

Sheila Naik

Sheila is a very quiet girl – she doesn't talk much to her classmates or Diyas but she just gives a sweet smile to everyone. She comes to school regularly but earlier, she was not coming to the group and was wandering around in the school premises for one month. She took time to mingle up with the Diyas and other children of the group but once she came, she continued to stay in the group. Even now, she is not very friendly with other children except Ani. Ani is her best friend as both of them come from the same village.

Circle time:

Sheila always sits nicely in circle time. She doesn't disturb anybody in the group but she gets very distracted when her eyes fall on her mother who works in the school campus. She keeps telling Ani to go out of the group. And once she is out of the group, it's very difficult to bring her back. She always listens to the songs sung in the group but never sings with her friends.

Cleanliness:

Sometime Sheila is neat and wears clean clothes. She brushes her teeth regularly in the school with her friends.

Food habits:

Sheila eats all types of food. She takes as much as she needs. She doesn't waste food but she doesn't like a few vegetables such as brinjal, pumpkin and bottle gourd.

A decorative border surrounds the page, featuring colorful balloons in shades of green, blue, purple, orange, and red. Interspersed among the balloons are small, multi-colored stars and confetti, creating a festive and celebratory atmosphere.

• Language:

Sometimes Sheila responds to Diyas when she is asked a question in the village language. At present, she is not able to understand Hindi properly - so she neither speaks in Hindi nor does she responds when she is asked any questions in Hindi. But she follows small instructions given by the Diyas in Hindi. She likes to listen to stories from the books but puppet show is her favourite activity. She shows her interest in the puppet show by giving different facial expressions such as smile, sadness and anger.

• Skill development:

Sheila does the activities which Diyas make her to do. She can make drawings of flowers, colouring and scribbling on the paper. She enjoyed making things with colour clay. When she doesn't feel like doing any activity, she just sits beside Diyas. She likes to play with blocks and keeps making different types of houses and vehicles using them.

• Games:

In games, Sheila plays with her friends in the sandpit and makes different thing in the sandpit. She loves to swing by sitting between her friends in the swings. She likes to run, jump and hop with her friends.
