Archita is very attentive in the class and is a very hardworking girl. She always does her work on time and sometimes helps her friends to finish their work. She is doing the 3rd Gunjan book. She does her work with patience and does it very neatly. She always tries to finish the work within time and always gets her notebook checked. She finds the question answers very easy, so she quickly finishes her work. Her understanding is very good; she listens very carefully in the class. She loves reading books and she is good at dictation. She also learnt the grammar Varna vichhed (breaking words) very quickly. She learnt the poem very quickly and also helped others to learn it.

Archita has a very neat and tidy handwriting, and can answer the questions well. She tries answering all the questions by herself and most of the time her answers are correct. She enjoys studying this subject and whenever there is any doubt regarding the topic, she always makes sure that her doubt is cleared before going ahead. She enjoys learning about all the things that they have taken up. When there is any group discussion regarding the topic she always participates in it and she pays close attention. Whenever questions are asked orally, she is one of the first to answer. She

is able to comprehend the questions well and also answer them. She learnt a lot about the various types of plants and animals and also about the habitat of the animals. She can differentiate between the different types of animals according to their food habits. While answering the questions from the third-class living science book, she was able to comprehend the questions all by herself and most of the questions that she answered were correct. She

Maths:

Archita had been going home in the evening and was lagging behind as she missed out on the evening classes. Now she is staying in the hostel and is rapidly covering the chapters. She was uncomfortable in solving Multiplications and Divisions, she kept on making errors in Addition and in Subtractions. Now she gets a lot of time to study and is mastering the four operations. During the day class, new chapters are introduced as topics, and she has covered up topics or concepts like, Time, Calendar, and now Measurement.

Measurement: In this topic Archita can comfortably measure materials in centimetres and now in metre. She correctly measured the length of objects, her classroom, etc. She can convert CM to M and vice versa. She can draw simple line segments in her notebook.

Time: In this topic Archita learnt to see and read time, and draw clock showing time. She took a lot of time to learn and

read time in different ways. She can convert seconds and minutes to minutes and hours.

Calendar: This topic introduced Archita about the months, weeks and days. She can convert days and weeks to months and the reverse. She could not attend all the classes due to family functions.

Arts:

Archita loves her art class. She practised cutting and pasting flowers. She has learnt to make a house. She has also learnt an easy way to draw animals. She loves to draw a lot and is very good at it. She has also learnt to make hanging decorations which she enjoyed a lot.

Dance:

Archita enjoys dance class and is good in dance. She loves all types of dances. She is a fast learner. She is keen in learning new routines. She is now improving in her movements and expression. She has learnt basic steps in classical fusion. Her confidence in dance is improving.

Puzzles:

Archita has started the 500 pieces Jungle book puzzle. She is concentrated while doing the puzzles and does the puzzles very quickly. She helps her friends to find the pieces and also asks them to find the pieces quickly so that they can complete the puzzle quickly. She with her friends have completed half of it.

Singing and drama:

She loves to sing song and she loves amongst all the songs favourite song is fight song. She loves to learn new songs. She has learnt some two

three new songs like suno ghor se, sur jo tera chakaraye, and for Christmas they have learnt a song dekho aayi hai raat Christmas ki. On every Wednesday she watches English movies with her friends and she enjoys watching it. From February she has started doing social science class and now she is doing freedom book term.

Odia:

Archita is a quiet and attentive student in the class. She listens carefully and focuses on her lessons. Her understanding is good, and she has a sharp mind. She grasps new concepts quickly and remembers them well. She has a good understanding of the Odia varnamala. She can read and write Odia words without matras correctly. Her reading skills are clear, and she enjoys practising her writing. Archita is interested in learning Odia songs. She listens carefully and tries to learn the words. This shows her love for the language and her eagerness to improve. She can write numbers from 1 to 10 in Odia.

Celebration:
