

# Mahendra Krisani

**DOB-01-Feb-11**

## Report for 2022-23 (first term)

My name is Mahendra and I am 11 years old.

### English

During the English class, I do group reading, self-reading, grammar, and textbook. I am doing good in the grammar book. Didi gives us dictation and during group reading I read with the help of a kindle. Now I am doing book 5 of NIOS, in which I am doing tenses. In the class, sometimes Didi teaches us poems and once a week, she shows us a movie.

### Hindi

I am now following the 5<sup>th</sup> class book of "Rimjhim" and I am also doing the grammar of 3<sup>rd</sup> class. When I finish the book, I will revise them for the test of the whole book. Sometimes while writing, I make a lot of mistakes. I am able to write some words correctly. I have to work hard for the whole book test. I have improved my Hindi handwriting. On 5<sup>th</sup> July, I did a play about God in which I has the role of *vidwaan*. When I go to the library, I read Panchatantra books. After going home, I have forgotten everything and now I am revising the book again. I have also learnt the *havan* mantras.

## *Mathematics*

I find mathematics a little difficult and I don't understand properly when Didi explains it. I understand some parts a little bit, but some others which are more difficult, I don't understand them properly. I am doing the class 6 Maths book now, in which I am doing the chapter on whole numbers.

## *Science*

In Science class, I do experiments with Ambika didi and Jagat bhaiya. I have done experiments on electricity and hydrogen gas with Bhaiya. I have finished topics of light and gas in the class. During the class, I am always inattentive, and my concentration is always outside.

## *Social Science*

I am studying Social Science, and we have completed the syllabus of History and Civics. I like History, but I don't like Civics because sometimes I don't understand it. I like to do question-answers. But in the tests, I am not able to do well, due to which I get a less marks, and Didi is not happy about it. I am trying to do my best in the tests. During the class when Didi is explaining something, I am not able to understand it properly because I don't pay attention and I find myself always looking out of the window.

## Games

In games, I like to play football. I like to play as a forward. I am also playing other sports like basketball, frisbee, dodgeball, and base kickball. During rains, I

always play football. Sometimes I don't like to play basketball and frisbee. The games which I like to play are football and base kickball. As nowadays, I am going home, I am not in school in the evening for games.

## Shramdaan

in *shramdaan*, I was in group D. During *shramdaan*, I was doing toilet cleaning, school cleaning, kitchen work, gardening and hostel cleaning. Now because I go home, I don't do any *shramdaan*.

## Home

I don't like to stay in school. When I am at home, I am always playing marbles and I take the

cows to graze in the forest. Later in the evening, we bring the cows back and eat our food. After eating, I watch movies but now I am playing football with the elders.
