Teacher's remarks:

## Home Science

Surendra is a quiet boy who rarely speaks in the class. He rarely asks question. But when he is asked a question, he answers. He has a good memory. He can remember very fast. He has a fast handwriting. He is interested in learning this subject. He is focused during the class. He has finished the syllabus and did question and answers of it.

Most of it he can do by himself but with some of the concepts and questions he needed help. Some of the chapters were difficult for him like fabric finishes, fibre to fabric and health. He is very good at remembering but still needs to work hard.
