

PEACE GROUP

Report for 2024-25(Second term)

INTRODUCTION

The peace group consists of 18 children aged 5 to 6 years old. All of them regularly attend school. They arrive at school between 8:00 to 8:30 in the morning, dressed in clean clothes. These children are well-behaved. Upon arriving at school, they do physical exercises and they play games, which they enjoy. They maintain good hygiene; they brush their teeth and wash their faces and legs at school. They all respect their teachers and listen to them during classes. During circle time, the children sit properly chant the mantras loudly. They enjoy singing songs with action. They all are interested in learning new songs, and they quickly pick up new songs and rhythms.

MATHS

The children of Peace group have shown remarkable developmental in their maths skills. We began by introducing 10 beads in two different colours to help them understand counting from 1 to 100. They engaged in skip counting by 2s with Ganitmala. On certain days, we formed smaller subgroups to provide focused, individualized attention to support their learning. We also practised counting forward and backward up to one hundred.

We used natural materials such as sticks, flowers, leaves, and empty used pens for the hands on activities. The children worked on solving word problems with one and two-digit numbers till twenty.

They compared quantities through various objects, learning to identify concepts like more and less, short and tall. Heavy and light. Some children have learnt subtraction up to ten.

We introduced the concepts of place value, where they learnt to form numbers using tens and ones with stick bundles collected from nature. The children also recognized 2D shapes, colours, and opposites, building on their prior knowledge and practising before moving on to more concepts.
