There are six types of Shramdan: gardening, hostel cleaning, school cleaning, toilet cleaning, girls' hostel cleaning, and kitchen duties. I perform all these activities properly. I love doing Shramdan it is very enjoyable for me.

PAINTING

I enjoy working on my painting course book. I am able to understand the concepts well. Now, I am doing painting practicals on my own. I love it very much because I put a lot of hard work into my drawings. I am also preparing for my exam.

VOLUNTEERING

I enjoy teaching small children. I am currently teaching the youngest group in the school. I teach them songs, engage them in activities, let them play with blocks, and tell them stories. I do my best to teach them well and ensure they understand properly. I use different

methods and various objects to make learning easier for them. Most of the time, they are able to grasp the concepts.

I also teach them chanting and songs. I guide them through activities such as colouring, painting, and playing with judo cubes and clay. When I tell them stories, they ask

questions if they do not understand, which helps them learn better. I am very interested in teaching them, but sometimes it is challenging for me.

Now, I am teaching a new group called the "Smile Group." They are very interesting to work with.

GAMES

In games, I like to play basketball very much. I do exercises before playing. I have improved in basketball, football, and volleyball. I make sure to exercise properly so that I do not get cramps or any other issues.

I enjoy celebrations. I performed a dance on Christmas. Most of the time, I organise programmes for

children during celebrations. I taught songs and dances to small children, such as "O Sweet Mother" and "Bobo Bole." I enjoy doing activities with children.

Celebrations are very enjoyable. On Sports Day, I performed a welcome dance and participated in the sari drill. I enjoyed performing, though I had stage fright. The sari drill was a new activity for me, and I liked it very much.
