

# Sukanta Krisani

2021-22

DOB- 24<sup>th</sup> February'15

Sukanta from Narjiput hamlet joined school quite recently. He took some time to settle in the group. A few days he spent with his elder sister, Raila, who too joined at the same time. He comes to school regularly. He has started becoming friendly with other

children. He participates in all the activities.

After having his breakfast in the hostel, he goes straight for brushing his teeth. He loves to spend time in nature. He keeps collecting things like seeds, fruits, leaves, etc. Using leaves, he can take out different sounds. He keeps experimenting this with different leaves.

He loves to play with the things in the group before circle time. He likes to make things with blocks. He joins the

circle on time. He chants and sings the mantras and the songs. He can chant *Asatama Sadgamaya*.

## English-

He is unable to understand English properly. He tries to listen to what didis are saying. He sits quietly in the group during storytelling and keeps staring at the pictures. He listens carefully but it's difficult for him to comprehend.

### Math-

He can count till twenty. He gets confused at times and sometimes skips some numbers while counting forward. He loves to count with various objects.

Sometimes while counting with objects, he would count before taking the object and finally there would be more objects or less but never exact. He is continuing to learn counting. He loves making different designs using the

rangometry kit. He gets confused with the names of different shapes. He can differentiate more-less, fat- thin. Long-

short, heavy-light, etc.

## Hindi

Sukanto has started speaking in Hindi. When he is with his friends, he skips to his own language to communicate. He is learning the naming words in Hindi and feels shy to sing songs and rhymes with action.

## Skill work

He can fill colours in the big pictures and finds it difficult to do the same if the pictures are smaller. The colour would come out of the lines. He needs to improve in making drawings. Sometimes it's difficult to recognise what he makes. He uses bright colours. He is good at

cutting and pasting. He likes to collage a lot. In origami his creases are not very fine and he needs help to complete.

## Food habit

He sits properly while eating food. He doesn't waste food. He brings less amount of food and if he needs more, he goes for a second helping. He washes his plate by himself without any help. He washes his hands before and after meals.

## Toilet habits

He needs to improve his toilet habit. He finds it difficult to sit on the toilet pan. Initially he feared falling in. He finds it difficult to clean himself after using the toilet.

## Games

He loves to play fun games. He like running, jumping and climbing trees. He plays with his friends. He loves to play in the sandpit, on the slide, swing and the see saw. Every day before breakfast he would run to the sandpit and spends some time there. He can run very fast and can jump from heights without any fear.
