

STUTI JANI

Age: 5.5 years

Stuti is a shy and quiet child. She is attentive in class and keen to learn.

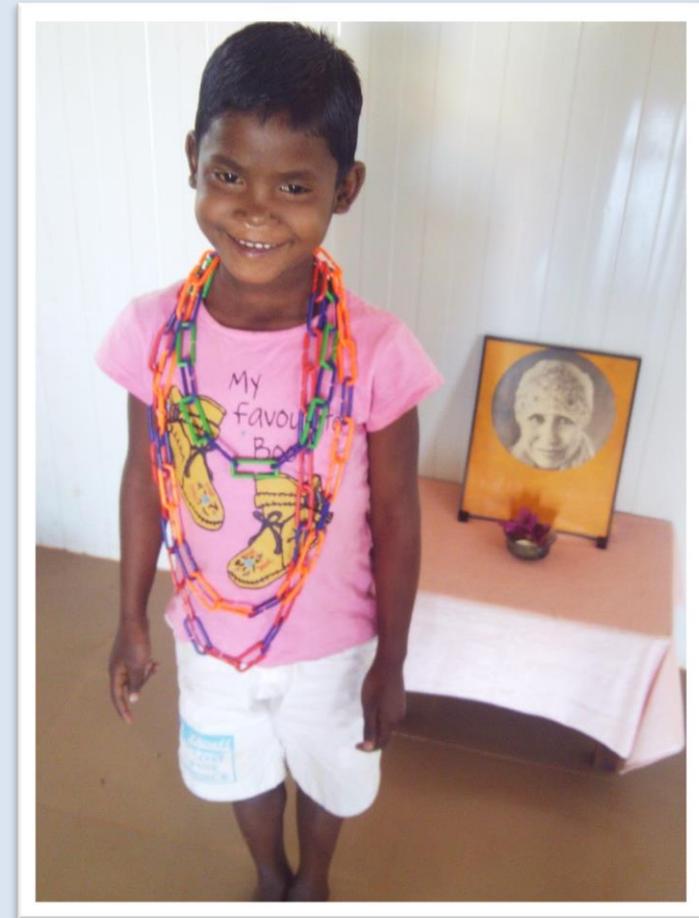

Stuti used to be very shy and reluctant to participate in group activities, but now she participates. She speaks very softly, never disturbing or distracting others in the class.

Stuti has two other siblings studying in our school. One in Golden and the other in the Twinkle Group. She is from village - Leduguda

Stuti's best friend in the group is Kapil, both come to school together.

Stuti doesn't waste food, eats properly, does not make the eating area dirty.

Stuti is always ready to help group mates, friends and diyas.

ENGLISH

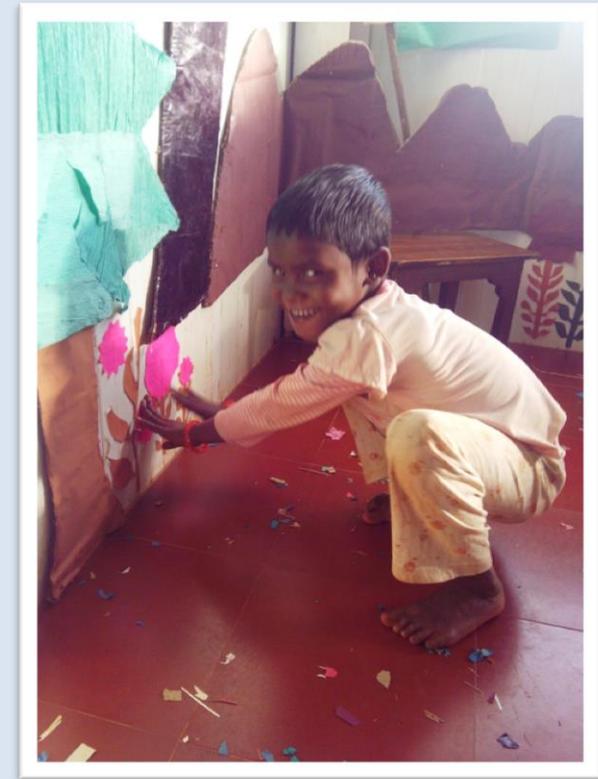

Stuti is slowly opening up. She makes an effort to speak in English. She is soft spoken, enjoys arts and craft but takes longer to complete her work.

She tends to come late but is making an effort to be on time.

She is a pleasant child to have in the class. She needs more encouragement to participate orally.

Stuti has picked up few words and tries to speak in broken sentences.

She is quite imaginative while drawing and storytelling.

HINDI

Initially Stuti was very quiet, but now she has opened up. She is enjoying learning. She is also quick to respond. She expresses herself. In the alphabet related drawing activity she is able to identify lots of relevant words starting with a particular alphabet.

When we started writing in the handwriting books, she was slow but now she has grasped how, which letter is written.

Stuti is a good story teller, she is quite imaginative.

Once she drew a picture story having clouds, rain and tree. She narrated how cloud told the rain, let us hide in the tree. First the mummy, papa clouds hid. Children clouds also wanted to play hide and seek. So all started playing together. Mummy cloud saw that some cloud children had yet not joined. Later the rain searched out the clouds. Finally the tree asked all of them to go away.

MATHEMATICS

She takes time to answer, also she speaks very softly.

If didi asks everyone, Stuti sits quietly, when everyone has answered she says softly “didi I had also thought of the same answer, I said softly, you couldn't hear. If asked individually, she smiles and answers.

She can count nicely and clearly up to 110.

She knows number after, before and in between.

She can also do skip counting for 2, 3, 4, 5 up to 50. She can be seen here, playing math games with the older children. She is very interested to help others. She can also identify numbers.
