New Creation

Suryodhan Gouda

Suryodhan is a smart boy. He is worldly wise. He is confident and knows how to talk to people from different backgrounds.

His spoken English is very good. His written English is also reasonably good.

You can give him a work and it will be done. If the work entails hard work or dirtying ones hands, then he will get it done without doing anything himself.

In our school, Suryodhan is peerless in putting things off for the future, especially his academics.

New Creation

Suryodhan Gouda

Suryodhan has very modest aims and standards that he sets for himself. If others will aim for 80%, he is satisfied with 50%. If he was lacking in intelligence, one could have overlooked this. Unfortunately he is a bright boy and his lack of hard work is quite unforgiveable. Especially when his aims and desires for the future are, if anything, more than others.

We would not go into the different subjects. The story is the same. He understands everything but does not work.

Suryodhan Gouda

Sports

Suryodhan has considerably improved in basketball. Earlier he would only be telling others what has to be done. Now he has started doing things himself.

He is also passionate about football. Suryodhan is a decent swimmer but does not work hard.

His physique will improve once he starts working harder in sports.

Music

Suryodhan sings well. He enjoys singing in English and Hindi. If the pitch is high and the tempo brisk, there is nothing more that Suryodhan will desire.

He also plays good flute.

Suryodhan Gouda

Dance

Suryodhan enjoys modern dances. Here he would work hard and try and bring perfection.

Math (Self Report)

Suryodhan is preparing for 10th NIOS board exam. He will appear for the exam in Oct. 2018. He has covered NIOS Book. He is very slow in solving problems. He always needs push. He follows short cut methods to write the answer and makes many mistakes in calculations. He has good thinking ability and answers questions mentally, but expressing on paper is poor. Most of the time he drags himself due to his laziness and not doing anything. He needs to wake up and work hard to do well in examination.

Science (Self Report)

I am preparing for my board exams and I will be appearing in October 2018. I have covered all the chapters and I am having problem in the chapters energy and magnetic effect of electric current. We had gone to Delhi to revise the chapters which we felt were difficult. We studied Biology with Veerinder Didi, Physics with Prakash Bhaiya and Chemistry with Meeta didi. I understood most of what we learnt in Delhi. I sometimes score good and sometimes bad in the revision tests. I keep fluctuating and I know the reason is lack of concentration. I need to focus to score good marks in the board examinations.
