

# Jayanti Krisani

**DOB-03-Apr-14**

**Report for 2022-23 (first term)**

## *English*

Jayanti shows keen interest in language-based activities. Her reading, writing and comprehension skills are slowly improving. She speaks with confidence and has good pronunciation. She is able to express herself a little better now. She is able to comprehend and recall what has been read. She is able to write meaningful sentences, but she makes silly errors in writing. Regular reading will help her to

improve further. She has the

ability to learn a lot of new and varied things, but she gets distracted easily.

## *Hindi*

After finishing the 5<sup>th</sup> class book, she is now giving chapter wise tests. She scores good marks in the tests. There is already a lot of improvement in her reading and handwriting. She likes to read *Panchatantra* stories, because the stories have a variety. She did a play on 5<sup>th</sup> July, in which she had

played the character of “Ganga maa”. She was delivering her dialogues with a lot of emotions, which the audience appreciated. Whenever any activity is done, she observes it carefully and asks questions related to it. She concentrates in the class most of the time, and only on very few occasions, she is not able to pay attention.

### *Odia*

She enjoys reading Odia books in the class. After watching a movie, she writes the summary of the whole movie in Odia. She is able to concentrate in the class till it gets over. When she takes dictations, she gets most of the words correct. She is able to learn the songs taught in the class very fast and likes to learn them from Anuradha di.

### *Maths*

Jayanti is in 4<sup>th</sup> class and is very keen to learn more. She is intelligent and with a little thinking she can do Maths very easily. She answers most questions of the textbook without any help. Usually, she answers the questions correctly but because of a few silly mistakes, some of her answers are wrong; with a bit more concentration this problem also can be solved. She comes to get her notebook checked many times. She has finished multiplications and divisions and is doing factors and multiples at present. She can now solve the questions from the text easily, but she needs to work harder to understand the word problems. Overall, she is a good student.

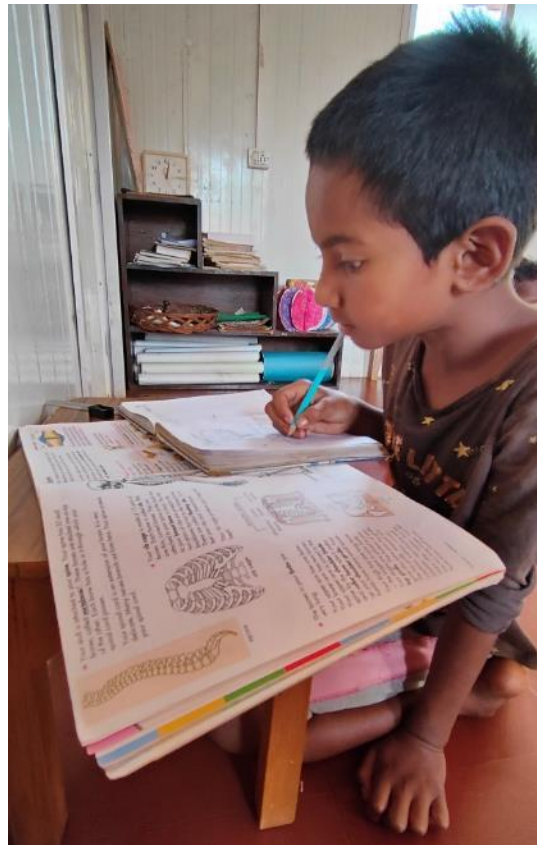

### *Projects*

**Simple machines:** Jayanti liked this topic and enjoyed it as we did many activities and made some models. She couldn't remember many of the things after the discussion, but she tried her best and wrote whatever she understood. After a second round of explanation, she could write everything. She learnt the different types of simple machines and their usage in daily life. She needs to put in a little more effort and pay attention in the class so that she can understand and remember everything better.

**Human Body:** While we were doing the project on human body, we taught them six systems of the body - out of the six systems, Jayanti had difficulty in the circulatory system. But she just sat quietly in her place, and she never asked any questions on her difficulties. Sometimes, she plays in the class. In the tests, she could not answer properly because she was not able to understand the questions. The marks secured by her were: 6/20 in nervous system, 7/20 in skeleton system, 5/15 in digestive system and 7/10 in the respiratory system.

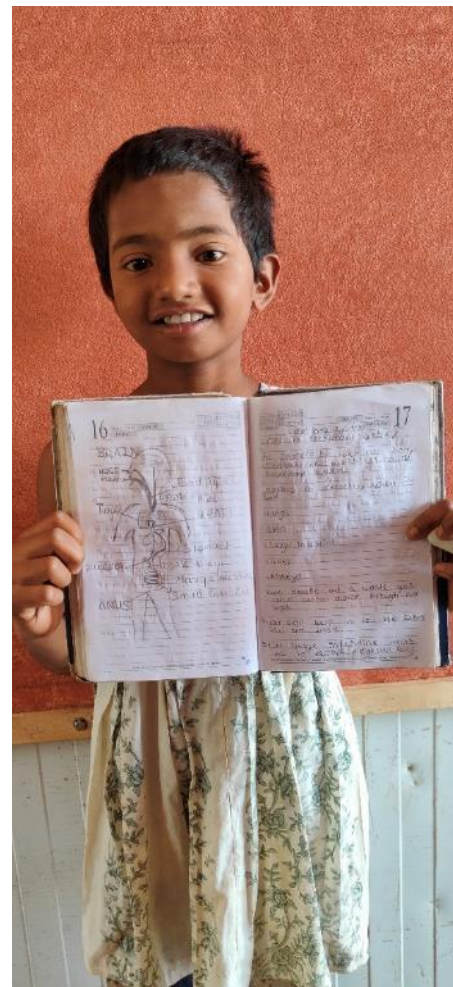

**Countries and capitals:** When we started the project of countries and continents, we told the students to take one country and read about it and write down whatever they have read about that country. Jayanti took up Greenland - she read about it and wrote whatever were the main features of Greenland. She presented well in the class, but some words were not clear. Jayanti also tried her best to memorise the countries and capitals and she played the game of countries and capitals well.

**Civilizations:** When we were doing the project of civilization, the best that Jayanti liked was ornaments of

the early people. She studied about ornaments and she made the chart of ornaments. She presented well about ornaments. Jayanti is able to understand the concept properly but she is not able to write it in the test.

### *Computers*

Jayanti has computer class on Thursdays and enjoys it very much. She is learning the “Typing Master” and she can type nicely but sometimes she makes mistakes. She just learnt to do painting on the computer, so it gets difficult for her to manage it by herself. Bhaiya had given her test on lesson 1 and lesson 2 and she had tried to do her best.

## Music

Jayanti likes to sing *raags* like *raag Bhupali* with the help of harmonium. Didi teaches them various songs with *taal* like *teentaal*. She is able to sing the *sargam* in tune and in sequences. She can count *teentaal* by using her hands.

## Dance

Jayanti loves to dance. She has learnt many types of dances, like classical, street jazz, hip-hop, and folk dance. She enjoys dancing with music even more. She understands the steps when she is taught but has a little problem in understanding

the music. When she doesn't understand the steps, she asks the teachers. Currently, she is learning *bhangra* dance.

## Games

In games, Jayanti is in F group. She is very active at games. Her running is also very fast, like her brother's. She plays different games like dodgeball, base kick ball, football, minor games and basketball. Before starting the games, she always meditates for a

minute and then starts her games. She does her warm-up with her respective teachers. She is very fond of playing football and she encourages her team to play football. She tries very hard, and she loves to score goals. She loves playing base kick ball also, because she is able to kick the ball very far and she can take many runs till the ball has come back. In basketball, she loves scoring baskets with her team. She ends her games at 4:30 pm and goes for tiffin.

## Celebrations

5<sup>th</sup> July: On the fifth of July, the school's birthday is celebrated. Jayanti performed some plays on the stage as a gift to the school. She did a play in Hindi which was "Ganga ka Avtaran". In this play, she took the role of Ganga. She acted confidently without being nervous, speaking her dialogues clearly

that the Ganga has actually come down to the earth. She also did a dance taught by Suparna didi on the song "Sri Ram Chandra Kripalu Bhajaman". She sang an Odia song taught by Papa ji and Anuradha didi, and she sang it beautifully.

without getting afraid. She acted really well. Seeing her, the audience were thinking

11<sup>th</sup> August: On 11<sup>th</sup> August, Jayanti celebrated the *Raksha Bandhan* festival. She listened to some stories related to *Raksha Bandhan* and sang some songs related to the festival. She tied *rakhi* to one of the Bliss group children.

## *Shramdaan*

Jayanti starts her *shramdaan* after *yogasan*, at 6:30 am and finishes at 7:30 am. She does the cleaning of her own hostel, in which she cleans the staircase, toilet, and mops the floor and fills water in the filter. She loves cleaning her hostel. She is very happy while doing her *shramdaan*. She has her own partner who helps her to clean the toilet and staircase. She does her *shramdaan* without any complaints, and after *shramdaan* she keeps the materials in their respective place. On Sundays, she does her individual *shramdaan*, like cleaning her room and cleaning her dirty clothes, blankets and bedsheets.

## *Trip to South India*

Jayanti was excited to see south India. Before the trip, she was eagerly awaiting for the departure date. She visited the Simhachalam temple, Rameshwaram, Madurai, Kanyakumari and Pondicherry. In Simhachalam, she climbed more than thousands steps. This was her first experience in a train. In Rameshwaram, she saw a *palki* and it was beautiful and interesting for her. In Madurai, she saw different temples and she was very surprised to see all of them with beautiful

designs. In Kanyakumari, she saw the sunrise and the Hanuman statue which were attractive to her. When they went to Puducherry, she went to Paradise beach and she liked the beach the most.

She swam in the beach and she also visited the backwaters. While swimming the water was going inside her eyes and it was salty. In Mathrudyan, she saw many different kinds of flowers and she learnt

many new things such as Vermicompost, artificial mist, and storage of water for plantation. She liked the trip very much. She was overall fit and fine during the whole trip.
