

## ARJUN, 7 years, Flower Group

In this term Arjun has not been regular to school.

He is not enjoying studying and learning new things.

Arjun is utilizing his energy in various mischievous activities rather than studying.

Most of the time he is distracted, he also disturbs the group.

English Language - Arjun is quite bright boy.

Though he is irregular to class, he is learning the language well.

He can read nicely, getting stuck at bigger words.

## ARJUN, 7 years, Flower Group

He doesn't talk much in English but he does manage to get his sentences correctly.

Is good with games and pronunciation but needs to be a little more concentrated.

He played the narrator in the drama and didn't forget his lines in spite of missing many days of rehearsal.

Hindi Language - Arjun has become very irregular to class.

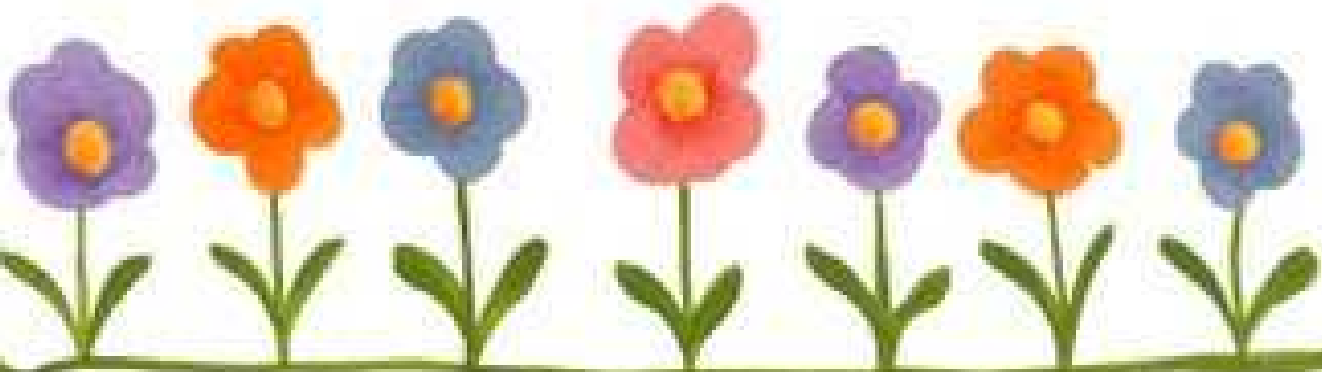

He has become slow in reading.

He is unable to write words during dictation, he makes lots of mistakes, since his pronunciation is not clear.

He is also unable to write full sentences, even though he speaks them.

Special focus is being given to improve his matras, reading and writing.

## ARJUN, 7 years, Flower Group

Odia Language - Arjun is irregular to class.

Although he is not interesting in learning Odia, he has started to read small words without matras.

He is not too keen on Odia songs and drama.

Math: He is not much interested in Math. Though we are encouraging him, he doesn't enjoy playing with numbers.

He is not doing math regularly, still he is able to solve the problems on his own.

He is able to count more than hundred serially; he needs help to count backward.

Since he is irregular, his speed in solving the math problem has decreased.

He is able to do addition and subtraction of two digit number with carry over and borrowing.

He can arrange the numbers in ascending and descending order, if someone reads the written form for him.

## ARJUN, 7 years, Flower Group

He is able to do skip counting of 2,3,4,5,6 etc but with big numbers he falters and takes lot of time also.

He has understood the concept of place value for ten and ones.

He does the four operations mentally with ease, but if only the given number is within twenty.

Project work: Arjun is an expressive child, whenever a new topic is taken for discussion; he doesn't keep quiet, until he has shared all his experiences and collected all related information.

Whenever he is in class, he works hard using his mind.

He is comfortable making songs, riddles, and stories.

He picks up the new words, recalls and uses them.

He receives the knowledge from the surroundings.

# ARJUN, 7 years, Flower Group

He worked on different topics of Me And My-Self, Sports Day, Time, Mother's Birthday, Trees And Plants.

But since he was irregular he could not learn, enjoy the activities and he was not able to understand them in detail.

There are some essential areas where he is being motivated and encouraged. He needs to work on these.

Being punctual, truthful, hard working are some of them.

Being focused and concentrate on a particular activity.

He starts with great enthusiasm, but isn't able to sustain the enthusiasm.

# ARJUN, 7 years, Flower Group

Games and Sports: He is doing games and exercises with the group regularly.

On sports day he was struggling to stand in a queue and do the different movements.

He is not only disturbed within but he disturbs others laughing and giggling without any reason.

After being encouraged, involved, explained and scolded at times, he could finally learn the steps and do the different drills and creative marching performed by the Flower Group.

Many days during games, he runs to his house.
