of these books. I particularly enjoyed the chapter "Andher Nagri." Currently, we are preparing for our exams. Reading books is

do free reading, group reading, grammar, message writing, and verbs. My handwriting is fine, but I have to improve my writing. I read many books, and I'm currently reading "Indra's Book." I mostly enjoy reading books, and I am always punctual. When I don't understand the meaning of some words while reading, I ask my teacher.

Maths:

I have finished my 8th book and have taken

the test. I didn't do the test properly, and I should have performed better. I am revising the material, and I intend to do my best on the test for the 9th book. I have a strong passion for math, and I am clear with the 8th book.

Science:

- **Biology:** I love biology because it teaches us about living things and plants. We have finished both NIOS books of class 10th and are revising for our exams. We have also made a biology thread model of the human body. I am very interested in biology.
- **Chemistry:** I also love chemistry because it helps us learn about chemicals. I particularly like the

something I really like, and I have also learned two Hindi songs, "Gale Mai Jiske Nag Sarpe" and "Hume Bharat Kehte Hai." I have improved my writing skills, and I occasionally work on grammar. When I get bored, I am interested in reading Sanskrit. I have learned some sentences in Sanskrit and am very interested in learning more. I need to improve my spelling and reading further. I enjoy Hindi class and sometimes find it very engaging.

English:

I have completed both chapters and am revising for my exams. In English class, we

"Acid, Base, and Salt" chapter, and I enjoy working with chemicals. We have also done an experiment involving ants, and I try my best. I am interested in chemistry.

- **Physics:** I am somewhat interested in physics, although sometimes I get bored. But since I want to pursue computer science or data handling, I need to work hard in this subject. Currently, I am revising for my exams, and we have also watched videos about Chandrayaan 3 and G20.

Social Science:

I have finished both NIOS books, and we have taken the tests for both books. We are currently revising and practicing from other books to gain a deeper understanding. I can understand more

than before. We have completed the geography book, and now we are studying history. I particularly enjoy learning about the kings and queens in history and also find geography fascinating as it teaches us about agriculture and the North-East.

Arts:

In art class, we have created various

Dance:

I love to dance and have learned various types of dances, including folk, semi-classical, Kathak, and more. I

sometimes find classical dance boring, but currently, we are learning a semi-classical dance, "Chandra Chhoda," and "Ambe Ma." We do some exercises before the dance class, and our teacher helps us correct our steps when needed. I am interested in modern

dance and Kathak. I can learn steps easily, but some steps are challenging, and our teacher assists me. I get nervous when I perform on stage, but I have improved a lot.

Music:

I enjoy music class and play the flute. I have learned many ragas like "Megh Raga" and "Raga Bhairav." We have also learned many songs and ragas with Shantanu Dada. I love discovering new songs, although sometimes I feel bored.

Computer:

I love computer class and enjoy various activities like typing, PowerPoint, story writing, painting, and more. I particularly enjoy working with PowerPoint. We also

test our typing skills to track our improvement. I aspire to work in computer science or data handling.

Games:

We do running and exercise. We play various games like volleyball, football, basketball, frisbee, and more. I enjoy volleyball and football the most. I have improved my running speed. Sometimes, I can't run due to ankle pain, but I love playing games.

Yoga:

We have yoga classes at 6:00 AM to stay fit.

We perform various yoga asanas, and I do them properly. I love doing yoga, but occasionally, when I get late, I exercise in my room.

Celebrations:

We participate in various programs like dramas, singing, playing instruments, telling jokes, and more. I have performed two dances on Independence Day.

During Ganesh Chaturthi, we did a puppet show. I enjoy watching dramas and jokes, and I had a great time playing Holi.

Shramdan:

We clean the girls' hostel, including toilets, staircases, filters, drains, and floors. We also do gardening in the afternoon, watering plants, removing grass, and more. We work on cleaning spider webs in the girls' hostel. We also participate in a grand Shramdan event once a month.

Tuesday Activity:

On Tuesdays, we engage in various activities such as dance, math, music, craft, poem writing, and more. I enjoy these

activities, although dance class can sometimes be boring. We also watch videos during some activities, and in math, we solve questions provided to us.
