

Prakash Krisani

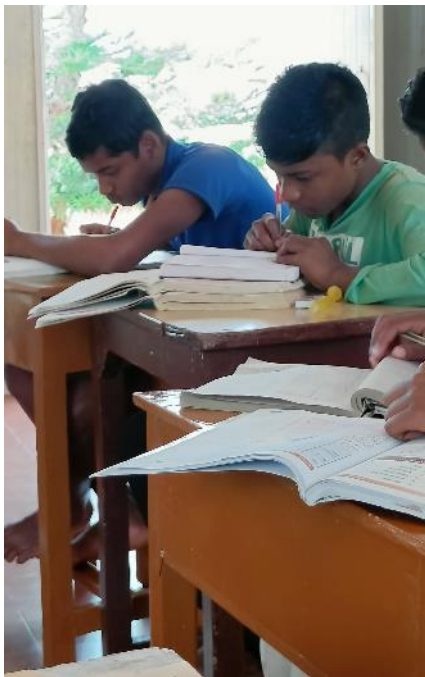

Date of Birth – May 2, 2008

Report for 2022-23 (first term)

My name is Prakash. I stay in the hostel because I get the opportunity to study more here. I am a student of Class 10 and am studying English, Hindi, Home Science, Art and Social Science. I have finished the syllabus of Hindi, Home Science and I am revising for taking tests. My favourite game is football.

English

I have finished the first book of English and am currently doing the second book. I am revising the questions and answers of the first book and our teachers are giving us tests. I get passing marks but there are times I am not able to score well. My handwriting is good and I can read properly. In free reading time, I read Robin Hood, Ben Hur, Moby Dick, etc. At the time of Ganesh puja, I narrated a story

about how Ganeshji lost his tooth. Although I was very nervous, I was able to narrate it well. On August 15, we did a play on Sri Aurobindo.

Hindi

I like this subject and have finished both the books of Hindi. I am revising the first book and giving tests. I like to read epic books like Mahabharat, Ramayan and other similar books. In dictation, I get the spellings of some words wrong especially when I am writing them in a hurry. Krishna didi taught us grammar and we have done letter writing, message writing and essay writing. Poonam didi taught us the art of concentrating. She taught us how to write a paragraph in just 5 minutes and took us to the garden so that we could learn more about trees and nature. Our teacher asks us to copy stories so that we can improve our handwriting and our writing speed.

Home Science

I am interested in learning this subject. I ask questions when I do not understand any concept and whenever didi asks any questions I am able to answer her. I have finished

both the books of Home Science and I am now in the process of trying to finish the notes. Sometimes I do take help of didi. I find chapters like fibre finishes and fibre and fabric difficult to understand. I have understood the other chapters and I am enjoying doing the practicals.

Art and Painting

I like the Art class and in this class I enjoy drawing the objects, nature, humans and animals. I am also doing the theory of Art. Only three chapters are left. I am trying to do even better. I have made a picture of Sri Aurobindo.

Computers

In computer class we are doing painting and typing master. I have to improve the typing speed even more. Sometimes we practise asdfghjkl

in computer class. We have this class once a week.

Shramdan

In Shramdan, I do many activities during gardening like digging, taking out the weeds from the grass, watering the plants and growing plants. I also mop the hostel area and clean the toilet. I like gardening.

Sports

I like playing football, basketball and volleyball. I love to play football and am quite good at it but I cannot play basketball properly. I like to play football on rainy days and volleyball in summers.

Social Science

We are doing both the first and the second book. We are learning about the Indian National Environment, resources and development. We have already taken a test on chapter 5. We have completed Civics. Sudeep bhaiya taught us some chapters of Geography and he used visual aids to explain it to us. Due to my hard work I am able to score well in some tests. We have also

covered some chapters of History. I find History interesting. We have learnt about Sri Aurobindo's life in jail.

Celebrations

On July 5, we did a drama, "Ouch". The play was in three parts and my role was in the second part. In the play, I was the minister. On Independence Day and Sri Aurobindo's Birthday on August 15, I took part in a play on Sri Aurobindo. My role was of one individual in a group. On Ganesh Puja, I made the idol of Ganesh

and coloured it. I also narrated the story of how Lord Ganesha lost his tooth. I was quite nervous at the time. I like participating in celebrations of the festivals.
