

# Pallavi Krishani

DOB-27-Sep-2011

Attendance-175 days out of 182 days

Report for 2024-25 (Second term)

## Introduction

My name is Pallavi Krishani. I am 13 years old. I study at Auro-Mira Vidya Mandir. My favourite hobby is listening to music. I always participate in the activities that take place in our school. I like staying at school.

## Yoga

I am always present while doing yoga. I come at the right time, as we do yoga every day. I can do

many of the asanas. If I am not able to do them, I try or ask didis to help me. I don't like doing all the asanas. We do all types of asanas—balancing, stretching, sitting, standing, etc.

## Shramdan

I do many different types of shramdan: gardening, school cleaning, hostel cleaning,

*Structure.* The chapter *Chemical Reactions and Equations* was difficult for me, but I still tried my best. I always do the homework given by the teachers. I find science very difficult.

### English

In English, I have completed both the 10<sup>th</sup> course books of NIOS. I found it very easy to do. Now we are preparing for our tests. I am not able to do grammar when they ask us to, and I really don't put in any effort because I find it very boring. In English, I like doing dictation the most. I am also able to write properly, and my spellings are quite fine. I score good marks in tests.

toilet cleaning, and kitchen work. I don't like gardening. I like school cleaning the most because it's done in a separate place.

### Science

I am studying the 10<sup>th</sup> book in science. In physics, I have completed *Sources of Energy and Work and Energy*. We also did a project in science class. In chemistry, we have completed *Atoms and Molecules, Chemical Reactions and Equations*, and Atomic

## Hindi

In Hindi, I have finished the 1<sup>st</sup> course book of NIOS and am going to start the 2<sup>nd</sup> course book. I always do the homework given by the teachers. My handwriting in Hindi is not good. I score good marks in tests. I face many difficulties in grammar. Sometimes I make mistakes while writing in Hindi. I like doing dictation, but as our exams are approaching, we have to focus on our course books. I score good marks in tests.

## Maths

In maths, I have completed the 7<sup>th</sup> book and started the 8<sup>th</sup> book. I found the 7<sup>th</sup> class difficult, which is why I got bad

marks in the tests. I took a lot of time to complete the 7<sup>th</sup> class and revised for a long time, but still, I was not able to do the book properly. Now I am doing the 8<sup>th</sup> book, in which I am really trying my best, and I hope to find it easier.

## Social Science

In Social Studies, we have started studying from both books. We have completed the history and geography parts and are revising them again for our exams. I find history easy because we get to learn about past events. In geography, we have completed half the chapters, and we are going to do the other half. I find geography easy to learn. In civics, we have many chapters left to complete. It is very difficult for us, which is why we are taking it slow and

have done very few chapters. To remember charts or other information, we learn songs or make our own projects and present them in groups.

### **Art**

I like art class as I get to learn new techniques and ways of doing it. We make drawings and display them on our group's board, make hangings, and put them on the ceiling. I have learnt many types of art. I really don't know how to do art well, but I still try my best. I am now able to draw properly and neatly, and I try to colour with an artistic finish.

Before doing anything in art class, I sit for a long time thinking and take help from others when given a topic.

### **Computer**

I like computer class. We do many skills during computer class. We also do paintings sometimes, but very rarely. Since we are growing up, we are learning typing skills. My typing speed is very slow, but I am learning to do it faster.

### **Dance**

Till now, we haven't learnt any dance because our dance teachers went on trips. I am not able to dance properly. I don't get the steps as quickly as others, but I still try my best to learn them fast. Now, because our exams are approaching, we have stopped dance class.

## Games

I am always present on the field during games time. I am not always on time, as I go a little late, but I still attend. Before playing, we do running and exercises. Now, I really like playing basketball. I never fight while playing games, and I enjoy playing with my friends.

## Self-Study

During self-study class, I do my homework. If I don't understand something, I ask my friends or any teacher sitting beside me. I do self-study during my Odia class, meditation, dance class, and after dinner.

## Celebrations

I like celebrating festivals. I always enjoy the festivals celebrated in our school. On 13<sup>th</sup> January, we celebrated our Sports Day, in which all our school children participated and performed on stage. We all did a school march past in the morning, which started the whole programme. I took part in the pyramid event because I wanted to learn balancing. At first, I was scared of doing the pyramid, but with

practise, I learnt how to do it and was no longer afraid. On the final day, I performed the pyramid very well. Everyone liked it because it was really impressive to climb on each other and form a big pyramid for so long.

### Trip

I started my trip on 28<sup>th</sup> October 2024. I really liked travelling and visiting many new places. By going on trips, we get to learn new things. This time, we went to Bhubaneswar.

In Bhubaneswar, we visited Lingaraj Temple and Simlipal, where we did zip riding and saw many waterfalls like Usuki, Barahi, and Jashinda. We stayed for one night in Jashipur village. The next day, we went to

Bhitarkanika to see different types of crocodiles. We also visited the Jagannath Temple in Puri, which is a famous temple in Odisha. We went to Kirchor Temple and also visited ISKCON Temple, where we tasted the meal offered to the Bhagwans.

The next day, we took a train from Odisha to Bihar and went to Gaya. There, we stayed in Arai village. In Gaya, we visited Nalanda University, Bodh Gaya, Dashrath Manjhi Road, Mahabodhi Temple, Mahavir Temple, and the Chinese, Sri Lankan, and Japanese temples of Buddha. We also saw the

Buddha statue, which was 180 feet tall.

For a bath in Brahmakund, we went to Sapta Dhara. We visited the zoo theatre, deer safari, zoo safari, tiger safari, leopard safari, and lion safari, and we also did a ropeway ride. We visited Vishnu Stupa, Bhim's fighting place, Namo Ghat, Kashi Vishwanath Temple, Ganga, and Vishwanath Ghat. At night, we went to the Ganga Aarti by boat.

In Ayodhya, we visited Hanuman Mandir and Ram Mandir. At night, we attended the Sarayu Aarti. Then, we went to Lucknow. We visited Bhool Bhulaiya, which was very enjoyable. We were not able to

find our way out of the maze! We also saw many other places like the Clock Tower, Art Gallery, Mahadev Mandir, and the University of Lucknow. The Gomti River was very beautiful to see.

However, the place we stayed in Lucknow was not nice. I didn't like staying there. One day in Lucknow, we spent some time with IPS officers and also with sports persons. Eco Garden was also a very nice place.

There, we stayed at Neha didi's house, which was really beautiful. It felt just like home, and I didn't feel like coming back to Kechla again. In Jhansi, we visited the planetarium and went to the printing press of a newspaper. Our photos even appeared in the newspaper! On the last day, we danced and enjoyed a lot with Neha didi.
