

MAHENDRA, 4 YRS

Mahendra comes to school regularly.

Sometimes on reaching school, if he doesn't find anyone around, he will go back half way, keep playing in the fields rest of the day and reach home at school closing time.

He communicates and interacts with everyone in the group and also with elder children and guests. He doesn't feel shy.

He has been coming to school for almost 2 years now but still he hasn't picked up hygiene habits. He doesn't stay clean and needs to be continually emphasised for the same.

He likes outdoor games and activities, like climbing on the tree, going for walks, running, playing etc. He wants to play football with older children.

Sometimes he is rude with other children and unnecessarily hits/kicks them.

When they cry, before a teacher can questions him, he goes, pacifies and befriends them. Whatever snacks he gets from home he finishes on way to the school.
