

# Niraj Muduli

Date of Birth - 11<sup>th</sup> September 2005

April 2018 - March 2019

## □ Hindi

I like to read Hindi books and didi makes us study Hindi. I learnt how to write very late. Didi makes us do grammar.

I am doing class 7 and we are doing an extra class for improvement. Didi makes us read Hindi and tells us to write the same story. I have to improve my handwriting

## □ English

Speaking

I speak very little English with my friends.

My speaking habit in English is very poor.

## □ Writing

My handwriting is very bad and sometimes I cannot even read it. My spelling are also very poor. I read stories and write them by myself.

We read many stories and after that our teacher tells us to write it in our own words.

But I can't and I take the help of my friends and write the stories and take it to my teacher.

I don't like to keep writing and I get bored.

## Reading

In English class we have read many stories with our teacher like:-

- Merchant of Venice
- The speckled band
- The Tale of two cities
- The adventures of tom sawyer

I still face some problems in reading and in spellings. I like to read ghost stories and adventure stories. I like to read comics and funny stories.

## Grammar

I like to do the grammar book questions. I have learnt adjectives, noun, verb and adverbs.

I also learnt simile, antonyms and synonyms. But I can't remember and I can't read the synonyms most of the times.

## □ Poems

We do many dramas and recite many poems  
in the functions,  
but I can't remember the poems and  
I can't recite alone.

I have learnt poems of Sri Aurobindo like  
the blue bird, thy golden light, who and the  
tree.

I haven't remembered the poems.

## ➤ Math

In math I am doing class 7 book, chapter simple interest. I have to improve.

## ➤ Dance

I like to dance. Suparna didi teaches us dance. Sometimes we feel bored and sometimes interesting.

## ➤ Science

I like to do the experiments. Science is taught by Ambika didi and Srinath Bhaiya. They teach very nicely. I have to improve and learn nicely.

## ➤ Games

I like to play football and basketball. Sometimes we fight and again become friends. We make our own team and play the game.

## ➤ Celebrations

We celebrate festivals in our school with our teachers and sometimes at home. There are many festivals in our school and village.

## ❑ Report Written By Teachers

### Art, Music & Dance

He likes to attend the art class. He likes to draw, especially human figures. He makes good drawings when he is interested or concentrates. He likes to do shading. Some pictures he likes to copy from the books.

He is very obedient in the class and follows the instructions of the teacher. He can play small songs or rhymes on his flute. He can recognize the notes of the songs and plays on his own.

He has the ability but not the passion. If he will pay more attention, he can play better. In the month of September he joined a music workshop where he learnt more Rags and Dhun on flute and his sense of Taal is improved now.

## ☐ Social Science

He does his work. He needs special attention to finish his work. He can understand the topic but can't write the answers himself. Writing scheme is very poor. He is improving but he can't concentrate and doesn't try to remember.

## ☐ Science

He was excited to learn about light. He wanted to know “why do we need light if we have eyes? Does light move? If yes, how does it move and how far a torch light travels? He takes interest in activities.

He learnt new words in this topic. He is well familiar with sources of light, mirror and lenses.

He studied about the construction and working of periscope, microscope, telescope and kaleidoscope. His handwriting is not clear.

Some topics he did not understand like: laws of reflection, phases of the moon and why seasons happen? He took interest in making charts on “sources of light”. While making charts he helped his group. When he is asked some question, he sometimes makes a funny whipped face.

In the presentation he had to explain the pinhole camera. But he did not explain properly. In presentation day he was able to guide the kids on how to use pinhole camera.

## ☐ Mathematics

He is a little moody and he can solve the problems. He can understand the concept but can't remember it. He can't do the full chapter test correctly. He is improving and has started studying hard.

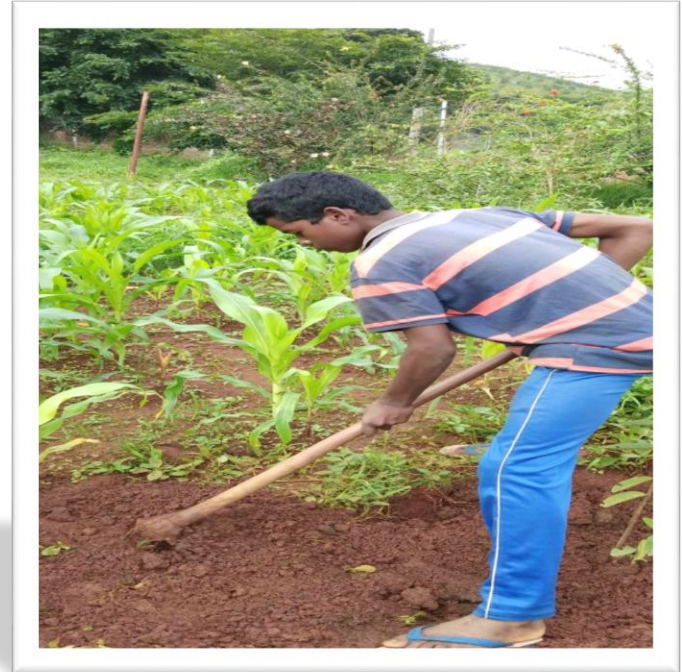

## □ English

Niraj now has improved reading. He can read but he needs the attention of teachers. While reading in the group his voice is not loud enough to hear but he tries to read. He never comes for checking himself. If the teacher will call him, he will come.

He has learnt letter writing but has not understood it. He writes all the words together, not giving space between the words so it is very difficult to check what he has written.

He has read books -

- Yoga in school health
- The invisible man
- The little toy engine and other stories

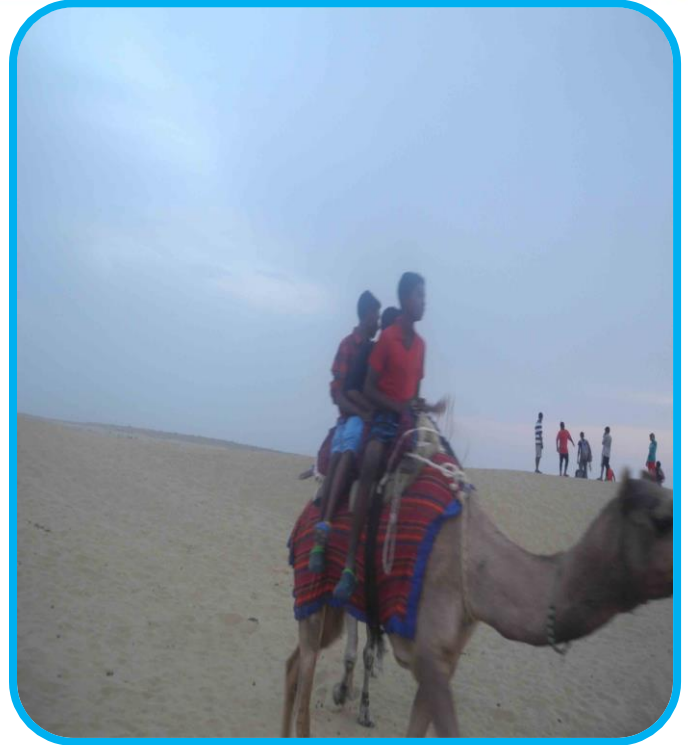

## □ Hindi

He does whatever we do in group but unfortunately writes but not memories it.

He is slow in group and for that we are taking separate classes to help him but very often he loses his book and we have to do something else. We make him read with us.

We try to help him but he sometimes doesn't come. He is an obedient child but he cannot remember what he reads and while writing makes mistakes.

# □ Odia

Niraj also tries to read  
and write correctly.
