

Hemanta Muduli

2021-22

DOB- 17th May'13

Math:

Hemanta came to Smile group from the lower group and managed to cover up. With objects he started counting with the group. He was slow at first but later he did it very

quickly and learnt forward counting till hundred. When he learnt the backward counting, he was initially not getting the pattern and did backward counting till twenty and after a few days he could count from hundred. After this he did skip counting of two till hundred and he did it very well. He was one of the fastest in recognizing the numbers and with the song and drawing it was much easier for him to recognize the numbers. He did some addition with objects,

and he was very good in it. But when it came to mental addition, he was unable to visualize the numbers and add mentally.

Project: -

He listens to whatever is being taught but takes time to remember.

In vegetable topic he learnt how to draw pictures of vegetable. He needed some help to create stories. He helped his friends to make charts, based on the vegetables. He participated in the vegetable presentation. He was a bit nervous while presenting. He learnt a vegetable song.

His favourite vegetable is potato.

He learnt the names of different animals and made animal chart with his friends. He learnt how to make animals with clay and gave beautiful colours to it.

English:

During class he speak very little. When any question is individually asked, then only he answers. He requires

prodding and some help when he creates his own stories. He is happy to

learn English songs and sings them joyfully. He is learning to recognize letters and their sounds. On The

Mother's birthday, his group had performed a play "rainbow". In this drama he had taken the role of Indigo colour.

Hindi:

He speaks very clearly and in a loud voice. He is making an effort to improve his sentence structure. He is able to narrate stories that he has heard from didis but is not able to create his own story. His concentration span is gradually increasing. He gets distracted very fast. He has worked hard in learning the vowels of the Hindi alphabet. Now he is able to recognize the letters and the corresponding sound but he is not able to make sentences using the words but he tries.

Art& craft:

He enjoys all activities, but his favourite skill is cutting papers. He also knows 2d paper folding without didi's help. He is gradually increasing his concentration span.

Games:- He reaches on time for his games activities. He loves to do yogasana in the hall and likes crane pose. Most of the time he wants to spend in the sand pit and enjoys the swings. He has good stamina he can trek up the hill without hesitation.
