

# Group Smile Report

Some of the Smile group children joined school on 29<sup>th</sup> November and others on 30<sup>th</sup> November. The age of the children is 3+ or 4. Children come to school at 8:00 am and have breakfast in the hostel. After breakfast they come to school and brush their teeth and take a bath. We comb their hair and change their clothes. Sometimes children clean the room after having a snack at 10: 30 am. After lunch the children go home at 1:00 pm.

**SMILE GROUP**

In the group, the children do activities like drawing, collage and finger printing. Children are very excited to paint their hands and press it on the paper and the teacher displays it on the board. In the group, the children enjoy dancing and singing rhymes, etc.

Didis also tell them stories in Hindi. Children like dancing in the group but not in front of many children in the assembly. They even sing songs in the group but not in the assembly. When didi asks them to sing, the children only stand and stare at other children.

**SMILE GROUP**

Children like jumping when didi asks who can jump higher. They jump and jump and some of them sing and enjoy so much and start clapping hands. Some children like to repeat words after didi and say them again and again. Children have been trying to speak Hindi a little bit. While doing activities, they fall asleep on the floor. Kartik and Tapan they don't want to sit and are all the time lying down and playing with each other and not doing the activities.

**SMILE GROUP**

Children become happy they tell didis to do action and didis do it. Surekha didi tells story by showing them pictures. When they see the picture of birds or animals, they start singing about the bird, etc. During singing time they don't like to sing. Some of the children are very scared to sing or speak something. All children enjoy watching movies like Krishna and Ganesh and lion and the mouse. Before going home, they all like to play in the sandpit and then only they go home. On Mondays they don't go home at 12:30 because they watch movie with older children and they go home at 3:30.

They all like to play with blocks and toys.
