Kamlu is very short in height. It is partly due to genetic reason but more due to perches disease.

Kamlu lost both his parents at a very young age. He has three sisters- One older and two younger.

Kamlu is exceptionally intelligent. However, he does not have a drive to work hard. He gets distracted very easily.

Kamlu opted out of doing maths and Science. Instead of that he took up Home Science and Data Entry.

He appeared for the 10th board exams in March – April 2018. The results are as follows:

- English: 81
- Data Entry: 76
- Hindi: 67
- Home Science: 54
- Social Science: 48

Kamlu has obtained admission in Rama Krishna Mission School, Haat Muniguda in Class 11. It is a CBSE School only for tribal boys. Kamlu has taken up humanities.

Kamlu wanted to stay on in Kechla, but as he is not self motivated, it was felt that a main stream formal school would be better for him.

Kamlu's spoken and written English are both very good. He got only 81% in his exams, but that is because he hardly studied.

Sports

Kamlu is very good in football. His skills and ball control are very good. He has a wonderful game sense. Kamlu can pre-empt moves and passes and shows his prowess on the field.

Kamlu plays basketball also. But for his height, he would have been good at it. He is all over the court and shoots 3 pointers.

He plays Volleyball. Is good on the unicycle and cycling. A decent gymnast. Can walk on his hands. He can swim.

Music

Kamlu plays Tabla but does not practise enough. He loves singing English songs.

Kamlu was very popular with teachers and students. It was only recently that he had become a bane for teachers. But that is because he was not studying enough. There were a lot of expectations from him.

Kamlu needs to work on self discipline, self control and become focussed on what has to be done.

He might find an imposed form of the above at the place where he has gone, but that will not help him in the long run.
