

# Sandhya Bisoi

DOB-11-Feb-2011

Attendance-173 days out of 182 days

Report for 2024-25 (Second term)

## Introduction

My name is Sandhya Bisoi and I am studying the books of class 7<sup>th</sup>. The name of my group is Perseverance where there are 21 children altogether; we all live and study harmoniously. My best friend is Rachna. My father is a farmer and my mother a housewife. My favourite hobby is reading books from the library as I get to read whatever I want to read.

## SCIENCE

In science class, I am doing the 7<sup>th</sup>-grade book. Science is my best subject. I love science because we do exciting experiments in science. I never feel bored in science, even after a long lesson. I always participate in group discussions, whether they are interesting or not. I always ask questions when I don't understand any topic, and the

teacher explains it to me. In this book, on the chapter on acids, bases, and salts, we did many experiments. I enjoyed doing them.

### Social Science

In Social Science class, I have finished the 6<sup>th</sup>-grade Civics book, and now we are doing the 7<sup>th</sup>-grade Civics book. In this book, I didn't get difficult questions to solve. When our teacher explains a new chapter, I listen very carefully. If I concentrate well in Social Science, I give the right answers. I participate in group discussions in our group. After the teacher's explanation, we do the exercise part of the book, then we give a test. In the test, sometimes I get good marks, and sometimes I do not get good marks. If I get

fewer marks, I have to retake the test. We have completed the whole book of Geography for Standard 6.

### Maths

I am in 6<sup>th</sup> class in Maths. In this book, there are some new chapters that I hadn't learnt in the lower classes. The difficult chapters are things like Algebra, etc. But whenever I start a new chapter, I always go to our teacher to understand the topic. I go with some of my classmates to understand because they are in my grade. The chapters we had done in lower classes, sometimes we don't revisit because we feel we can do them, so we do it by ourselves. But sometimes, even if it is an easy chapter, I go to understand. In Maths, I get some sums that are difficult and some that are easy. For the difficult ones, I always go to the teacher to ask. But sometimes, I don't go and try to solve them by myself. After finishing a chapter, we always give a test on that chapter. Sometimes I get good marks, and sometimes less. In this book, I had difficulty with the chapter on Construction. I am going to finish the book.

## English

In English class, I do different activities. Every day at 11:30, I have English class. In class, I like to read books. Sometimes in English class, I like to read Enid Blyton's storybooks. I have read many storybooks, like *The Mystery Series*, *The Famous Five Series*, and *The Children of Green Meadows*. When we read books in group reading, Didi gives us dictation. In dictation, I spell some words wrong. I also do work in my exercise book. The book's name is *Image Standard 6<sup>th</sup>*. It has many stories which I like, such as *The Fat Girl's Race*, *The Snake's Secret*, etc. In group reading, I have read many books such

as *The Great Glass Elevator* and *Fantastic Mr. Fox*. These were interesting stories. We haven't finished reading *The Great Glass Elevator* yet. Twice a week, we do work from the textbook. When I do book work, I don't take Didi's help. I also do grammar. In grammar, I do exercises from the book. When I do grammar, I learn new words. If I don't understand a word, I ask Didi for help. When Didi tells me the meaning, I listen very carefully, and those words help me to speak in English. In English class, Didi taught us a play called *The Shadows for The Mother's Birthday*. I took the king's part. I practised it many times, but on the Mother's Birthday, I didn't perform it because I was sick, and somebody else took my part. When Didi gives me homework, I do the work and come to class. Sometimes, Didi teaches us songs for festivals. I like learning songs. In English, I also learn dialogues for festivals.

## Hindi

I am in 6<sup>th</sup> class in Hindi. The book's name is *Basant Bhag 1*. I always enjoy doing grammar in Hindi class, and because I enjoy doing grammar, I always finish the book quickly. I enjoy grammar because in grammar, we only write short answers, and there are also short definitions to remember. In bookwork, I don't enjoy doing it because we have to write very long answers and also remember the whole story. In Hindi class, we do group reading and self-reading. After group reading, our teacher gives us dictation, in which I always get most of the words correct. In group reading, I read the book *Mahabharat*. After self-reading, the teacher tells us a story or two to write. In self-reading, I like to read books with pictures in them, but now our teacher doesn't allow us to read such books

anymore. We have also learnt how to write poems in Hindi class. Sometimes, I watch movies in Hindi class, like *Mahabharat*. I enjoy watching the epics.

## Odia

Twice a week, I have Odia class. Didi teaches us how to read big words and how to write. We do different activities in Odia class, like watching movies, reading Odia books, writing dictation, listening to stories, and other tasks, but I like doing all of them. In dictation, my handwriting is not very good, but I get most of the words correct. I also make some mistakes, but after checking, I make corrections. When I read, I don't understand some words, so I always ask Didi, and Didi always helps me understand the word. When we feel bored, we ask Didi to let us watch movies. We don't watch long movies; we only watch short videos with moral lessons. We learn many things from moral stories. Sometimes, Didi tells us stories. Whenever Didi wants to teach us something new, she always uses the blackboard.

## CELEBRATIONS

### Bhaiya's birthday

On 29<sup>th</sup> November, I celebrated Bhaiya's birthday. Sangita didi taught us a song on the same day, called *Shubh Janma Deeman Te*, a Sanskrit song. I learnt this song in 5 minutes. When I sang this song with my friends in the group, we sang beautifully, but when we performed it on stage, we made some mistakes as we were nervous. Despite this, I really enjoyed singing the song.

## CHRISTMAS

On 25<sup>th</sup> December, I celebrated Christmas. I enjoyed watching the programmes. I had also prepared a dance with my group. We learnt this dance in our free time. The dance was very easy, which is why we learnt it so quickly. It wasn't a classical dance, but a little modern. I enjoyed learning the dance. The name of the song we danced to was *Roshani Ka Khuda*. During the

performance, I forgot one step and felt very shy. On Christmas, I also sang a song called *Ishu Paida Hua*. I learnt this song in my Social Science class with the teacher, and I enjoyed singing it.

### Republic day

On 26<sup>th</sup> January, I celebrated Republic Day at our school. It was a Sunday, and I had room cleaning that day, but we had to go for flag hoisting at 6 o'clock. We sang patriotic songs. After that, everyone arrived, and we did the flag hoisting. We were given chocolates. After breakfast, I watched the parade in the movie hall.

### Saraswati Puja

On 2<sup>nd</sup> February, I celebrated Saraswati Puja at our school. On that day, I sang a song with my group. I learnt this song at Satsang. The name of the song was *Saraswati Maa Saraswati*.

### Sports day

On 13<sup>th</sup> January, I celebrated Sports Day at our school. I participated in two events: Martial Arts and Dashavatar. In Dashavatar, I played the role of one avatar, which was the Narsingh avatar. I enjoyed performing the role. I had to wear a mask and perform the role. I practised my part many times and succeeded on the last day. I also practised Martial Arts several times because it was a new event for me. While doing this, my teacher also taught us stick fighting and other techniques. I enjoyed the Sports Day. Many people came to watch us.

### Holi

I enjoyed playing Holi this year. I liked playing in the mud bath the most because we played in the mud and then went for a swim in the reservoir. We were throwing mud at each other. All the children and even the diyas were enjoying themselves. It was really a memorable moment. I ate the goodies and also drank lassie, which was tasty.

## Trip

On 29<sup>th</sup> October, I started my trip. The trip started from Koraput. From Koraput to Bhubaneswar, we took a train. We visited many places, like Simlipal, Bhitarkanika, and the tiger reserve. When we went to see Simlipal, we did a jeep safari, and we saw many waterfalls there, like Uski waterfall, Varahi waterfall, Joshinda waterfall, and Jashipur waterfall. I liked the Uski waterfall very much because it is the second-largest waterfall in India. In Baleshwar, we visited many places, like Panchlingeswar and Khirchora temple. From Baleshwar to Gaya, we travelled by train. In Gaya, we stayed in a village known as Arai and visited many places like Nalanda University and Bodhgaya. In Bodhgaya, there were many Buddhist temples, like the Chinese, Japanese, and Sri Lankan temples. After this, we went to see the biggest statue of Buddha. In Gaya, we also visited Jal Mandir and Brahma Kund, where we took a bath and had breakfast. Then, we went to Venuvan, did a safari, and saw bears and lions. We also watched a theatre performance, did ropeway riding, and went to see the Ganga Aarti. From Gaya to Lucknow, we travelled by bus. We visited the Hanuman temple, Ram Mandir, Sri Aurobindo Ashram, Clock Tower, University of Lucknow, and Gomti Riverfront. From Lucknow, we went by metro and then by train to Jhansi. I liked the Jhansi Fort the most. I enjoyed the trip very much.
