

# JAGRITI JANI

DATE OF BIRTH- 14<sup>TH</sup> -OCT-09

ANNUAL REPORT FOR 2023-2024 (SECOND TERM)

ATTENDANCE \_\_\_\_\_ DAYS OUT OF 366 DAYS

## INTRODUCTION

My name is Jagriti Jani. I am in the 10<sup>th</sup> class at Auro-Mira Vidya Mandir located in Kechla. I enjoy studying in this school because of its natural surroundings. I belong to the hamlet of Leduguda of Kechla village.

## HINDI

In Hindi, I am revising our NIOS books. We read the textbooks, ask questions to each other, and take chapter-wise tests, in which I achieve

good marks. Although my spellings are not perfect and I make occasional mistakes, I make efforts to improve by reading books in the library and practising grammar with my teacher. While my grammar skills are still developing, I have made some progress.

## ENGLISH

I have completed both of my NIOS course books for 10th class English and am now preparing for my exams. Our English curriculum includes grammar, reading books, and taking chapter-wise tests, where I consistently perform well. My spelling is accurate, and my handwriting is neat. I diligently complete all homework assignments. Although I find grammar challenging, my teacher provides support, covering topics such as prefixes, suffixes, letter

writing, and more. I enjoy reading books during my free time, with my current read being "The Mother" by Pearl S. Buck.

## SOCIAL SCIENCE

Having completed both my NIOS books, I am currently revising from ICSE books on history, geography, and political science. Map practise is part of our revision, and while I struggle with it, my teacher provides assistance. History is my favourite subject, while political science poses more challenges, requiring additional revision when our teacher is unavailable.

## SCIENCE

In science, I have finished both my NIOS books and am now revising material from both 10<sup>th</sup> and 9<sup>th</sup> class books.

## PHYSICS

Currently, I am studying the 10<sup>th</sup> class CBSE physics book with Prakash Sir. We are covering the chapter on "Light Energy" and have already completed topics such as magnetic effects of electric

current and electric current. I diligently complete homework assignments and seek clarification from my teacher when needed.

## CHEMISTRY

In chemistry, we are revising the 9<sup>th</sup> class CBSE book, focusing on the chapter about atoms and molecules. While this topic presents some challenges, I persevere in my efforts.

## BIOLOGY

In biology, we are revising and taking chapter-wise tests, achieving good marks. If I encounter difficulties, I seek assistance from my teachers. Biology is my favourite subject, and I find it relatively easy.

## MATHS

I am currently studying the 10th class NIOS maths books, having previously studied from the RD Sharma 10th book. I am currently covering topics such as "Percentage and Its Application" and have already studied linear equations, arithmetic progression, special products, and factorization. I consistently perform well on tests and seek help from my teacher when needed, particularly with challenging topics like percentages.

## DANCE

Our dance class is held every Friday, and I thoroughly enjoy it, practising diligently in my free time. We explore various dance forms, including classical, semi-classical, folk dances of India, western dance, and contemporary. Recently, we began learning the basics of Kathak, and though initially challenging, with practice, I have improved.

## MUSIC

I attend music class on Mondays and Saturdays, where we learn flute with Bhavna Didi. We review songs and ragas taught by Shantanu Da and also learn new pieces. We learnt a song 'Pronamo Brahmaputra' and now we are learning a new song of

Meera Bai. I particularly enjoy playing the flute and arrive early for class. Even in the absence of our teacher, we practice independently.

## YOGA

Our yoga class begins at 6:00 am, and I consistently attend on time despite initial feelings of laziness. I perform various asanas, including Gomukhasana, Paschimutasana, Surya Namaskar, and Shavasana, improving my flexibility over time. I enjoy yoga immensely and continue practising even when our teacher is absent

## COMPUTER

In computer class, we engage in activities such as Typing Master, report writing, Photoshop, PowerPoint, and painting. I particularly enjoy

typing and painting, actively participating to improve my skills. In typing master, I do word drill, key drill, typing test, etc. We have also begun reading a book on computer basics, and regular tests assess our progress.

## ART

Our art class is held on Thursdays at 2:30 pm, where we draw nature scenes and paint with watercolours. I have a passion for art and often spend my free time

creating drawings. I actively participate in all art activities, including making decorations for events such as Christmas.

## CELEBRATIONS

On Christmas, I did a shadow play where I was the angel and I did a dance on 'Christmas time is here'. On New Year, I did a dance on a Telegu song 'rammulo' with my classmates. I also did a contemporary dance with my friends. On Basant Panchami, we sang a song 'Var de'. On 21st Feb on the Mother's birthday, I sang a song on the four Shakti's of the Mother. We had also put up a flower exhibition, and I learnt the names of many flowers. On 29th Feb, we celebrated golden day and we did march past in the morning. We celebrated sports day on 3rd Feb. I had taken gymnastics and I liked doing it.

We celebrated Holi on 25th March. We made colours with flowers, and we played with them. We also did marketing, and it was so much fun.

## SHRAMDAN

At 6:30 am, we engage in shramdan, contributing to tasks such as cleaning the girls' hostel. I diligently perform cleaning duties, ensuring proper sanitation and timely completion of tasks. I willingly assist others and prioritize maintaining cleanliness.

## NORTHEAST TRIP

I embarked on my trip on 29th Oct .We took a train from Paliba and changed to another train from Koraput to Titlagarh .We stayed 1 night at Titlagarh and the next morning we set out for Kolkata. We reached Kolkata on 31st .At Kolkata, we went to Alipore zoo .There we saw different types of animals .After that, we had our lunch and set out for Guwahati .After

lunch, we went to Srimanta Sankardev Kalashetra museum .The next morning, we packed our bags and went to Maa Kamakhya temple .After that we went to Tezpur .On 2nd Nov we went to Agnigarh, Maha Bhairav temple and Ganesh ghat . Then in the afternoon we set out for Rupa . We stayed one night at Rupa in the Thonkong monastery and the next morning we went to Tawang .

On 4th Nov we went to Bumla pass where we saw the China border .When I went there, I had a strange feeling .I felt patriotism for my country .In the afternoon we went to Buddha monastery, Buddha Park and war memorial .The next morning, we again went to Rupa and reached there at 5:00 p.m .We had a good connection with the monks there and we played football and danced with them .The next morning, we had our breakfast, and we went to the Kiwi orchard and ate Kiwis also .After that

we went to Kaziranga and stayed one night there .The next morning, we went to the Kaziranga national park and we did a jeep safari .We saw many elephants Rhinos, wild buffalos, etc .

After Kaziranga we went to Shillong in Meghalaya .It was raining when we reached .We had a night stay at the Pastoral Centre .The next

day we went to the elephant falls, seven sister falls, Mawsmmai cave and Umiam lake .I didn't like the seven sister falls because the water had dried up .I liked the Mawsmmai cave because I had seen a cave for the first time . Then we went to Guwahati . From there we went to Gangtok

we reached there at midnight .The next morning, we went to Ganesh top, viewpoint of Gangtok, Ban Jhakri falls .I liked the falls it had such cool water .in the afternoon we went to Sikkim bazaar and did shopping there .On 12th Nov we went to Baba

mandir, and a lake .The next day we went to chardham and Namchi .After coming back, we celebrated Diwali .We learnt the folk dance of Sikkim and we taught them our dance .We had so much fun .On 14th Nov on Childrens 'Day we set out for Kolkata .In Kolkata, we went to science city, Victoria memorial, Sri Aurobindo Bhawan .I liked science city the most. We saw the evolution of humans and we went to the time machine, saw the planets etc. then we came back to Kechla .

## TUESDAY ACTIVITIES

On Tuesdays, we participate in various activities such as cleaning water tanks, gardening, plastic collection, and kitchen duties. These activities offer valuable learning experiences, allowing me to develop new skills such as cooking and tank cleaning. I had gone to the kitchen once and I learnt to make samosa.
