MATHEMATICS

Jagat is currently doing Book - VI. His interest in Math and attention span is very good. He sits quietly and does his work without getting distracted.

Once he understands the concept, he works independently. When new concepts are introduced, he does lots of mistakes. He does not even ask to be explained again. He has done the whole and rational numbers. Jagat, along with his group companions Pitamber, Madan and Lalu, do Maths in their spare time.

HINDI

Jagat has improved in Hindi reading. He thinks and writes, makes proper structured sentences. He has some problem in understanding grammar concepts. That is because he is distracted at times. When he pays attention, he understands. At times he makes spelling mistakes for the same reason. We are focusing on improving his understanding of matras and handwriting.
