

# Prabhat Krisani

**Date of Birth – May 10, 2009**

**Report for 2022-23 (first term)**

My name is Prabhat. I stay in the hostel and like it because it is clean. I love playing football. I am a student of Class 10. I like to study all the subjects. My hobby is gardening.

## *Hindi*

We have completed both the textbooks of Class 10. I found most of the chapters very easy and I have completed all the questions and answers of the chapters and also took a test and dictation of each chapter after revising them. In Grammar, we have covered concepts like Varna Vichhed and Subject and Predicate. During the free reading time, we read books for pleasure and mostly read the books which we can understand and enjoy. My handwriting has improved but more needs to be done.

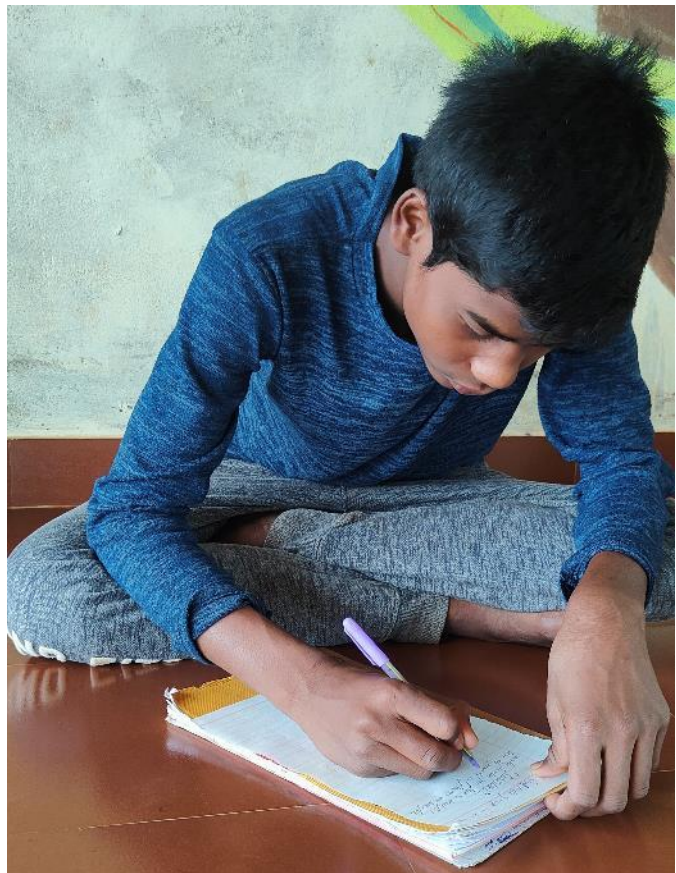

## English

We have completed the Book 1 of Class 10<sup>th</sup> of National Institute of Open Schooling (NIOS) syllabus. I revise two or three chapters and then take a test. I am able to clear these tests. I was able to understand the chapters of the book. I learnt new concepts of grammar from the textbook besides doing active and passive voice and direct and indirect

speech. Understanding direct and indirect speech was a little difficult. We also revised comprehension, letter writing, message writing, notice writing and paragraph writing. We performed a play on Sri Aurobindo on August 15. We also did another play "OUCH" on 5<sup>th</sup> July in English.

## *Odia*

In this subject, we are doing the book of Class 4. In that book we read stories and poems, tried to understand them properly and attempt to do the questions and answers thereafter. We also learn new songs in the language and sing them on festivals. Before August 15, we wrote an essay on Sri Aurobindo. Our Didi asked us questions in the Quiz and I was able to answer quite a few of them. Sometimes we listened to stories and the teachers gave dictation. I am able to speak Odia better than before. I have also improved my handwriting. I can now understand Odia better.

## *Mathematics*

In mathematics, I have completed the book of Class 8. In the test I scored 57 out of 100. We have started doing the book of Class 9 written by Mr. R D Sharma. I have completed 5 chapters of this book.

Some chapters like Rationalisation and Factorisation were difficult for me to understand. I need to make a lot of improvement in the subject. Whenever I am unable to understand a chapter or a concept, I go to Didi for help.

## Science

We have completed the chapters of Chemistry and I was able to understand them. I have completed half of the syllabus

of Physics but found some chapters difficult to understand. We have also studied two chapters of Biology which I found easy to understand. We did experiments with Raghu bhaiya about

electrolysis in plants, their respiration and about speed and motion. By doing the experiments, the concepts became clearer to me. We also did experiments on acids, bases and salts and showed to other children. We do all the exercises given in the chapters and write notes. I was able to pass the test given to me.

## **Social Science**

In the Social Science class, we are doing Book 1 of Class 10 syllabus of NIOS. We have completed half of the chapters of Civics. We have completed the Geography module and are currently doing the third chapter on History. I like to study Geography because I find it easy to understand. We try to answer all the questions given in the chapters and also write extra

notes. I like to give the test of Geography because I find it easy. I also enjoy reading National Geographic magazines.

## **Art**

I like to do art class because we make new things with colourful papers. We made hanging flowers and gladioli with paper. We also did painting with water colours. We made the flowers for decoration in the celebrations.

## *Computer*

In the computer class we do painting and typing master. I have improved my typing speed than before.

## *Dance*

Denis bhaiya had come before August 15 and taught us many types of dances. He taught us Jazz dance and I loved the steps. We also did choreography for some songs. I used the different parts of my body to express my name. We also played the Ninja game and the Boat game. We also performed a dance on 15<sup>th</sup> August on the song: Vande Mataram.

## *Music*

In music we play different Talas and different kayeda. We write kayeda, revise it and play it. I play on the tabla in different speeds. We also sing many songs. We also do Solo playing and Solo singing.

## Shramdan

In Shramdan we do kitchen work, toilet cleaning, hostel cleaning, gardening, and school cleaning. In the kitchen, I wash utensils, cut vegetables and fill the filters with water. In toilet cleaning, I wash toilets, wash basins and clean drains. In hostel cleaning, I wash the drains, mop the dining hall and sweep the Verandah. In gardening, I do weeding, plant trees and flowering plants and water the plants. While cleaning the school, I sweep the courtyard and clean the group classrooms. I like gardening work and kitchen work the most.

## Sports

I play football, basketball and volleyball but my favourite game is football. In football, I sometimes play

as a goalkeeper and sometimes as a forward. When I score goals I feel extremely happy. I like to become the netkeeper when I play volleyball. I used to like playing basketball. We also do running and exercises as warm up. In these warmup exercises, I like to do joint exercises, sit-ups, windmill and running.

## Celebrations

While celebrating festivals, we do dramas and sing songs. On May 7, I gave a speech on Rabindranath Tagore. On July 5, we performed a play, "Ouch" and I played the part of Leechad Shastri. We also celebrated Rath Yatra where I played the drums. We celebrated Raksha Bandhan and tied rakhi. On August 15, we did a drama on Sri Aurobindo. We also did a dance on the song Vande Mataram.

## Trip to South India

I really enjoyed the study tour to Tamil Nadu. We went to Simhachalam (A.P) and saw the temple there. We then visited

Kanya Kumari and saw the Rock Memorial of Swami Vivekananda, the museum, the fish aquarium and sun set and sun rise. After this we went to Rameshwaram and saw the Rameshwaram temple, the house of Dr A.P.J Abdul Kalam, Dhanushkodi and the Museum of Kalam. We also went to Madurai and saw the temples there. We went to Pondicherry and went to the Samadhi, the playground, Sri Smriti, Auroville and Garden's Bakery. I liked Pondicherry the most.
