

Mahendra Gouda

DOB- 20-May-15

Report for 2022-23 (first term)

Maths

Mahendra is an intelligent and fast learner. He participates enthusiastically in every activity. He has a sharp mind and remembers quickly. Sometimes he is inattentive while writing and makes errors even though he knows the answer. When he gets any wrong answer, he can correct on his own. He has learnt place value of 3-digit numbers, expanded form, carryover addition and borrowing subtraction. He can write the numbers till 1000. He has started using a notebook. Initially his

handwriting was not good but now it is improving. He is good in mental maths and he likes doing it. He can arrange 2-digit numbers in ascending and descending order. He knows the name of symbols ($>$, $<$, $=$) and their uses. He is good at making story sums for his friends and he also asks in class. He has learnt multiplication table till 10 through playing games.

Projects

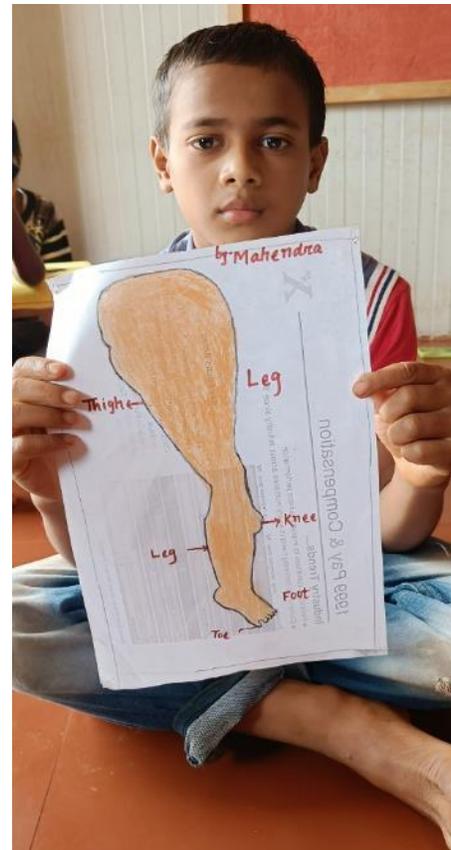

He is really a brilliant child. He tries to remember things very quickly. In the seasonal fruits topic, he made the drawing of watermelon which is his favourite fruit. He has interest in learning new things. He asks questions in the class when he is not able to understand. He went to the ashram with his mates to see the different varieties of fruits and also collected many fruits and took it to his group and seeing them, he made drawings of the fruits he had brought. He learnt the colours, shapes and sizes of all the fruits which are around him and saw how many seeds are present in each fruit. Earlier he could

not answer when the teachers randomly asked him questions like 'how many seeds does rose apple have'. Earlier he did not know the names of fruits in English except for a few like mango/ guava, but after doing this topic, he could remember quite a few names. Although he doesn't know the names of many fruits in English, but he tried his best to remember. He also learnt which fruit grows in which season. He made the drawings on paper, as well as on a cardboard. While making and painting the drawings, he faced problem in giving the

proper shape to the fruit, so he took the help from teachers and also from his friends. He had to cut the cardboard in which he had made the drawings of a watermelon, but it was too tough for him to cut in the shape of a watermelon as it was very thick, so he had to take help from his friends. After finishing his work, he also helped his friends to finish theirs.

In the topic of 'My Body', he did many activities like making the drawing of legs (lower limbs) and also helped his friend

GAURAV to make the picture of body (front side). He visited the science lab to see the skeleton. He observed all joints and bones and understood it. He watched a video and learnt the internal body parts and how they function. He can now recognize the internal body parts and external body parts.

English

Mahendra is a very bright boy and a hyperactive child. He is very quick in learning the poems, songs and the lines of a play. He is very keen to learn new songs, plays, poems and is curious too. But sometimes he gets fidgety and restless when he does not get the

attention of the teachers.

He is an active boy. He loves to do English class. He can read books properly. He loves to read English books very much. He has read some

books in the class. They are - the three Billy goats, the enormous turnip, little red riding hood, the little red hen, the three little pigs, the ugly

duckling, the sly fox, etc. He can read these books properly by himself and without any help. He can speak English, but not properly but he can pronounce the words properly. He has learnt some songs in English class like imagine, one proud peacock and some songs from the Karadi tales.

Hindi

He is quite an intelligent boy. He has clarity with the alphabets. He can recognize the matras (vowels) and can read the short stories. But he is not so clear in reading. He sometime get slow when he is not able to get what has been written. When he is attentive in the class, then he able to learn it well and when he doesn't concentrate in the class, then he is not able to learn. When

he is reading small stories, he tries to read by himself and when he is not able to read, then he comes to ask. He also tries to help his friends to read. On Janmashtami he did a play. He has got the yogis role. It was his first play in Hindi, so he was not able to do it well but he tried. On

Ganesh puja, he had taken the role of Ganesh in the play. He had got more dialogues and he remembered his dialogues very easily, but while doing the actions, he was not able to get it right. But he did the play well and also enjoyed doing it.

Arts & crafts

He is an intelligent and a smart boy. He catches things very fast. He likes to do art class because he enjoys the activities there. In six months, he has improved a lot in skill work. He does his work very neatly

and is always eager to learn new things. When he does any activities, he is fully concentrated. His sense of colouring, cutting, pasting is very good. He made many things to decorate his group walls and ceiling, like he made orange colour butterflies to hang, red colour flowers to stick on the wall and pink colour flowers to display on the board. He enjoyed doing these things.

He made many things to decorate his group walls and ceiling, like he made orange colour butterflies to hang, red colour flowers to stick on the wall and pink colour flowers to display on the board. He enjoyed doing these things.

Mahendra is a very hard-working child. He also helps his classmates to finish their work. He never likes to copy drawings from the book. He has no problem in doing puzzles. He likes to do the difficult puzzles and asks for more.

Physical activities

He is a hyperactive child on the games field. He takes interest in playing all kinds of games. Mostly he likes to play minor games like “hide and seek” and “chain game”. He enjoys yogaasana with dance. He can do simple asanas like Sarvangasana, Halasana, Matsyasana, Dhanurasana, Naukasana, Padmasana, arch and forward roll. He is very keen to do tree climbing. Nowadays he is practising cartwheel. He is learning to play with the ball by kicking, catching, passing, aiming and throwing.
